

CROOK COUNTY

Demographics

The Census Bureau's current census estimates indicate that Albany County's population increased from 7,083 in 2010 to 7,155 in 2012, or by 1.0 percent. This compares to a statewide population growth of 2.3 percent over the period.⁷¹ The number of people from 25 to 44 years of age decreased by 0.9 percent, and the number of people from 55 to 64 years of age increased by 8.0 percent. The white population decreased by 0.2 percent, while the black population increased by 376.5 percent. The Hispanic population increased from 141 to 165 people between 2010 and 2012 or by 17.0 percent. These data are presented in Table II.6.1, below.

Table II.6.2, on the following page, presents the population of Crook County by age and gender from the 2000 and 2010 census counts. The 2010 census count showed a total of 3,648 males, who accounted for 51.5 percent of the population, and the remaining 48.5 percent, or 3,435 persons, were female. In 2012, the number of females increased to 3,501 persons, or 51.1 percent of the population, while the remaining 51.1 percent or 3,654 persons were male.

⁷¹ On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 34 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 66 percent, as shown in Table II.6.3, below.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year

⁷² In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.6.4, below, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 2,008 family households, of which 1,701 housed married couple families and 307 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 49 families, or a female householder with no husband present, of which there were 258 families. There were also an estimated 886 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Crook County was 69.4 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Crook County, 84.7 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Family Type	Crook County		State of Wyoming	
	Crook County	% of Total	State of Wyoming	% of Total

Table II.6.5, on the following page, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 1,127 two-person family households, 363 three-person family households and 265 four-person family households. One-person non-family households made up 86.7 percent of all non-family households or an estimated 768 households. Crook County's two persons households made up 42.7 percent of total housing units and four person households made up an additional 9.2 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

The age of a structure influences its value. As shown in Table II.6.16, at right, structures built in 1939 or earlier had a median value of \$134,400, while structures built between 1950 and 1959 had a median value of \$129,800 and those built between 1990 to 1999 had a median value of \$118,600. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$228,800 and \$243,100, respectively. The total average median value in Crook County was \$156,300, which compared to \$181,900 in the State of Wyoming.

Table II.6.16		
Median Value by Year Structure Built

Household mortgage status is reported in Table II.6.17, below. In Crook County, households with a mortgage accounted for 47.4 percent of all households or 1,026 housing units, and the remaining 52.6 percent or 1,140 units had no mortgage. Of those units with a mortgage, 51 had either a second mortgage or home equity loan, 0 had both a second mortgage and home equity loan, and 975 or 95.0 percent had no second mortgage or no home equity loan.

Economics

The HUD estimated MFI for Crook County was \$59,300 in 2013.⁷³ This figure compares to Wyoming’s MFI of \$70,000. Diagram II.6.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Crook County’s labor force, defined as the number of persons working or actively seeking work, increased by 49 persons, from 3,579 in 2011 to 3,628 in 2012. Employment increased by 58 persons; unemployment decreased by 9 persons; and the unemployment rate, the number of

⁷³ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

unemployed persons as a percentage of the labor force, decreased from 5.4 percent in 2011 to 5.1 percent in 2012, as shown on the following page in Diagram II.6.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of covered workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.6.20, below, annual total monthly employment increased by 1.17 percent between 2010 and 2011, from a total of 2,335 to 2,316 workers.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Crook County recorded 4,389 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$317,513,000, and real per capita income was \$44,652 in 2011. The average earnings per job in the county was \$33,516 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, average apartment rent in Crook County increased from \$491 in fourth quarter 2012 to \$503 in fourth quarter 2012, or by 2.4 percent. Single-family homes increased by 15.4 percent over the same period.

Crook County rental prices experienced average annualized increases of 2.5 percent for apartments. These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot and 3.0 percent for mobile homes. Table II.6.23, at right, presents the Crook County data for each rental type.⁷⁴

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Crook County increased from four to 10 authorized units between 2010 and 2011.

The real value of single-family building permits decreased from \$123,572 in 2011 to \$117,857 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$221,200 in 2008 to a low of \$120,500 in 2002. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity and per unit valuations are given in Table II.6.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Crook County was \$169,922. This represented an increase of 8.4 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406 or an increase of 10.4 percent over the previous year. A comparison of average sales prices between 1999 and 2012 is displayed in Table II.6.25, on the following page.

Table II.6.25 Average Sales Prices Crook County vs. Wyoming DOR Data, 1999–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2012.⁷⁵ During June 2012, a total of 27 surveys were completed in Crook County. Of the 167 rental units surveyed, 13 were vacant, representing an 7.78 percent vacancy rate, as shown in Table II.6.26, below. This compares to a 5.17 percent vacancy rate one year ago and a June 2013 statewide vacancy rate of 5.37 percent.

Table II.6.26 Total Units, Vacant Units, and Vacancy Rate Crook County RVS Data, 2001–First Survey 2013

Diagram II.6.3, on the following page, shows the historical vacancy rate for Crook County and Wyoming. As can be seen, the vacancy rate in Crook County has been similar to the statewide vacancy rate, trending roughly the same, but with higher volatility over the eleven year period.

⁷⁵ Those signified as a in the “year” column of Table II.6.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

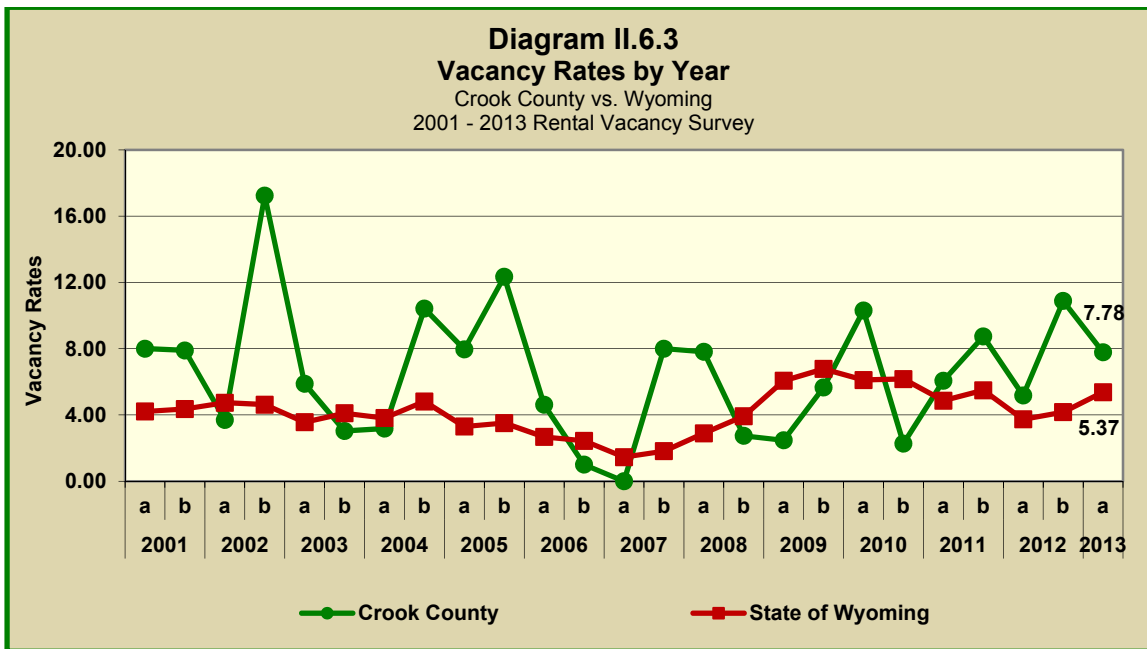

Diagram II.6.4, below, shows the average rent of single-family and apartment units in Crook County. In the first half of 2013, average rents for single-family units rose to \$816 and average rents for apartments fell to \$480.

Table II.6.27, on the following page, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 16 single family units in Crook County, with 1 of them available. This translates into a vacancy rate of 6.3%, which compares to a single family vacancy rate of 4.04% for the State of Wyoming. There were 73 apartment units reported in the survey, with 3 of them available, which resulted in a vacancy rate of 4.1%. This compares to a statewide vacancy rate of 5.91% for apartment units across the state.

Table II.6.27

Average market-rate rents by unit type are shown in Table II.6.29, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 28 respondents in Crook County. Of the incoming persons who were unsatisfied with their current housing, 80.0 percent said they sought to own a home and 20.0 percent wished to rent. Of those seeking to own a home, 100.0 percent wished to buy existing units, of which 66.7 percent sought homes between \$100,000 and \$250,000, and 33.3 percent anticipated spending above \$250,000.

Of those persons currently renting or seeking to rent, 100.0 percent anticipated spending between \$475 to \$849. Additional survey data are presented in **Volume II. Technical Appendix**.

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 294 loans purchased in Crook County between 1979 and 2013, with two occurring in fiscal 2013. The average home size over the period was 1,307 square feet and 1,611 square feet in fiscal 2013. For homes receiving a WCDA loan in fiscal 2013, the average year a home was built was 1992. The average household income in fiscal 2013 in nominal terms, without the effects of inflation being taken into consideration, was \$22,870. The average purchase price in fiscal 2013 was \$151,000. In fiscal 2013, and 50.0 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 65 or 2.2 percent of households in Crook County were overcrowded and another 1 or 0.0 percent of units were severely overcrowded, as shown in Table II.6.38, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.6.38				
Overcrowding and Severe Overcrowding				
Crook County				
2007-2011 Five-Year ACS Data

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 112 units or 3.1 percent of all housing units in Crook County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.6.39,

Table II.6.39		
Housing Units with Incomplete Kitchen Facilities		
Crook County		
2007-2011 Five-Year ACS Data		
Facilities	Crook County	State of Wyoming
Complete Kitchen Facilities	3,451	251,420
Lacking Complete Kitchen Facilities	112	7,570
Total Housing Units	3,563	258,990
Percent Lacking	3.1%	2.9%

at right.

At the time of the 2011 ACS, a total of 114 units or 3.2 percent of all housing units in Crook County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.6.40, at right.

Table II.6.40		
Housing Units with Incomplete Plumbing Facilities		
Crook County		
2007-2011 Five-Year ACS Data		
Facilities	Crook County	State of Wyoming
Complete Plumbing Facilities	3,449	252,719
Lacking Complete Plumbing Facilities	114	6,271
Total Households	3,563	258,990
Percent Lacking	3.2%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Crook County, 9.0 percent of households had a cost burden and 7.9 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 11.6 percent of homeowners with a mortgage in Crook County experienced a cost burden and 11.6 percent experienced a severe cost burden, while 9.5 percent of renters had a cost burden and 12.5 percent had a severe cost burden, as shown in Table II.6.41, on the following page.
