

CONVERSE COUNTY

Demographics

The Census Bureau's current census estimates indicate that Converse County's population increased from 13,833 in 2010 to 14,008 in 2012, or by 1.3 percent. This compares to a statewide population growth of 2.3 percent over the period.⁶⁷ The number of people from 25 to 44 years of age increased by 1.3 percent, and the number of people from 55 to 64 years of age increased by 6.0 percent. The white population increased by 0.3 percent, while the black population increased by 142.6 percent. The Hispanic population increased from 867 to 992 people between 2010 and 2012 or by 14.4 percent. These data are presented in Table II.5.1, below.

Table II.5.2, below, presents the population of Converse County by age and gender from the 2010 census and 2012 current census estimates. The 2010 census count showed a total of 7,017 males, who accounted for 50.7 percent of the population, and the remaining 49.3 percent, or 6,816 persons, were female. In 2012, the female population increased to 6,871 persons and accounted for 49.1 percent of the population, while the remaining 7,137 persons, or 50.9 percent were male.

⁶⁷ On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 103 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 9.6 percent, as shown in Table II.5.3, below.

Table II.5.3 Group Quarters Population Converse County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year

⁶⁸ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.5.4, below, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 3,640 family households, of which 3,004 housed married couple families and 636 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 183 families, or a female householder with no husband present, of which there were 453 families. There were also an estimated 1,995 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Converse County was 64.6 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Converse County, 82.5 percent were married households, which compared to 80.5 percent in the State of Wyoming.

The age of a structure influences its value. As shown in Table II.5.16, at right, structures built in 1939 or earlier had a median value of \$161,600, while structures built between 1950 and 1959 had a median value of \$159,400 and those built between 1990 to 1999 had a median value of \$162,500. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$188,600 and \$242,000, respectively. The total average median value in Converse County was \$180,500, which compared to \$181,900 in the State of Wyoming.

Year Built	Converse County	State of Wyoming
1939 or earlier	161,600	148,000
1940 to 1949	102,100	130,200
1950 to 1959	159,400	155,800
1960 to 1969	184,100	171,100
1970 to 1979	186,800	180,100
1980 to 1989	181,100	194,300
1990 to 1999	162,500	224,800
2000 to 2004	188,600	247,900
Built 2005 or Later	242,000	245,700
Total	180,500	181,900

Household mortgage status is reported in Table II.5.17, below. In Converse County, households with a mortgage accounted for 61.3 percent of all households or 2,442 housing units, and the remaining 38.7 percent or 1,543 units had no mortgage. Of those units with a mortgage, 541 had either a second mortgage or home equity loan, 12 had both a second mortgage and home equity loan, and 1,889 or 77.4 percent had no second mortgage or no home equity loan.

Mortgage Status	Converse County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	2,442	61.3%	95,294	61.5%
With either a second mortgage or home equity loan, but not both	541	22.2%	16,846	17.7%
Second mortgage only	283	52.3%	8,326	49.4%
Home equity loan only	258	47.7%	8,520	50.6%
Both second mortgage and home equity loan	12	0.5%	733	0.8%

Economics

The HUD estimated MFI for Converse County was \$73,400 in 2013.⁶⁹ This compares to Wyoming’s MFI of \$70,000. Diagram II.5.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Converse County’s labor force, defined as the number of persons working or actively seeking work, increased by 352 persons, from 7,808 in 2011 to 8,160 in 2012. Employment increased by 392 persons; unemployment decreased by 40 persons; and the unemployment rate, the number of

⁶⁹ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

unemployed persons as a percentage of the labor force, decreased from 4.9 percent in 2011 to 4.2 percent in 2012, as shown on the following page in Diagram II.5.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.5.20, below, annual total monthly employment increased by 6.93 percent between 2011 and 2012, from a total of 5,525 to 5,908 workers.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Converse County recorded 8,540 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$638,048,000, and real per capita income was \$46,387 in 2011. The average earnings per job in the county was \$47,686 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming cost of living index, average apartment rent in Converse County increased from \$548 in fourth quarter 2011 to \$656 in fourth quarter 2012, or by 19.7 percent. During the same period, detached single-family home rents increased by 63.3 percent, rents for mobile homes on a lot increased by 4.1 percent, and rents for mobile home lots decreased by 7.2 percent.

Converse County rental prices experienced average annualized increases of 2.9 percent for apartments, 4.5 percent for houses, 4.0 percent for mobile homes plus a lot, and 1.8 percent for mobile home lots since second quarter 1986 through fourth quarter 2012. These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot and 3.0 percent for mobile home lots over the same period. Table II.5.23, at right, presents the Converse County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Converse County increased from 27 authorizations in 2011 to 41 in 2012. Total residential units authorized increased from 47 units in 2011 to 54 in 2012.

The real value of single-family building permits increased from \$117,703 in 2011 to \$128,452 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$171,400 in 2004 to a low of \$54,200 in 2001. Additional details of permit activity and per unit valuations are given in Table II.5.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Converse County was \$187,816. This represented an increase of 2.9 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406, or an increase of 10.4 percent over the previous year. A comparison of average sales prices between 1999 and 2012 is displayed in Table II.5.25, on the following page.

Table II.5.25 Average Sales Prices Converse County and Wyoming DOR Data, 2000–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2012.⁷⁰ During June 2012, a total of 43 surveys were completed by property managers in Converse County. Of the 777 rental units surveyed, 17 were vacant, indicating a vacancy rate of 2.19 percent, as shown in Table II.5.26, below. This compares to a 2.43 percent vacancy rate one year ago and a statewide 2013 vacancy rate 5.37 percent.

Table II.5.26 Total Units, Vacant Units, and Vacancy Rate Converse County RVS Data, 2001–First Survey 2013

Diagram II.5.3, below, shows the historical vacancy rate for Converse County and Wyoming. As can be seen, the vacancy rate in Converse County has been generally lower than statewide vacancy rate, but trended roughly the same over the twelve year period.

⁷⁰ Those signified as a in the “year” column of Table II.5.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.5.4, below, shows the average rent of single-family and apartment units in Converse County. In the first half of 2013, average rents for single-family units rose to \$923 and average rents for apartments increased to \$770.

Table II.5.27 below, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 43 single family units in Converse County, with 1 of them available. This translates into a vacancy rate of 2.3%, which compares to a single family vacancy rate of 4.04% for the State of Wyoming. There were 561 apartment units reported in the survey, with 11 of them available, which resulted in a vacancy rate of 2.0%. This compares to a statewide vacancy rate of 5.91% for apartment units across the state.

Average market-rate rents by unit type are shown in Table II.5.29, on the following page. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.5.32, on the following page shows the condition of rental units by unit type for Converse County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details on the conditions of additional unit types are displayed below.

Table II.5.32							
Condition by Unit Type							
Converse County							
RVS Data, First Survey 2013

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 32 respondents in Converse County. Of the incoming population who were unsatisfied with their current housing, 60.0 percent said they were seeking to own a home and 40.0 percent of respondents wished to rent. Of those seeking to own a home, 50.0 percent wished to buy existing units, of which 100.0 percent anticipated spending above \$250,000. The remaining 50.0 percent of aspiring homebuyers expected to build a new home, of which 100.0 percent anticipated spending between \$100,000 and \$249,999.

Of those currently renting or seeking to rent, 50.0 percent anticipated spending between \$475 and \$849, and 50.0 percent anticipated spending more than \$849. Additional survey data are presented in **Volume II. Technical Appendix**.

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 1,347 loans purchased in Converse County between 1979 and 2013, with four occurring in fiscal 2013. The average home size over the period was 1,136 square feet and 994 square feet in fiscal 2013. For homes receiving a WCDA loan in fiscal 2013, the average year a home was built was 1958. The average household income in fiscal 2013 in nominal terms, without the effects of inflation being taken into consideration, was \$44,264. The average purchase price in fiscal 2013 was \$131,000. In fiscal

2013, 75.0 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 119 or 2.1 percent of households in Converse County were overcrowded and another 18 or 0.3 percent of units were severely overcrowded, as shown in Table II.5.37, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.5.37				
Overcrowding and Severe Overcrowding				
Converse County				
2007-2011 Five-Year ACS Data

Complete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 152 units or 2.4 percent of all housing units in Converse County were lacking complete kitchen facilities. This compared to 2.9 percent statewide without complete kitchen facilities. These data are presented in Table II.5.38, at right.

Table II.5.38		
Housing Units with Incomplete Kitchen Facilities		
Converse County		
2007-2011 Five-Year ACS Data		
Facilities	Converse County	State of Wyoming
Complete Kitchen Facilities	6,174	251,420
Lacking Complete Kitchen Facilities	152	7,570
Total Housing Units	6,326	258,990
Percent Lacking	2.4%	2.9%

At the time of the 2011 ACS, a total of 145 units or 2.3 percent of all housing units in Converse County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.5.39, at right.

Table II.5.39 Housing Units with Incomplete Plumbing Facilities Converse County 2007-2011 Five-Year ACS Data		
Facilities	Converse County	State of Wyoming
Complete Plumbing Facilities	6,181	252,719
Lacking Complete Plumbing Facilities	145	6,271
Total Households	6,326	258,990
Percent Lacking	2.3%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30 to 50 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Converse County, 15.0 percent of households had a cost burden and 7.7 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 20.4 percent of homeowners with a mortgage in Converse County experienced a cost burden and 4.3 percent experienced a severe cost burden, while 17.5 percent of renters had a cost burden and 14.3 percent had a severe cost burden, as shown in Table II.5.40, on the following page.
