

LARAMIE COUNTY

Demographics

The Census Bureau's current census estimates indicate that Laramie County's population increased from 91,738 in 2010 to 97,121 in 2015, or by 5.9 percent. This compares to a statewide population growth of 4.0 percent over the period. The number of people from 25 to 44 years of age increased by 8.4 percent, and the number of people from 55 to 64 years of age increased by 9.0 percent. The white population increased by 4.8 percent, while the black population increased by 25.2 percent. The Hispanic population increased from 11,978 to 14,087 people between 2010 and 2015 or by 17.6 percent. These data are presented in Table II.11.1, below.

Table II.11.2, on the following page, presents the population of Laramie County by age and gender from the 2010 Census and 2015 current census estimates. The 2010 Census count showed a total of 45,875 males, who accounted for 50.0 percent of the population, and the remaining 50.0 percent, or 45,863 persons, were female. In 2015, the number of males rose to 49,065 persons, and accounted for 50.5 percent of the population, with the remaining 49.5 percent, or 48,056 persons being female.

At the time of the 2010 Census, there were 1,644 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 50.2 percent, as shown in Table II.11.3, below.

Table II.11.3 Group Quarters Population Laramie County 2000 SF1 and 2010 Census Data

Group Quarters Population	3,300	1,644	-50.2%

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial Census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

¹²² In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.11.4, below, shows data on household type by tenure in the 2014 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 24,792 family households, of which 19,228 housed married couple families and 5,564 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 1,631 families, or a female householder with no husband present, of which there were 3,933 families. There were also an estimated 12,572 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Laramie County was 66.4 percent, which compared to the statewide rate of 65.3 percent. Of the family households in Laramie County, 77.6 percent were married households, which compared to 79.8 percent in the State of Wyoming.

Table II.11.5, on the following page, displays the 2014 5-year ACS census data for household type by household size. In 2013, there were 12,389 two-person family households, 5,195 three-person family households and 4,513 four-person family households. One-person non-family households made up 82.1 percent of all non-family households or an estimated 10,321 households. Laramie County's two persons households made up 38.3 percent of total housing units and four person households made up an additional 12.4 percent, which compares to 38.4 and 11.6 percent, respectively, for the State of Wyoming.

Table II.11.9, at right, presents different income statistics for Laramie County. According to the 2014 ACS data averages, median family income for Laramie County was \$74,324 compared to the statewide average of \$72,086. Per capita income for Laramie County, which is calculated by dividing total income by population, was \$29,375, which compared to \$29,381 for the State of Wyoming.

Table II.11.9 Median and Per Capita Income Laramie County 2010-2014 5-Year ACS Data		
Income Type	Laramie County	Wyoming
Median Family Income	74,324	72,086
Median Household Income	58,324	58,252
Per Capita Income	29,375	29,381

Table II.11.10, on the following page, shows households by income for Laramie County and the State of Wyoming. In Laramie County, there were a total of 3,320 households or 8.9 percent with incomes under \$15,000 compared to 9.6 percent of households in Wyoming. There were another 5,279 households that had incomes between \$35,000 and \$49,999, which accounted for 14.1 percent of households and compared to 13.5 percent for the State of Wyoming. Households with incomes of \$100,000 or more accounted for 24.5 percent of total households and numbered 9,160 in Laramie County.

Poverty statistics were also reported in the 2014 5-year ACS estimates, and these data are displayed in Table II.11.11, below. In total, the poverty rate in Laramie County was 10.5 percent, which compared to a statewide poverty rate of 11.6 percent in Wyoming. The male population in Laramie County had a poverty rate of 8.7 percent and the female population had a poverty rate of 12.3 percent. There were 773 males and 626 females in poverty under the age of 5. Overall, 14.4 percent of persons in poverty in Laramie County were under the age of five, which compared to 12.8 percent statewide. The elderly population, comprised of individuals 65 years of older, had 578 individuals with incomes below the poverty level which represented 5.9 percent of the total population in poverty. In the State of Wyoming there were 4,574 individuals with incomes below the poverty level which represented 7.0 percent of the total Wyoming population in poverty.

Table II.11.15, at right, shows the number of households in the county by number of bedrooms and tenure. There were 121 rental households with no bedrooms, otherwise known as studio apartments. Two-bedroom households accounted for 23.5 percent of total households in Laramie County, which compared to 24.4 percent statewide. In Laramie County, the 14,583 households with three bedrooms accounted for 39.0 percent of all households, and there were only 3,649 five-bedroom or more households, which accounted for 9.8 percent of all households.

The age of a structure influences its value. As shown in Table II.11.16, at right, structures built in 1939 or earlier had a median value of \$148,900, while structures built between 1950 and 1959 had a median value of \$152,600 and those built between 1990 to 1999 had a median value of \$235,900. The newest structures tended to have the highest values and those built between 2000 and 2009 and from 2010 or later had median values of \$257,500 and \$298,000, respectively. The total average median value in Laramie County was \$186,600, which compared to \$189,300 in the State of Wyoming.

Table II.11.16 Median Value by Year Structure Built Laramie County 2010-2014 5-Year ACS Data		
Year Built	Laramie County	State of Wyoming
1939 or earlier	148,900	153,700
1940 to 1949	151,200	140,900
1950 to 1959	152,600	158,200
1960 to 1969	175,300	177,300
1970 to 1979	178,900	184,100

Economics

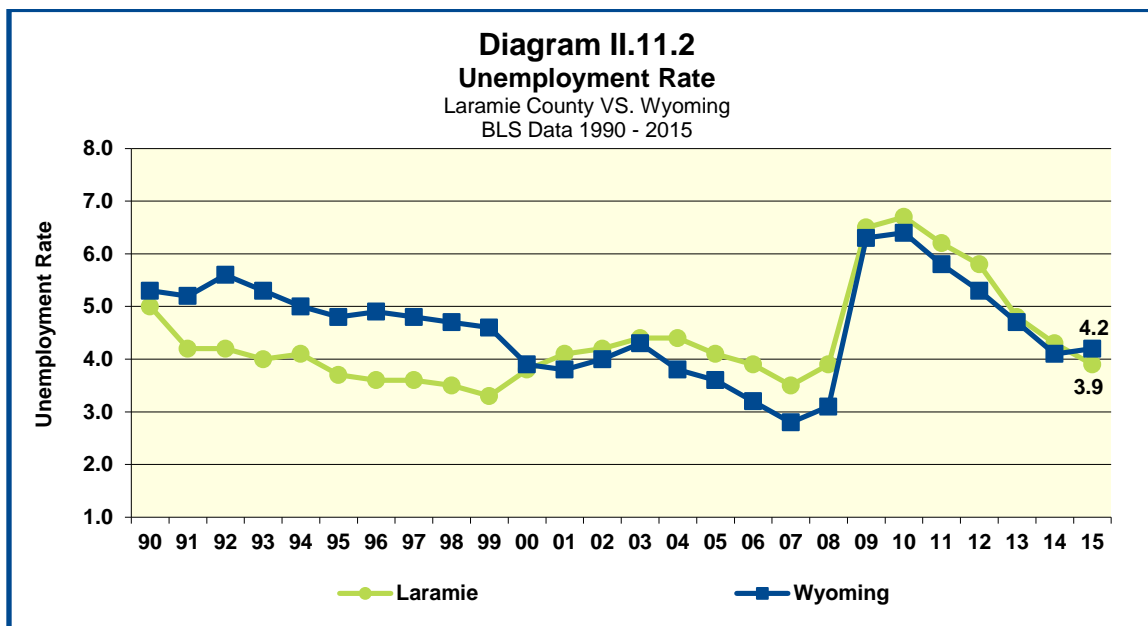

The HUD estimated MFI for Laramie County was \$82,500 in 2016.¹²³ This compares to Wyoming’s MFI of \$73,300. Diagram II.11.1, below, illustrates the estimated MFI for 2000 through 2016.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Laramie County’s labor force, defined as the number of persons working or actively seeking work,

¹²³ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years

increased by 51 persons, from 48,859 in 2014 to 48,910 in 2015. Employment increased by 278 persons; unemployment decreased by 227 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 4.3 percent in 2014 to 3.9 in 2015, as shown below in Diagram II.11.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. Data from this series are from the period of January 2005 through December 2015 and are presented in Table II.11.20, below, with the 2015 information considered preliminary (p). As shown therein, total annual employment stood at 46,111 persons in 2015; this figure was higher than the 2014 average by 227 jobs.

Period	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015(p)

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. The BLS QCEW data indicated average weekly wages were \$825 in 2014. In 2015, average weekly wages saw an increase of 1.94 over the prior year, rising to \$841. These data are shown in Table II.11.21, below.

Table II.11.21 Average Weekly Wages Laramie County BLS QCEW Data, 2001–2015(p)						
Year	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Annual	% Change

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2014, the most recent year for which data are available, Laramie County recorded 66,692 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$4,744,712,000, and real per capita income was \$49,225 in 2014. This compares to a statewide average real per capita income of \$54,584. The average earnings per job in the county was \$50,891 in 2014, while Wyoming average earnings per job was \$53,171. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, real average apartment rent in Laramie County increased from \$780 in fourth quarter 2014 to \$793 in fourth quarter 2015, or by 1.7 percent. Detached single-family home rents decreased by 1.7 percent, rents for mobile homes on a lot increased by 4.6 percent, and rents for mobile home lots increased by 3.2 percent.

Laramie County rental prices experienced average annualized increases of 0.8 percent for apartments, 1.1 percent for houses, 1.5 percent for mobile homes plus a lot, and 1.6 percent for mobile home lots since fourth quarter 1986 through second quarter 2015. These figures compare to state average annualized increases in rental prices of 1.0 percent for apartments, 1.4 percent for houses, 1.1 percent for mobile homes plus a lot, and 0.9 percent for mobile home lots over the same period. Table II.11.23, at right, presents the Laramie County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Laramie County increased from 305 authorizations in 2014 to 388 in 2015.

The real value of single-family building permits increased from \$181,907 in 2014 to \$184,947 in 2015. This compares to an increase in permit value statewide, with values rising from \$298,797 in 2014 to \$348,576 in 2015. Additional details are given in Table II.11.24, below.

Table II.11.24 Building Permits and Valuation Laramie County Census Bureau Data, 1980–2015

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2015, the average sales price in Laramie County was \$230,987. This represented an increase of 4.6 percent from the previous year. In contrast, Wyoming’s average was \$275,611, an increase of 4.6 percent over the previous year. A comparison of average sales prices between 2000 and 2015 is displayed in Table II.11.25, on the following page.

Table II.11.25 Average Sales Prices Laramie County vs. Wyoming DOR Data, 2000–2015				
Year	Laramie County Average Price (\$)	Laramie County Annual % Change	Wyoming Average Price	Wyoming Annual % Change

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in the June 2016.¹²⁴ During June 2016, a total of 236 surveys were completed by property managers in Laramie County. Of the 6,669 rental units surveyed, 286 were vacant, indicating a vacancy rate of 4.3 percent, as shown in Table II.11.26, at right. This compares to a 3.8 percent vacancy rate one year ago and a statewide June 2016 vacancy rate of 8.6 percent.

Diagram II.11.3, on the following page, shows the historical vacancy rate for Laramie County and Wyoming. As can be seen, the vacancy rate in Laramie County was generally lower than the statewide rate over the entire 16 year period.

Table II.11.26 Total Units, Vacant Units, and Vacancy Rate Laramie County RVS Data, June 2001–June 2016				
Year	Sample	Total Units	Vacant Units	Vacancy Rate

2016a	236	6,669	286	4.3%

¹²⁴Those signified as a in the “year” column of Table II.11.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.11.4, below, shows the average rent of single-family and apartment units in Laramie County. In 2016, average rents for single-family units decreased to \$1,077 and the average rent for an apartment increase to \$795.

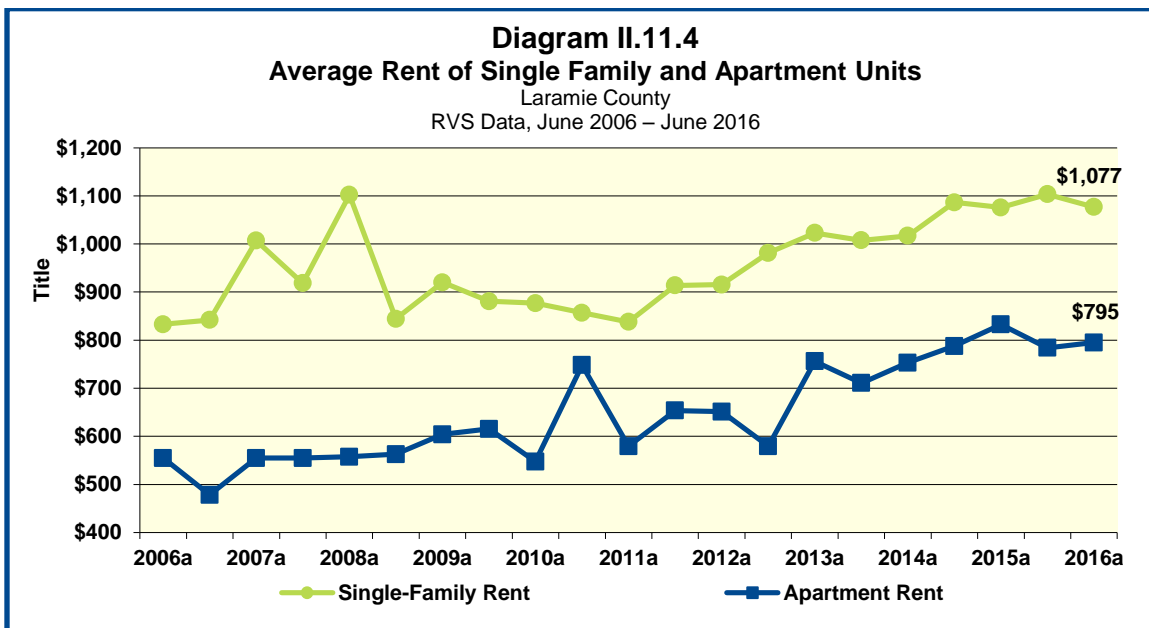

Table II.11.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 844 single family units in Laramie County, with 44 of them available. This translates into a vacancy rate of 5.2 percent in Laramie County, which compares to a single family vacancy rate of 7.0 percent for the State of Wyoming. There were 3,800 apartment units reported in the survey, with 152 of them available, which resulted in a vacancy rate of 4.0 percent. This compares to a statewide vacancy rate of 7.9 percent for apartment units across the state.

Table II.11.27			
Rental Vacancy Survey by Type			
Laramie County			
RVS Data, June 2016			
Place	Total Units	Vacant Units	Vacancy Rate
Single Family	844	44	5.2%
Duplex units	189	8	4.2%

Average market-rate rents by unit type are shown in Table II.11.31, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.11.31

Table II.11.35, on the following page, shows the condition of rental units by unit type for Laramie County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details by unit type and condition are displayed below.

Table II.11.35 Condition by Unit Type Laramie County RVS Data, June 2016							
Conditions	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	“Other” Units	Don’t Know	Total
Poor	1	0	0	0	0	.	1
Fair	4	4	9	0	0	.	17
Average	113	16	473	11	1	.	614
Good	541	120	1,671	52	142	.	2,526

Table, II.11.40, on the following page, shows the most common answers from the 2016 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Laramie County had a total of 125 respondents, with an average persons per household of 2.7 people. Of new residents to Laramie County, 59.3 percent were married and the most common age group arriving in the state was 25 to 34 years old. Most new residents moved to be closer to friends or relatives.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 44.8 percent of respondents renting their residence. The average mortgage payment in Laramie County was \$1,102 and the average rent was \$886. When asked if they were satisfied with their current housing, 75.2 percent said they were satisfied with thier current housing.

Table II.11.40 Most Replied Response Laramie County HNA Survey: Fiscal Year 2016	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	125
Number of persons in household (Average)	2.7
Current age	25 to 34 years old (29.8%)
Marital status	Married (59.3%)
Primary reason for moving to Wyoming	Friends or relatives in Wyoming (23.2%)
In which industry are you primarily employed	Other (23.3%)
Highest education level completed	College Graduate (21.6%)
Total household income from all sources	\$50,000 to \$74,999 dollars (20.8%)
Current Housing Characteristics	
Current Residence	Single family home (61.6%)
Do you own or rent	Rent (44.8%)
How many bedrooms (Average)	3.1
How many full bathrooms (Average)	1.9
Average mortgage payment	\$1,102
Average rental payment	\$886
Are you satisfied with your current housing	Satisfied with current housing (75.2%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Other (33.3%)
Are you seeking to change your housing situation	Seeking different housing (60.0%)
What type of unit are you seeking	Single family home (85.7%)
Type of tenure seeking	Seeking to buy (71.4%)
If own, do you plan on building or buying	Buy an existing unit (70.0%)
Expected buying price	\$50,000 to \$99,999 dollars (33.3%)
Expected building price	\$200,000 to \$249,999 dollars (42.9%)
Expected rental price	\$0 to \$300 dollars (100.0%)

For residents who are unsatisfied with their current housing, 33.3 percent were unsatisfied because of some other reason not listed in the survey. When asked what type of unit they were seeking, the most common response, 85.7 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 71.4 percent wanted to buy and 21.4 wanted to rent their next residence. Most residents wishing to buy a house anticipated spending \$50,000 to \$99,999 dollars if they were buying an existing unit, and \$200,000 to \$249,999 dollars if anticipated building a new unit. Of those respondents who wished to rent, the most common response, 100.0 percent of respondents, anticipated spending \$0 to \$300 dollars. Additional survey data are presented in **Volume II. Technical Appendix**.¹²⁵

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2014 5-year ACS data, 325 or .9 percent of households in Laramie County were overcrowded and another 71 or .2

¹²⁵ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

percent of units were severely overcrowded, as shown in Table II.11.41, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.11.41				
Overcrowding and Severe Overcrowding				
Laramie County				
2010-2014 5-Year ACS Data

Percentage	97.9%	1.6%	.5%	100.0%

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2014 5-year ACS, a total of 573 units or 1.4 percent of all housing units in Laramie County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.11.42, at right.

Table II.11.42		
Housing Units with Incomplete Kitchen Facilities		
Laramie County		
2010-2014 5-Year ACS Data		
Facilities	Laramie County	State of Wyoming
Complete Kitchen Facilities	40,398	258,329
Lacking Complete Kitchen Facilities	573	6,866
Total Housing Units	40,971	265,195
Percent Lacking	1.4%	2.6%

At the time of the 2014 ACS, a total of 402 units or 1.0 percent of all housing units in Laramie County were lacking complete plumbing facilities. This compared to 2.2 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.11.43, on the following page.

Table II.11.43 Housing Units with Incomplete Plumbing Facilities Laramie County 2010-2014 5-Year ACS Data		
Facilities	Laramie County	State of Wyoming
Complete Plumbing Facilities	40,569	259,378
Lacking Complete Plumbing Facilities	402	5,817
Total Households	40,971	265,195
Percent Lacking	1.0%	2.2%

The third type of housing problem reported in the 2014 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Laramie County, 16.1 percent of households had a cost burden and 10.2 percent of households had a severe cost burden, which compared to 14.4 percent with a cost burden and 9.8 percent with a severe cost burden in the State of Wyoming. Roughly 16.2 percent of homeowners with a mortgage in Laramie County experienced a cost burden and 8.8 percent experienced a severe cost burden, while 22.4 percent of renters had a cost burden and 16.6 percent had a severe cost burden, as seen in Table II.11.44, on the following page.

2016 WCDA Loan Profile

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 10,430 loans purchased in Laramie County between 1979 and 2016, with 164 occurring in fiscal 2016. The average home size over the period was 1,077 square feet and 1,155 square feet in fiscal 2016. For homes receiving a WCDA loan in fiscal 2016, the average year a home was built was 1968. The average household income in fiscal 2016 in nominal terms, without the effects of inflation being taken into consideration, was \$56,695. The average purchase price in fiscal 2016 was \$167,527. In fiscal 2016, 2.4 percent of loans purchased were for new construction, and 34.1 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**
