

## GOSHEN COUNTY

### Demographics

The Census Bureau's intercensal estimates indicate that Goshen County's population increased from 13,249 in 2010 to 13,636 in 2012, or by 2.9 percent. This compares to a statewide population growth of 2.9 percent over the period.<sup>81</sup> The number of people from 25 to 44 years of age increased by 4.5 percent, and the number of people from 55 to 64 years of age increased by 5.8 percent. The white population increased by 2.0 percent, while the black population increased by 83.5 percent. The Hispanic population increased from 1,288 to 1,421 people between 2010 and 2012 or by 10.3 percent. These data are presented in Table II.8.1, below.

Table II.8.2, on the following page, presents the population of Goshen County by age and gender from the 2010 census and 2012 intercensal estimates. The 2010 census count showed a total of 6,906 males, who accounted for 52.1 percent of the population, and the remaining 47.9 percent, or 6,343 persons, were female. In 2012 the number of females increased to 6,511 persons, which represented 47.7 percent of the population, while the remaining 52.3 percent or 7,125 persons were male.

<sup>81</sup> On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 1,070 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 117.9 percent, as shown in Table II.8.3, below.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year

<sup>82</sup> In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.8.4, below, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 3,408 family households, of which 2,842 housed married couple families and 566 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 208 families, or a female householder with no husband present, of which there were 358 families. There were also an estimated 1,878 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Goshen County was 64.5 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Goshen County, 83.4 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Table II.8.5, on the following page, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 1,933 two-person family households, 675 three-person family households and 372 four-person family households. One-person non-family households made up 88.8 percent of all non-family households or an estimated 1,667 households. Goshen County’s two persons households made up 39.8 percent of total housing units and four person households made up an additional 7.1 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

Table II.8.12, on the following page, presents the breakdown of households by unit type and tenure. Between 2006 and 2011, Goshen County saw an average of 3,225 owner-occupied single-family units compared to 1,129 single-family rental units. In Goshen County, single-family units comprised 82.4 percent of all households compared with 71.7 percent statewide. Goshen County

had a total of 152 apartment rental units and total apartment units accounted for 3.0 percent of all households. In the State of Wyoming, apartment units accounted for 7.7 percent of total households. There were also an estimated 535 mobile homes in Goshen County, which comprised 10.1 percent of all occupied housing units and compared to 13.8 statewide.

Table II.8.13, below, shows the number of households by year of construction. As shown, 20.2 percent, or 1,067 units, were built in 1939 or earlier in the county, and another 548 were built between 1940 and 1949. The number of households built between 2000 and 2004 was 178, which accounted for 3.4 percent of all households, and an additional 157 households, or 3.0 percent, were built in 2005 or later. These figures compare to 14,269 households, or 6.5 percent, that were built from 2005 or later statewide.

Table II.8.15, below, shows the number of households in the county by number of bedrooms and tenure. There were 53 rental households with no bedrooms, otherwise known as studio apartments. Two-bedroom households accounted for 30.3 percent of total households in Goshen County, which compared to 24.8 percent statewide. In Goshen County, the 1,940 households with three bedrooms accounted for 36.7 percent of all households, and there were only 363 five-bedroom or more households, which accounted for 6.9 percent of all households.

The age of a structure influences its value. As shown in Table II.8.16, at right, structures built in 1939 or earlier had a median value of \$113,300, while structures built between 1950 and 1959 had a median value of \$114,800 and those built between 1990 to 1999 had a median value of \$176,000. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$257,100 and \$325,000, respectively. The total average median value in Goshen County was \$132,400, which compared to \$181,900 in the State of Wyoming.

<b>Table II.8.16</b> <b>Median Value by Year Structure Built</b> Goshen County 2007-2011 Five-Year ACS Data

**Economics**

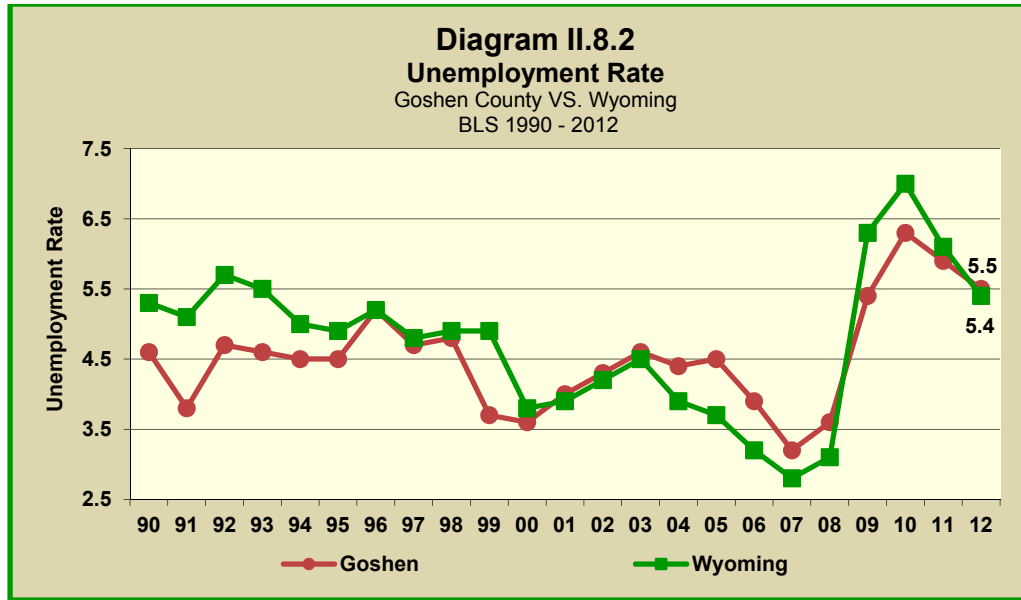

The HUD estimated MFI for Goshen County was \$55,200 in 2013.<sup>83</sup> This figure compares to Wyoming’s MFI of \$70,000. Diagram II.8.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Goshen County’s labor force, defined as the number of persons working or actively seeking work, increased by 58 persons, from 6,565 in 2011 to 6,623 in 2012. Employment increased by 82 persons; unemployment decreased by 24 persons; and the unemployment rate, the number of

<sup>83</sup> Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

unemployed persons as a percentage of the labor force, decreased from 5.9 percent in 2011 to 5.5 percent in 2012, as shown on the following page in Diagram II.8.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.8.20, below, annual total monthly employment increased by 0.17 percent between 2011 and 2012, from a total of 4,601 to 4,609 workers.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Goshen County recorded 7,557 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$477,274,000, and real per capita income was \$35,260 in 2011. The average earnings per job in the county was \$33,395 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

**Housing**

Average apartment rent in Goshen County increased from \$544 in fourth quarter 2011 to \$551 in fourth quarter 2012, or by 1.3 percent. Detached single-family home rents increased by 6.5 percent and rents for mobile home lots decreased by 14.8 percent.

Goshen County rental prices experienced average annualized increases of 3.9 percent for apartments, 3.3 percent for houses, and 1.3 percent for mobile home lots since second quarter 1998 through fourth quarter 2012.<sup>84</sup> These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot, and 3.0 percent for mobile home lots. Table II.8.23, at right, presents the Goshen County data for each rental type.<sup>85</sup>

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Goshen County increased from two authorized units in 2011 to six in 2012.

The real value of single-family building permits decreased from \$488,473 in 2011 to \$209,461 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$488,500 in 2011 to a low of \$175,500 in 2001. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity and per unit valuations are given in Table II.8.24, on the following page.

<sup>84</sup> Data from 1986 to 1997 for Goshen County was not reported by the Wyoming Economic Analysis Division.

<sup>85</sup> Apartments are two-bedroom units, excluding gas and electricity. Mobile home lots are single-wide units and include water costs. Houses are for two- or three-bedroom dwelling units, excluding gas and electricity. A mobile home on a lot includes a combined rent for mobile home and lot.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2011, the average sales price in Goshen County was \$135,619. This represented an increase of 1. percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406 or an increase of 10.4 percent over the previous year. A comparison of average sales prices between 2000 and 2012 is displayed in Table II.8.25, below.

<b>Table II.8.25</b> <b>Average Sales Prices</b> Goshen County vs. Wyoming DOR Data, 2000–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2013.<sup>86</sup> During June 2013, a total of 36 surveys were completed by property managers in Goshen County. Of the 432 rental units surveyed, 28 were vacant, indicating a vacancy rate of 6.48 percent, as shown in Table II.8.26, below. The vacancy rate one year ago was 1.81 percent. In June 2013, the statewide vacancy rate was 4.93 percent.

Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	11	273	27	9.89%
2001b	10	202	13	6.44%
2002a	6	91	6	6.59%
2002b	7	160	7	4.38%
2003a	6	126	6	4.76%

2011a	34	524	10	1.91%
2011b	35	555	20	3.60%
2012a	35	552	10	1.81%
2012b	35	572	8	1.40%
2013a	36	432	28	6.48%

Diagram II.8.3, on the following page, shows the historical vacancy rate for Goshen County and Wyoming. As can be seen, the vacancy rate in Goshen County was higher than the statewide rate until 2008, after which it fell below the statewide rate to a low of 1.4 in 2012. In 2013, the vacancy rate increased to above the statewide rate, spiking to a recent high of 6.48 percent.

<sup>86</sup>Those signified as *a* in the “year” column of Table II.8.11 are conducted in June/July of each year. Those signified as *b* are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.8.4, below, shows the average rent of single-family and apartment units in Goshen County. In the first half of 2013, average rents for single-family units increased to \$594 and average rents for apartments increased slightly to \$513.

Table II.8.27, on the following page, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 127 single family units in Goshen County, with 6 of them available. This translates into a single family vacancy rate of 4.7%, which compares to a single family vacancy rate of 4.04% for the State of Wyoming. There were 259 apartment units reported in the survey, with 20 of them available, which resulted in a vacancy rate of 7.7%. This compares to a statewide vacancy rate of 5.63% for apartment units across the state.

Average market-rate rents by unit type are shown in Table II.8.29, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.8.32, below, shows the condition of rental units by unit type for Goshen County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details on the conditions of additional unit types are displayed below.

<b>Table II.8.32</b>

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 15 respondents in Goshen County. Of the incoming persons 46.7 percent owned their own home, with 26.7 percent renting, an 26.6 percent having other living arrangements. Most respondents lived in single family households, which accounted for 73.3 percent of responses with an additional 13.3 percent residing in manufactured or mobile homes. Additional survey data are presented in **Volume II. Technical Appendix.**

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 628 loans purchased in Goshen County between 1979 and 2013, with 6 occurring in fiscal 2013. The average home size over the period was 1,205 square feet and 1,155 square feet in fiscal 2013. For homes receiving a WCDA loan in fiscal 2013, the average year a home was built was 1944. The average household income in fiscal 2013 in nominal terms, without the effects of inflation being taken into consideration, was \$49,136. The average purchase price in fiscal 2013 was \$116,150. In fiscal 2013, 16.7 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**

### Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 135 or 2.6 percent of households in Goshen County were overcrowded and another 23 or 0.4 percent of units were severely overcrowded, as shown in Table II.8.35, below. This housing problem was far more prevalent in renter households as compared to owner households.

<b>Table II.8.35</b>				
<b>Overcrowding and Severe Overcrowding</b>				
Goshen County

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 224 units or 3.7 percent of all housing units in Goshen County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.8.36, at right.

<b>Table II.8.36</b>		
<b>Housing Units with Incomplete Kitchen Facilities</b>		
Goshen County		
2007-2011 Five-Year ACS Data		
<b>Facilities</b>	<b>Goshen County</b>	<b>State of Wyoming</b>
Complete Kitchen Facilities	5,755	251,420
Lacking Complete Kitchen Facilities	224	7,570
<b>Total Housing Units</b>	<b>5,979</b>	<b>258,990</b>
Percent Lacking	3.7%	2.9%

At the time of the 2011 ACS, a total of 189 units or 3.2 percent of all housing units in Goshen County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.8.37, at right.

<b>Table II.8.37</b> <b>Housing Units with Incomplete Plumbing Facilities</b> Goshen County 2007-2011 Five-Year ACS Data		
<b>Facilities</b>	<b>Goshen County</b>	<b>State of Wyoming</b>

Lacking Complete Plumbing Facilities	189	6,271
<b>Total Households</b>	<b>5,979</b>	<b>258,990</b>
Percent Lacking	3.2%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30 to 50 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Goshen County, 15.7 percent of households had a cost burden and 9.3 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 26.9 percent of homeowners with a mortgage in Goshen County experienced a cost burden and 8.6 percent experienced a severe cost burden, while 12.6 percent of renters had a cost burden and 16.4 percent had a severe cost burden, as shown in Table II.8.38, on the following page.
