

CROOK COUNTY

Demographics

The Census Bureau's current census estimates indicate that Albany County's population increased from 7,083 in 2010 to 7,155 in 2012, or by 1.0 percent. This compares to a statewide population growth of 2.3 percent over the period.⁷⁴ The number of people from 25 to 44 years of age decreased by 0.9 percent, and the number of people from 55 to 64 years of age increased by 8.0 percent. The white population decreased by 0.2 percent, while the black population increased by 376.5 percent. The Hispanic population increased from 141 to 165 people between 2010 and 2012 or by 17.0 percent. These data are presented in Table II.6.1, below.

Table II.6.2, on the following page, presents the population of Crook County by age and gender from the 2000 and 2010 Census counts. The 2010 Census count showed a total of 3,648 males, who accounted for 51.5 percent of the population, and the remaining 48.5 percent, or 3,435 persons, were female. In 2012, the number of females increased to 3,501 persons, or 51.1 percent of the population, while the remaining 51.1 percent or 3,654 persons were male.

⁷⁴ On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 34 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 66 percent, as shown in Table II.6.3, below.

Table II.6.3 Group Quarters Population Crook County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 Decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 Decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

⁷⁵ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.6.4, below, shows data on household type by tenure in the 2012 5-year ACS data. Household type is broken down by family households and non-family households. In 2012, there were an estimated 2,023 family households, of which 1,714 housed married couple families and 309 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 55 families, or a female householder with no husband present, of which there were 254 families. There were also an estimated 923 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Crook County was 68.7 percent, which compared to the statewide rate of 65.9 percent. Of the family households in Crook County, 84.7 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Family Type	Crook County		State of Wyoming	
	Crook County	% of Total	State of Wyoming	% of Total

Total	155,659	65,820	221,479	100.0%

The age of a structure influences its value. As shown in Table II.6.16, at right, structures built in 1939 or earlier had a median value of \$152,600, while structures built between 1950 and 1959 had a median value of \$131,400 and those built between 1990 to 1999 had a median value of \$123,700. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$248,600 and \$226,400, respectively. The total average median value in Crook County was \$161,200, which compared to \$184,400 in the State of Wyoming.

Table II.6.16 Median Value by Year Structure Built Crook County 2008-2012 5-Year ACS Data		
Year Built	Crook County	State of Wyoming
1939 or earlier	152,600	153,500
1940 to 1949	158,300	136,800
1950 to 1959	131,400	156,600
1960 to 1969	148,800	173,700
1970 to 1979	131,000	181,700
1980 to 1989	172,600	196,100
1990 to 1999	123,700	228,400
2000 to 2004	248,600	248,900
Built 2005 or Later	226,400	221,600
Total	161,200	184,400

Household mortgage status is reported in Table II.6.17, below. In Crook County, households with a mortgage accounted for 42.7 percent of all households or 977 housing units, and the remaining 57.3 percent or 1,312 units had no mortgage. Of those units with a mortgage, 59 had either a second mortgage or home equity loan, 0 had both a second mortgage and home equity loan, and 918 or 94.0 percent had no second mortgage or no home equity loan.

Table II.6.17 Mortgage Status Crook County 2008-2012 5-Year ACS Data				
Mortgage Status	Crook County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	977	42.7%	94,301	60.6%
With either a second mortgage or home equity loan, but not both	59	6.0%	15,069	16.0%
Second mortgage only	18	30.5%	7,440	49.4%
Home equity loan only	41	69.5%	7,629	50.6%
Both second mortgage and home equity loan	0	.0%	645	.7%
No second mortgage and no home equity loan	918	94.0%	78,587	83.3%
Housing units without a mortgage	1,312	57.3%	61,358	39.4%
Total	2,289	100.0%	155,659	100.00%

The median rent in Crook County was \$574 as compared to \$618 statewide, as seen in Table II.6.18, below.

Table II.6.18 Median Rent Crook County 2008-2012 5-Year ACS Data	
Place	Rent
Crook County	\$574
State of Wyoming	\$618

The Wyoming driver’s license data provided by the WYDOT indicated a net increase of 6 persons during 2013. The driver’s license total exchanges since 2000 for Crook County are presented in Table II.6.19, below, and showed a net increase of 819 persons over the time period.

Year	In-Migrants	Out-Migrants	Net Change
2000	187	167	20

Economics

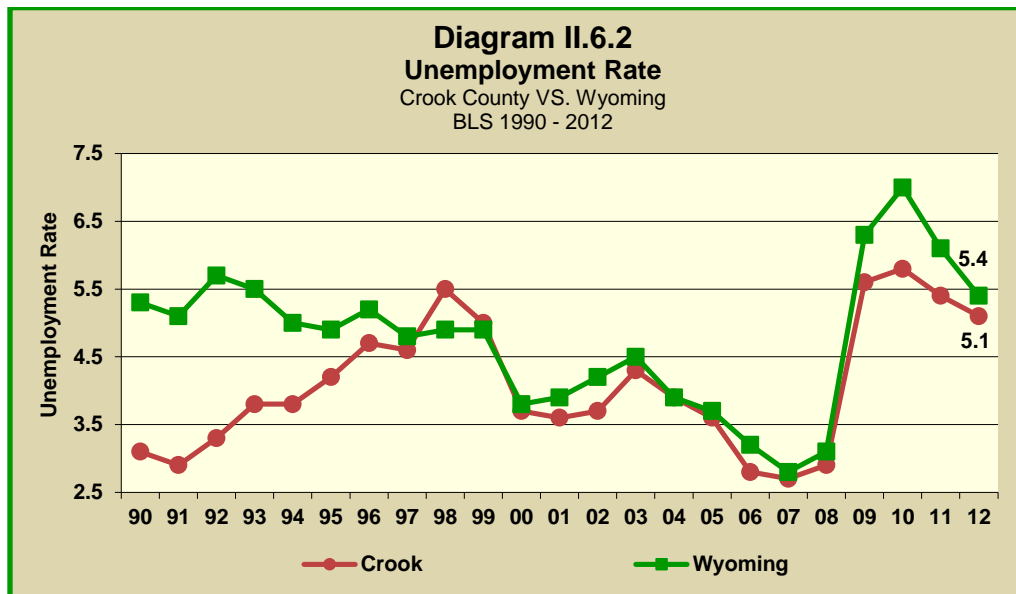

The HUD estimated MFI for Crook County was \$57,000 in 2014.⁷⁶ This figure compares to Wyoming’s MFI of \$71,400. Diagram II.6.1, below, illustrates the estimated MFI for 2000 through 2014.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Crook County’s labor force, defined as the number of persons working or actively seeking work, increased by 49 persons, from 3,579 in 2011 to 3,628 in 2012. Employment increased by 58 persons; unemployment decreased by 9 persons; and the unemployment rate, the number of

⁷⁶ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

unemployed persons as a percentage of the labor force, decreased from 5.4 percent in 2011 to 5.1 percent in 2012, as shown below in Diagram II.6.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of covered workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.6.20, below, annual total monthly employment increased by 1.30 percent between 2011 and 2012, from a total of 2,316 to 2,346 workers. Preliminary estimates shows total monthly employment increased to 2,475 persons in June 2013.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Crook County recorded 4,389 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$317,513,000, and real per capita income was \$44,652 in 2011. The average earnings per job in the county was \$33,516 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, average apartment rent in Crook County increased from \$488 in second quarter 2012 to \$533 in second quarter 2013, or by 9.2 percent. Single-family homes decreased by 2.7 percent over the same period.

Crook County rental prices experienced average annualized increases of 2.8 percent for apartments. These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.7 percent for houses, 3.3 percent for mobile homes plus a lot and 2.9 percent for mobile homes. Table II.6.23, at right, presents the Crook County data for each rental type.⁷⁷

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Crook County increased from four to 10 authorized units between 2010 and 2011.

The real value of single-family building permits decreased from \$123,572 in 2011 to \$117,857 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$221,200 in 2008 to a low of \$120,500 in 2002. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity and per unit valuations are given in Table II.6.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Crook County was \$169,922. This represented an increase of 8.4 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406 or an increase of 10.4 percent over the previous year. A comparison of average sales prices between 1999 and 2012 is displayed in Table II.6.25, on the following page.

Table II.6.25 Average Sales Prices Crook County vs. Wyoming DOR Data, 1999–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2013.⁷⁸ During December 2013, a total of 28 surveys were completed in Crook County. Of the 131 rental units surveyed, 11 were vacant, representing an 8.40 percent vacancy rate, as shown in Table II.6.26, below. This compares to a 10.88 percent vacancy rate one year ago and a December 2013 statewide vacancy rate of 5.57 percent.

Table II.6.26 Total Units, Vacant Units, and Vacancy Rate Crook County RVS Data, June 2001 – December 2013				
Year	Sample	Total Units	Vacant Units	Vacancy Rate

Diagram II.6.3, on the following page, shows the historical vacancy rate for Crook County and Wyoming. As can be seen, the vacancy rate in Crook County has been similar to the statewide vacancy rate, trending roughly the same, but with higher volatility over the thirteen year period.

⁷⁸ Those signified as a in the “year” column of Table II.6.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.6.4, below, shows the average rent of single-family and apartment units in Crook County. In the second half of 2013, average rents for single-family units rose to \$833 and average rents for apartments rose to \$564.

Table II.6.27 below, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 16 single family units in Crook County, with 3 of them available. This translates into a vacancy rate of 18.8 percent in Crook County, which compares to a single family vacancy rate of 4.41 percent for the State of Wyoming. There were 60 apartment units reported in the survey, with 4 of them available, which resulted in a vacancy rate of 6.7 percent. This compares to a statewide vacancy rate of 5.79 percent for apartment units across the state.

Table II.6.27			
Rental Vacancy Survey by Type			
Crook County			
RVS Data, December 2013

Average market-rate rents by unit type are shown in Table II.6.29, on the following page. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.6.34, below, shows the condition of rental units by unit type for Crook County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details on the conditions of additional unit types are displayed below.

Table II.6.34 Condition by Unit Type Crook County RVS Data, December 2013

Respondents were also asked if they would like to own or manage additional units and if so, which type of units would they prefer. As can be seen in Table II.6.38, on the following page, respondents in Crook County said they would prefer 12 more single family units, 7 more apartment units, and units of all types. In total respondents indicated they wished to own or manage an additional 28 units.

The calendar year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 29 respondents in Crook County. Of the incoming persons who were unsatisfied with their current housing, 83.3 percent said they sought to own a home and 16.7 percent wished to rent. Of those seeking to own a home, 50.0 percent wished to buy existing units, of which 50.0 percent sought homes between \$100,000 and \$250,000, and 50.0 percent anticipated spending above \$250,000. Of those seeking to build, 100.0 percent wished to build for between \$100,000 and \$249,999.

Of those persons currently renting or seeking to rent, 100.0 percent anticipated spending between \$475 to \$849. Additional survey data are presented in **Volume II. Technical Appendix**.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2012 5-year ACS data, 35 or 1.2 percent of households in Crook County were overcrowded and another 2 or 0.1 percent of units were severely overcrowded, as shown in Table II.6.39, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.6.39				
Overcrowding and Severe Overcrowding				
Crook County 2008-2012 5-Year ACS Data				
Household	No Overcrowding	Overcrowding	Severe Overcrowding	Total

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2012 5-year ACS, a total of 106 units or 3.0 percent of all housing units in Crook County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.6.40, at right.

Table II.6.40		
Housing Units with Incomplete Kitchen Facilities		
Crook County 2008-2012 5-Year ACS Data		
Facilities	Crook County	State of Wyoming
Complete Kitchen Facilities	3,468	253,942
Lacking Complete Kitchen Facilities	106	7,488
Total Housing Units	3,574	261,430
Percent Lacking	3.0%	2.9%

At the time of the 2012 ACS, a total of 97 units or 2.7 percent of all housing units in Crook County were lacking complete plumbing facilities. This compared to 2.3 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.6.41, on the following page.

Table II.6.41 Housing Units with Incomplete Plumbing Facilities Crook County 2008-2012 5-Year ACS Data		
Facilities	Crook County	State of Wyoming
Complete Plumbing Facilities	3,477	255,465
Lacking Complete Plumbing Facilities	97	5,965
Total Households	3,574	261,430
Percent Lacking	2.7%	2.3%

The third type of housing problem reported in the 2012 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Crook County, 9.3 percent of households had a cost burden and 7.3 percent of households had a severe cost burden, which compared to 14.4 percent with a cost burden and 9.9 percent with a severe cost burden in the State of Wyoming. Roughly 9.5 percent of homeowners with a mortgage in Crook County experienced a cost burden and 11.1 percent experienced a severe cost burden, while 15.1 percent of renters had a cost burden and 8.4 percent had a severe cost burden, as seen in Table II.6.42, on the following page.

2014 HOUSING NEEDS FORECAST

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the *2014 Wyoming Housing Needs Forecast*, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 994 households in Crook County, from 2,921 in 2010 to 3,915 in 2040. Homeowners are expected to increase from 2,317 households in 2010 to 3,083 by 2040. Renters are anticipated to increase from 604 households in 2010 to 833 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 60 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 31 to 50 percent of MHI is expected to increase by 60 households and by 153 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 21 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 19 households over the period. Table II.6.32, on the following page, provides details of the household forecast by tenure and income.
