

CAMPBELL COUNTY

Demographics

The Census Bureau's current census estimates indicate that Campbell County's population increased from 46,133 in 2010 to 48,803 in 2016, or by 5.8 percent. This compares to a statewide population change of 3.9 percent over the period. The number of people from 25 to 35 years of age increased by 3.8 percent, and the number of people from 55 to 64 years of age increased by 32.2 percent. The white population increased by 4.8 percent, while the black population increased by 89.1 percent. The Hispanic population increased from 3,611 to 4,216 people between 2010 and 2016 or by 16.8 percent. These data are presented in Table II.3.1, below.

Table II.3.2, on the following page, presents the population of Campbell County by age and gender from the 2010 Census and 2016 current census estimates. The 2010 Census count showed a total of 24,258 males, who accounted for 52.6 percent of the population, and the remaining 47.4 percent, or 21,875 persons, were female. In 2016, the number of males rose to 25,309 persons, and accounted for 51.9 percent of the population, with the remaining 48.1 percent, or 23,494 persons being female.

At the time of the 2010 Census, there were 422 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 31.5 percent, as shown in Table II.3.3, below.

Table II.3.3 Group Quarters Population Campbell County 2000 SF1 and 2010 Census Data

Total	203	162	-20.2%
Group Quarters Population	321	422	31.5%

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

⁸⁸ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.3.4, below, shows data on household type by tenure in the 2015 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 12,193 family households, of which 9,833 housed married couple families and 2,360 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 945 families, or a female householder with no husband present, of which there were 1,415 families. There were also an estimated 5,317 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Campbell County was 69.6 percent, which compared to the statewide rate of 64.9 percent. Of the family households in Campbell County, 80.6 percent were married households, which compared to 79.7 percent in the State of Wyoming.

Household Type	Campbell County		State of Wyoming	
	Campbell County	% of Total	State of Wyoming	% of Total
Family households	12,193	69.6%	147,229	64.9%

Table II.3.5, on the following page, displays the 2015 5-year ACS census data for household type by household size. In 2015, there were 4,907 two-person family households, 3,001 three-person family households and 2,480 four-person family households. One-person non-family households made up 76.9 percent of all non-family households or an estimated 4,091 households. Campbell County’s two persons households made up 34.2 percent of total housing units and four person households made up an additional 14.3 percent, which compares to 38.2 and 11.3 percent, respectively, for the State of Wyoming.

Poverty statistics were also reported in the 2015 5-year ACS estimates, and these data are displayed in Table II.3.11, below. In total, the poverty rate in Campbell County was 7 percent, which compared to a statewide poverty rate of 11 percent in Wyoming. The male population in Campbell County had a poverty rate of 6 percent and the female population had a poverty rate of 9 percent. There were 380 males and 285 females in poverty under the age of 5. Overall, 19.5 percent of persons in poverty in Campbell County were under the age of five, which compared to 12.0 percent statewide. The elderly population, comprised of individuals 65 years of older, had 154 individuals with incomes below the poverty level which represented 4.5 percent of the total population in poverty. In the State of Wyoming there were 5,008 individuals with incomes below the poverty level which represented 7.7 percent of the total Wyoming population in poverty.

Table II.3.12, below, presents the breakdown of households by unit type and tenure. Between 2010 and 2015, Campbell County saw an average of 9,993 owner-occupied single-family units compared to 1,242 single-family rental units. In Campbell County, single-family units comprised 64.2 percent of all households compared with 71.8 percent statewide. Campbell County had a total of 1,964 apartment rental units and total apartment units accounted for 11.2 percent of all households. In the State of Wyoming, apartment units accounted for 8.7 percent of total households. There were also an estimated 3,231 mobile homes in Campbell County, which comprised 18.5 percent of all occupied housing units and compared to 12.9 statewide.

The age of a structure influences its value. As shown in Table II.3.16, at right, structures built in 1939 or earlier had a median value of \$171,200, while structures built between 1950 and 1959 had a median value of \$179,000 and those built between 1990 to 1999 had a median value of \$207,900. The newest structures tended to have the highest values and those built between 2010 and 2013 had a median value of \$280,800. The total median value in Campbell County was \$212,200, which compared to \$194,800 in the State of Wyoming.

Year Built	Campbell County	State of Wyoming
1939 or earlier	171,200	156,400
1940 to 1949	173,200	145,000

Annual Unemployment Rate
 Campbell County
 1990 – 2016 BLS Data

The BLS produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent only filled jobs, whether full or part-time, temporary or permanent, by place of work the pay period. Data from this series are from the period of January 2005 through December 2016 and are presented in Table II.3.21, below, with the 2016 information considered preliminary (p). Between 2015 and 2016, total annual employment decreased from 27,899 persons in 2015 to 24,976 in 2016, a change of 10.5 percent.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2015, the most recent year for which data are available, Campbell County recorded 37,491 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$2,690,020,000, and real per capita income was \$54,653 in 2015. This compares to a statewide average real per capita income of \$56,081. The average earnings per job in the county was \$71,220 in 2015, while Wyoming average earnings per job was \$53,875. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, real average apartment rent in Campbell County decreased from \$763 to \$650 from fourth quarter 2015 to fourth quarter 2016, or by 14.8 percent. During the same period, detached single-family home rents decreased by 17.7 percent, rents for mobile homes on a lot decreased by 12.0 percent, and rents for mobile home lots stayed the same.

Campbell County rental prices experienced average annualized increases of 0.5 percent for apartments, 0.6 percent for houses, 1.2 percent for mobile homes plus a lot, and 1.0 percent per year for mobile home lots since second quarter 1986 through fourth quarter 2016. These figures compare to state average annualized increases in rental prices of 0.8 percent for apartments, 1.2 percent for houses, 1.0 percent for mobile homes plus a lot, and 0.9 percent for mobile home lots over the same period. Table II.3.24, at right, presents the Campbell County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Campbell decreased from 109 authorizations in 2015 to 53 in 2016.

The real value of single-family building permits decreased from \$396,486 in 2015 to \$300,335 in 2016. This compares to an increase in permit value statewide, with values rising from \$353,167 in 2015 to \$353,422 in 2016. Additional details are given in Table II.3.25, below.

Table II.3.25 Building Permits and Valuation Campbell County Census Bureau Data, 1980–2016							
Year	Authorized Construction in Permit Issuing Areas					Per Unit Valuation, (Real 2016\$)

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2016, the average sales price in Campbell County was \$248,298. This represented a decrease of 0.8 percent from the previous year. Wyoming’s average was \$280,428, an increase of 1.7 percent over the previous year. A comparison of average sales prices between 2000 and 2016 is displayed in Table II.3.26, on the following page.

Year	Campbell County Average Price (\$)	Campbell County Annual % Change	Wyoming Average Price	Wyoming Annual % Change
2000	151,615	.	131,207	.
2001	130,981	-13.61	128,771	-1.86

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually during the past 17 years, with the most recent survey conducted in June 2017.⁸⁹ During June 2017, a total of 121 surveys were completed by property managers in Campbell County. Of the 3,144 rental units surveyed, 540 were vacant, indicating a vacancy rate of 17.2 percent, as shown in Table II.3.27, at right. This compares to a 13.9 percent vacancy rate one year ago and a June 2017 statewide vacancy rate of 11.1 percent.

Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	13	816	6	0.7%
2001b	10	749	5	0.7%
2002a	13	848	10	1.2%

2017a	121	3,144	540	17.2%

⁸⁹ Those signified as a in the “year” column of Table II.3.27 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.3.4, below, shows the historical vacancy rate for Campbell County and Wyoming. As can be seen, the vacancy rate in Campbell County was lower than the statewide rate for the first half of the decade, but jumped up above the statewide rate in 2007 and has been higher until the 2014 surveys, when it fell to 1.8 percent in December 2014. However, the decrease in oil prices and production has driven the vacancy rate up to 17.2 percent in the most recent 2017 survey.

Diagram II.3.4

 Campbell County vs. Wyoming
 RVS Data, June 2001 – June 2016

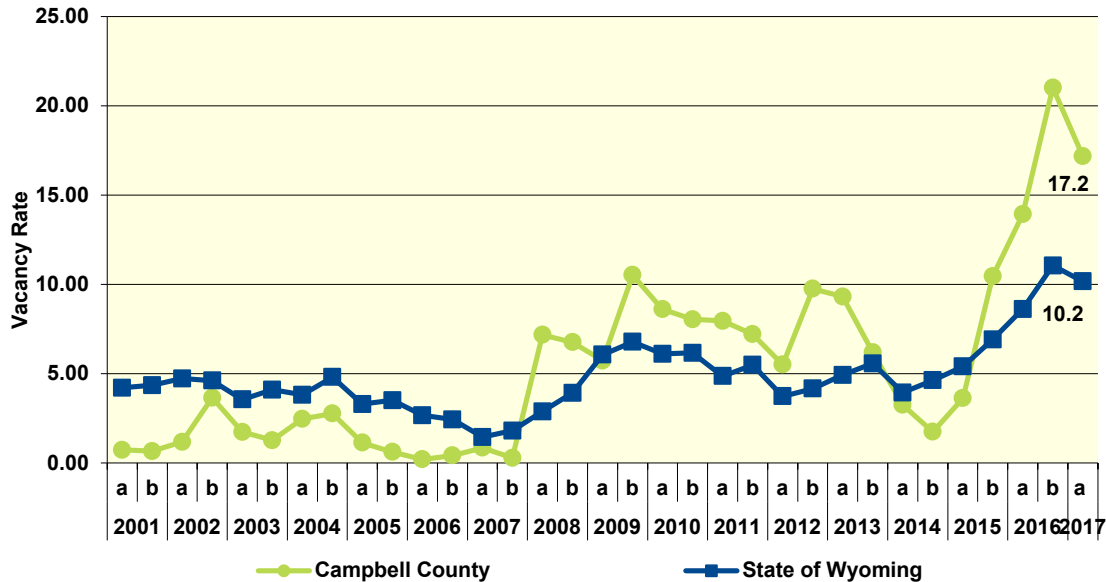

Diagram II.3.5, below, shows the average rent of single-family and apartment units in Campbell County. In the first half of 2017, rents for single-family units fell to \$1,062 and average rents for apartments fell to \$673.

Diagram II.3.5
Average Rent of Single Family and Apartment Units
 Campbell County
 RVS Data, June 2006 – June 2017

Table II.3.28 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 131 single family units in Campbell County, with 10 of them available. This translates into a vacancy rate of 7.6 percent in Campbell County, which compares to a single family vacancy rate of 5.8 percent for the State of Wyoming. There were 2,285 apartment units reported in the survey, with 430 of them available, which resulted in a vacancy rate of 18.8 percent. This compares to a statewide vacancy rate of 11.2 percent for apartment units across the state.

Table II.3.28			
Rental Vacancy Survey by Type			
Campbell County			
RVS Data, June 2017			
Place	Total Units	Vacant Units	Vacancy Rate
Single Family	131	10	7.6%

Average market-rate rents by unit type are shown in Table II.3.32, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.3.32 Average Market Rate Rents by Number of Bedrooms Campbell County RVS Data, June 2017						
Number of Bedrooms	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	“Other” Units	Total

Table II.3.35, below, shows the condition of rental units by unit type for Campbell County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details by unit type and condition are displayed below.

Table II.3.35 Condition by Unit Type Campbell County RVS Data, June 2017							
Conditions	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	“Other” Units	Don’t Know	Total
Poor						.

Total	42

Table, II.3.39, on the following page, shows the most common answers from the 2017 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Campbell County had a total of 18 respondents, with an average persons per household of 2.3 people. Of new residents to Campbell County, 50.0 percent were married and the most common age group arriving in the state was 55 to 64 years old. Most new residents moved to be closer to friends or relatives.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in an apartment, with 66.7 percent of respondents renting their residence. The average mortgage payment in Campbell County was \$400 and the average rent was \$643. When asked if they were satisfied with their current housing, 94.4 percent said they were satisfied with thier current housing.

Table II.3.39 Most Replied Response Campbell County HNA Survey: Fiscal Year 2017	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	18
Number of persons in household (Average)	2.3
Current age	55 to 64 years old (27.8%)
Marital status	Married (50.0%)
Primary reason for moving to Wyoming	Friends or relatives in Wyoming (66.7%)
In which industry are you primarily employed	Retired (27.8%)
Highest education level completed	High School Diploma/GED (44.4%)
Total household income from all sources	\$10,000 to \$19,999 dollars (27.3%)
Current Housing Characteristics	
Current Residence	Apartment (38.9%)
Do you own or rent	Rent (66.7%)
How many bedrooms (Average)	2.6
How many full bathrooms (Average)	1.6
Average mortgage payment	\$400
Average rental payment	\$643
Are you satisfied with your current housing	Satisfied with current housing (94.4%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Housing unit is too small (100.0%)
Are you seeking to change your housing situation	Not seeking different housing (100.0%)

For residents who are unsatisfied with their current housing, 100.0 percent were unsatisfied because the housing unit is too small. Additional survey data are presented in **Volume II. Technical Appendix.**⁹⁰

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2015 5-year ACS data, 369 or 2.1 percent of households in Campbell County were overcrowded and another 97 or 0.6 percent of units were severely overcrowded, as shown in Table II.3.40, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

⁹⁰ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Table II.3.40

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2015 5-year ACS, a total of 213 units or 1.1 percent of all housing units in Campbell County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.3.41, at right.

Table II.3.41 Housing Units with Incomplete Kitchen Facilities Campbell County 2010-2015 5-Year ACS Data		
Facilities	Campbell County	State of Wyoming
Complete Kitchen Facilities	19,312	259,728
Lacking Complete Kitchen Facilities	213	6,902
Total Housing Units	19,525	266,630
Percent Lacking	1.1%	2.6%

At the time of the 2015 ACS, a total of 176 units or .9 percent of all housing units in Campbell County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.3.42, below.

Table II.3.42 Housing Units with Incomplete Plumbing Facilities Campbell County 2010-2015 5-Year ACS Data		
Facilities	Campbell County	State of Wyoming
Complete Plumbing Facilities	19,349	260,327
Lacking Complete Plumbing Facilities	176	6,303
Total Households	19,525	266,630
Percent Lacking	.9%	2.4%

The third type of housing problem reported in the 2015 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Campbell County, 14.4 percent of households had a cost burden and 6.5 percent of households had a severe cost burden, which compared to 14.3 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 12.5 percent of homeowners with a mortgage in Campbell County experienced a cost burden and 5.2 percent experienced a severe cost burden, while 25.2 percent of renters had a cost burden and 12.8 percent had a severe cost burden, as seen in Table II.3.43, on the following page.

2017 WCDA Loan Profile

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 6,220 loans purchased in Campbell County between 1979 and 2017, with 98 occurring in fiscal 2017. The average home size over the period was 1,319 square feet and 1,480 square feet in fiscal 2017. For homes receiving a WCDA loan in fiscal 2017, the average year a home was built was 1997. The average household income in fiscal 2017 in nominal terms, without the effects of inflation being taken into consideration, was \$53,863. The average purchase price in fiscal 2017 was \$161,063. In fiscal 2017, 0.0 percent of loans purchased were for new construction, and 30.6 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**

The cost of living index in Campbell County is currently the same as the State average.⁹¹ The County has been hit pretty hard by the decline in the State’s energy economy, however, and sales and use tax collections were down \$21.2 million during the first eleven months of the 2017 fiscal
