

## FREMONT COUNTY

### Demographics

The Census Bureau's intercensal estimates indicate that Fremont County's population increased from 40,123 in 2010 to 40,579 in 2011, or by 1.1 percent. This compares to a statewide population growth of 0.8 percent over the period.<sup>81</sup> The number of people from 15 to 24 years of age decreased by 0.8 percent, and the number of people from 55 to 64 years of age increased by 6.1 percent. The white population increased by 1.8 percent, while the black population increased by 76.5 percent. The Hispanic population increased from 2,264 to 2,412 people between 2010 and 2011 or by 6.5 percent. These data are presented in Table II.7.1, below.

The Census Bureau's most recent census count indicated that Fremont County's population increased from 35,804 persons in 2000 to 40,123 in 2010, or by 12.1 percent. The white population increased by 8.9 percent, while the black population increased by 129.5 percent. The Hispanic population increased from 1,566 to 2,264 persons between 2000 and 2010, or by 44.6 percent. These data are presented in Table II.7.2, on the following page.

<sup>81</sup> On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

Table II.7.3, below, presents the population of Fremont County by age and gender from the 2000 and 2010 census counts. Between 2000 and 2010, the population increased by 12.1 percent, with the largest total increase occurring in the group aged 55 to 64, which rose by 1,842 persons, or by 50.4 percent. In 2010, the largest age group in Fremont County was the group aged 35 to 54, which accounted for 25.6 percent of the entire population. The 2010 census count showed a total of 20,030 males, who accounted for 49.9 percent of the population, and the remaining 50.1 percent, or 20,093 persons, were female.

At the time of the 2010 Census, there were 864 persons living in "group quarters." This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 5.4 percent, as shown in Table II.7.4, on the following page.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the census tract level, and considered more robust than the one or three year sample estimates.

Table II.7.5, on the following page, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 10,507 family households, of which 8,010 housed married couple families and 2,497 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 825 families, or a female householder with no husband present, of which there were 1,672 families. There were also an estimated 5,091 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Fremont County was 67.4 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Fremont County, 76.2 percent were married households, which compared to 80.5 percent in the State of Wyoming.

<sup>82</sup> In the 2010 Census, "juvenile facilities" and "correctional facilities" were reported separately.

Table II.7.6, below, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 5,037 two-person family households, 1,781 three-person family households and 1,922 four-person family households. One-person non-family households made up 81.7 percent of all non-family households or an estimated 4,159 households. Fremont County's two persons households made up 38.0 percent of total housing units and four person households made up an additional 12.6 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

Poverty statistics were also reported in the 2011 five-year ACS estimates, and these data are displayed in Table II.7.12, below. In total, the poverty rate in Fremont County was 13.9 percent, which compared to a statewide poverty rate of 10.1 percent in Wyoming. The male population in Fremont County had a poverty rate of 13.1 percent and the female population had a poverty rate of 14.8 percent. There were 348 males and 357 females in poverty under the age of 5. Overall, 13.1 percent of persons in poverty in Fremont County were under the age of five, which compared to 13.2 percent statewide. The elderly population, comprised of individuals 65 years of older, had 337 individuals with incomes below the poverty level which represented 6.3 percent of the total population in poverty. In the State of Wyoming there were 4,129 individuals with incomes below the poverty level which represented 7.5 percent of the total Wyoming population in poverty.

Table II.7.13, on the following page, presents the breakdown of households by unit type and tenure. Between 2006 and 2011, Fremont County saw an average of 9,193 owner-occupied single-family units compared to 2,120 single-family rental units. In Fremont County, single-family units comprised 72.5 percent of all households compared with 71.7 percent statewide. Fremont County had a total of 1,034 apartment rental units and total apartment units accounted for 6.6 percent of all households. In the State of Wyoming, apartment units accounted for 7.7 percent of total households. There were also an estimated 2,696 mobile homes in Fremont County, which comprised 17.3 percent of all occupied housing units and compared to 13.8 statewide.

Table II.7.14, below, shows the number of households by year of construction. As shown, 8.1 percent, or 1,266 units, were built in 1939 or earlier in the county, and another 736 were built between 1940 and 1949. The number of households built between 2000 and 2004 was 913, which accounted for 5.9 percent of all households, and an additional 583 households, or 3.7 percent, were built in 2005 or later. These figures compare to 14,269 households, or 6.5 percent, that were built from 2005 or later statewide.

The age of a structure influences its value. As shown in Table II.7.17, at right, structures built in 1939 or earlier had a median value of \$144,500, while structures built between 1950 and 1959 had a median value of \$156,300 and those built between 1990 to 1999 had a median value of \$171,800. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$254,900 and \$241,200, respectively. The total average median value in Fremont County was \$166,500, which compared to \$181,900 in the State of Wyoming.

<b>Table II.7.17</b> <b>Median Value by Year Structure Built</b> Fremont County 2007-2011 Five-Year ACS Data

Household mortgage status is reported in Table II.7.18, below. In Fremont County, households with a mortgage accounted for 53.5 percent of all households or 5,991 housing units, and the remaining 46.5 percent or 5,198 units had no mortgage. Of those units with a mortgage, 937 had either a second mortgage or home equity loan, 47 had both a second mortgage and home equity loan, and 5,007 or 83.6 percent had no second mortgage or no home equity loan.

**Economics**

The HUD estimated MFI for Fremont County was \$59,000 in 2013.<sup>83</sup> This compares to Wyoming’s MFI of \$70,000. Diagram II.7.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Fremont County’s labor force, defined as the number of persons working or actively seeking work, increased by 4 persons, from 19,711 in 2010 to 19,715 in 2011. Employment increased by 191 persons; unemployment decreased by 187 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 8.0 percent in 2010 to 7.1 percent in 2011, as shown on the following page in Diagram II.7.2.

<sup>83</sup> Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.7.21, below, with 2011 information considered preliminary (p), annual total monthly employment increased by 1.20 percent between 2010 and 2011, from a total of 16,442 to 16,640 workers. Preliminary estimates shows employment increased to 17,300 persons in June 2012.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. As shown in Table II.7.22, on the following page, annual average weekly wages increased by 4.13 percent between 2010 and 2011, from a total of \$703 to \$732. Preliminary estimates show average weekly wages increased to \$745 in the second quarter 2012.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Fremont County recorded 24,902 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$1,598,381,000, and real per capita income was \$39,389 in 2011. The average earnings per job in the county was \$39,389 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

### Housing

According to the Wyoming cost of living index, average apartment rent in Fremont County increased from \$573 in second quarter 2011 to \$589 in second quarter 2012, or by 2.8 percent. Detached single-family home rents increased by 4.7 percent, rents for mobile homes on a lot decreased by 1.6 percent, and rents for mobile home lots remained unchanged.

Fremont County rental prices experienced average annualized increases of 3.3 percent for apartments, 4.0 percent for houses, 4.5 percent for mobile homes plus a lot, and 2.2 percent for mobile home lots since fourth quarter 1986 through second quarter 2012. These figures compare to state average annualized increases in rental prices of 3.3 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot, and 3.1 percent for mobile home lots over the same period. Table II.7.24, at right, presents the Fremont County data for each rental type.<sup>84</sup>

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Fremont County decreased from 21 authorized units in 2010 to 19 in 2011. Total residential unit authorizations remained unchanged between 2010 and 2011 at 21 units.

The real value of single-family building permits decreased from \$149,800 in 2010 to \$142,300 in 2011. The value over the past decade, in real 2011 dollars, fluctuated from a high of \$207,300 in 2006 to a low of \$70,900 in 2000. These figures compare to the state average high of \$270,950 in 2000 and low of \$184,110 in 2003. Additional details are in Table II.7.25, on the following page.

<sup>84</sup> Apartments are two-bedroom units, excluding gas and electricity. Mobile home lots are single-wide units and include water costs. Houses are for two- or three-bedroom dwelling units, excluding gas and electricity. A mobile home on a lot includes a combined rent for mobile home and lot.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2011, the average sales price in Fremont County was \$182,541. This represented a decrease of 7.0 percent from the previous year. In contrast, Wyoming's weighted average was \$241,301 or a decrease of 3.8 percent over the previous year. A comparison of average sales prices between 1999 and 2010 is displayed in Table II.7.26, below.

<b>Table II.7.26</b> <b>Average Sales Prices</b> Fremont County vs. Wyoming DOR Data, 1999–2011				
Year	Fremont County Average Price (\$)	Fremont County Annual % Change	Wyoming Average Price	Wyoming Annual % Change

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2012.<sup>85</sup> During December 2012, a total of 61 surveys were completed in Fremont County, as shown in Table II.7.27. Of the 1,604 rental units surveyed, 23 were vacant, indicating a vacancy rate of 2.87 percent. This compares to a 3.75 percent vacancy rate one year ago and a statewide December 2012 vacancy rate of 4.17 percent.

Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	16	287	19	6.62%
2001b	12	373	20	5.36%
2002a	10	143	23	16.08%
2002b	21	485	41	8.45%
2003a	21	752	26	3.46%
2003b	24	941	54	5.74%

2010b	43	1,388	45	3.24%
2011a	48	1,092	26	2.38%
2011b	56	1,093	41	3.75%
2012a	59	1,073	23	2.14%
2012b	61	1,604	46	2.87%

Diagram II.7.3, on the following page, shows the historical vacancy rate for Fremont County and Wyoming. Except for a spike in 2002, the vacancy rate in Fremont County has been similar to the statewide vacancy rate, slightly less but trending roughly the same, over the eleven year period.

<sup>85</sup>Those signified as *a* in the “year” column of Table II.7.10 are conducted in June/July of each year. Those signified as *b* are conducted each December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

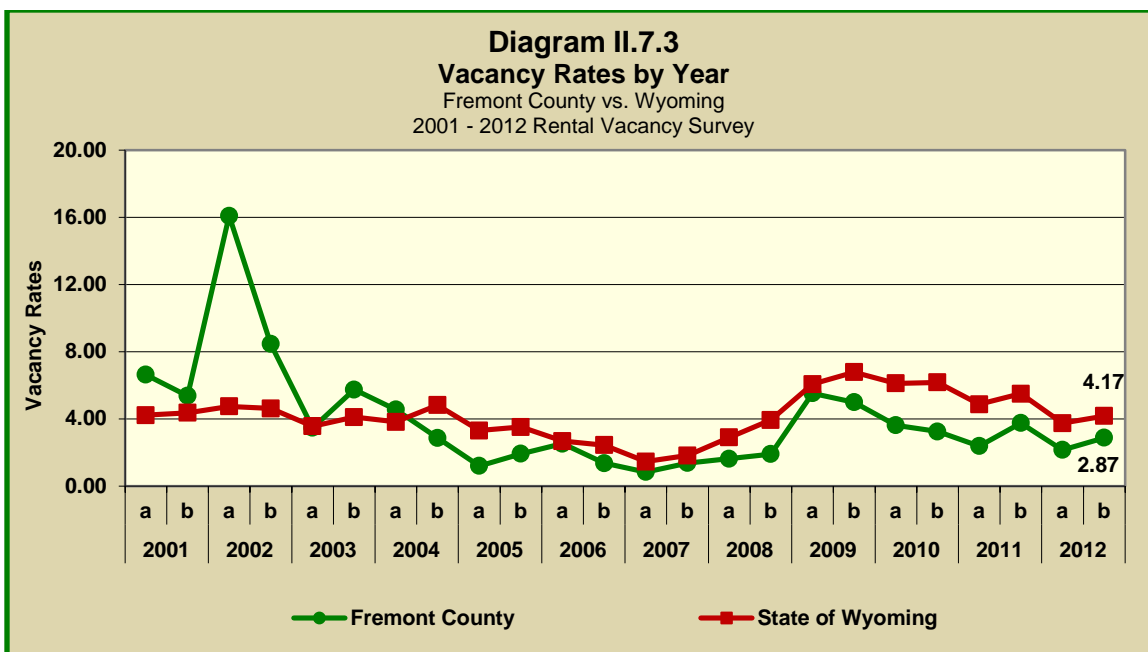

Diagram II.7.4, below, shows the average rent of single-family and apartment units in Fremont County. In the first half of 2012, average rents for single-family units rose to \$945 and average rents for apartments decreased to \$567.

The calendar year 2012 Housing Needs Assessment Survey had 62 respondents in Fremont County. Of the incoming persons who were unsatisfied with their current housing, 63.6 percent said they were seeking to own a home and 36.4 percent wished to rent. Of those seeking to own a home, 69.2 percent wished to buy an existing unit, of which 25.0 percent anticipated spending less than \$100,000, 62.5 percent anticipated spending in the range of \$100,000 to \$249,999 and 12.5 percent sought homes for more than \$250,000. Of the remainder of those seeking to own a home, 30.8 percent wished to build, of which 33.3 percent anticipated spending less than \$100,000, 33.3 percent expected to build for between \$100,000 and \$249,999 and 33.3 percent of these respondents expected to spend more than \$249,999.

Of those currently renting or seeking to rent, 25.0 percent anticipated spending less than \$474, 75.0 percent were willing to spend between \$475 and \$849. Additional survey data are presented in **Volume II. Technical Appendix**.

## Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 470 or 3.0 percent of households in Fremont County were overcrowded and another 125 or .8 percent of units were severely overcrowded, as shown in Table II.7.28, below. This housing problem was far more prevalent in renter households as compared to owner households.

<b>Table II.7.28</b>

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 601 units or 3.4 percent of all housing units in Fremont County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.7.29, at right.

<b>Table II.7.29</b>		
<b>Housing Units with Incomplete Kitchen Facilities</b>		
Fremont County 2007-2011 Five-Year ACS Data		
<b>Facilities</b>	<b>Fremont County</b>	<b>State of Wyoming</b>

Lacking Complete Kitchen Facilities	601	7,570
<b>Total Housing Units</b>	<b>17,666</b>	<b>258,990</b>
Percent Lacking	3.4%	2.9%

At the time of the 2011 ACS, a total of 452 units or 2.6 percent of all housing units in Fremont County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.7.30, at right.

<b>Table II.7.30</b>

<b>Total Households</b>	<b>17,666</b>	<b>258,990</b>
Percent Lacking	2.6%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Fremont County, 13.9 percent of households had a cost burden and 8.7 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 17.3 percent of homeowners with a mortgage in Fremont County experienced a cost burden and 9.5 percent experienced a severe cost burden, while 15.3 percent of renters had a cost burden and 14.6 percent had a severe cost burden, as shown in Table II.7.31, on the following page.

## 2013 HOUSING NEEDS FORECAST

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the *2013 Wyoming Housing Needs Forecast*, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 5,522 households in Fremont County, from 15,455 in 2010 to 20,977 in 2040. Homeowners are expected to increase from 11,006 households in 2010 to 15,077 by 2040. Renters are anticipated to increase from 4,449 households in 2010 to 5,901 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 320 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 31 to 50 percent of MHI is expected to increase by 439 households and by 545 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 297 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 241 households over the period. Table II.7.32, on the following page, provides details of the household forecast by tenure and income.
