

LINCOLN COUNTY

Demographics

The Census Bureau's intercensal estimates indicate that Lincoln County's population decreased from 18,106 in 2010 to 17,961 in 2012, or by 0.8 percent. This compares to a statewide population growth of 2.3 percent over the period.¹⁰³ The number of people from 25 to 44 years of age decreased by 3.8 percent, and the number of people from 55 to 64 years of age increased by 7.7 percent. The white population decreased by 1.7 percent, while the black population increased by 281.6 percent. The Hispanic population increased from 781 to 774 people between 2010 and 2012 or by 0.9 percent. These data are presented in Table II.12.1, below.

Table II.12.2, below, presents the population of Lincoln County by age and gender from the 2000 and 2010 census counts. The 2010 census count showed a total of 9,302 males, who accounted for 51.4 percent of the population, and the remaining 48.6 percent, or 8,804 persons, were female. In 2012 the number of females decreased to 8,774 persons, which accounted for 48.9 percent of the population while the remaining 51.1 percent, or 9,187 persons were male.

¹⁰³ On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 71 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 6.6 percent, as shown in Table II.12.3, below.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year

¹⁰⁴ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.12.4, below, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 4,768 family households, of which 4,013 housed married couple families and 755 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 331 families, or a female householder with no husband present, of which there were 424 families. There were also an estimated 1,470 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Lincoln County was 76.4 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Lincoln County, 84.2 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Table II.12.5, on the following page, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 2,521 two-person family households, 844 three-person family households and 709 four-person family households. One-person non-family households made up 90.1 percent of all non-family households or an estimated 1,324 households. Lincoln County’s two persons households made up 42.5 percent of total housing units and four person households made up an additional 11.4 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

The age of a structure influences its value. As shown in Table II.12.16, at right, structures built in 1939 or earlier had a median value of \$138,500, while structures built between 1950 and 1959 had a median value of \$168,500 and those built between 1990 to 1999 had a median value of \$235,900. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$264,300 and \$241,100, respectively. The total average median value in Lincoln County was \$205,800, which compared to \$181,900 in the State of Wyoming.

Table II.12.16 Median Value by Year Structure Built Lincoln County 2007-2011 Five-Year ACS Data		
Year Built	Lincoln County	State of Wyoming
1939 or earlier	138,500	148,000
1940 to 1949	150,000	130,200
1950 to 1959	168,500	155,800

Total	205,800	181,900

Household mortgage status is reported in Table II.12.17, below. In Lincoln County, households with a mortgage accounted for 60.3 percent of all households or 3,009 housing units, and the remaining 39.7 percent or 1,983 units had no mortgage. Of those units with a mortgage, 478 had either a second mortgage or home equity loan, 54 had both a second mortgage and home equity loan, and 2,477 or 82.3 percent had no second mortgage or no home equity loan.

Table II.12.17 Mortgage Status Lincoln County 2007-2011 Five-Year ACS Data				
Mortgage Status	Lincoln County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	3,009	60.3%	95,294	61.5%
With either a second mortgage or home equity loan, but not both	478	15.9%	16,846	17.7%

Economics

The HUD estimated MFI for Lincoln County was \$69,500 in 2013.¹⁰⁵ This compares to Wyoming’s MFI of \$70,000. Diagram II.12.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Lincoln County’s labor force, defined as the number of persons working or actively seeking work, decreased by 490 persons, from 8,347 in 2011 to 7,857 in 2012. Employment decreased by 386 persons; unemployment decreased by 104 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 8.5 percent in 2011 to 7.7 in 2012, as shown on the following page in Diagram II.12.2.

¹⁰⁵ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.12.20, below, annual total monthly employment decreased by 6.59 percent between 2011 and 2012, from a total of 6,088 to 5,687 workers.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Lincoln County recorded 10,132 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$694,023,000, and real per capita income was \$38,405 in 2011. Average earnings per job in the county was \$42,973 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming cost of living index, average apartment rent in Lincoln County decreased from \$703 in fourth quarter 2011 to \$638 in fourth quarter 2012, or by 9.2 percent. Detached single-family home rents decreased by 3.8 percent.

Lincoln County rental prices experienced average annualized increases of 2.6 percent for apartments and 2.1 percent for houses since fourth quarter 1986 through fourth quarter 2012. These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot and 3.0 percent for mobile home lots over the same period. Table II.12.23, at right, presents the Lincoln County data for each rental type.¹⁰⁶

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Lincoln County decreased from 40 authorized units in 2011 to 28 in 2012. Total residential authorizations decreased from 40 units in 2011 to 28 in 2012.

The real value of single-family building permits increased from \$210,411 in 2011 to \$215,371 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$231,200 in 2011 to a low of \$174,700 in 2000. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity and per unit valuations are given in Table II.12.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Lincoln County was \$189,290. This represented a decrease of 12.2 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406, or an increase of 10.4 percent over the previous year. A comparison of average sales prices between 2000 and 2012 is displayed in Table II.12.25, below.

Table II.12.25 Average Sales Prices Lincoln County and Wyoming DOR Data, 2000–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2013.¹⁰⁷ During June 2013, a total of 71 surveys were completed by property managers in Lincoln County. Of the 527 rental units surveyed, 42 were vacant, indicating a vacancy rate of 7.97 percent, as shown in Table II.12.26, below. This rate compares to a 9.36 percent vacancy rate one year ago and a statewide June 2013 vacancy rate of 5.37 percent. The vacancy rate has been steadily decreasing from a high of 26.27 in December 2009, which indicates a strengthening in the rental market.

Diagram II.12.3, on the following page, shows the historical vacancy rate for Lincoln County and Wyoming. As can be seen, the vacancy rate in Lincoln County has been higher than that statewide rate, especially since 2008 where the vacancy rate spiked upward, reaching a high of 26.3 in the second half of 2009.

¹⁰⁷Those signified as a in the “year” column of Table II.12.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.12.4, below, shows the average rent of single-family and apartment units in Lincoln County. In the first half of 2013, average rents for single-family units increased to \$873, and average rents for apartments fell to \$627.

Table II.12.27 below, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 163 single family units in Lincoln County, with 13 of them available. This translates into a single family vacancy rate of 8.0%, which compares to a vacancy rate of 4.04% for the State of Wyoming. There were 169 apartment units reported in the survey, with 19 of them available, which resulted in a vacancy rate of 11.2%. This compares to a statewide vacancy rate of 5.91% for apartment units across the state.

Table II.12.32, on the following page shows the condition of rental units by unit type for Lincoln County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details on the conditions of additional unit types are displayed below.

Table II.12.32							
Condition by Unit Type							
Lincoln County							
RVS Data, First Survey 2013

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 35 respondents in Campbell County. Of the incoming persons who were unsatisfied with their current housing, 33.3 percent said they sought to own a home and 66.7 percent wished to rent. Of those seeking to own a home, 100.0 percent wished to buy existing units, of which 100.0 percent sought homes between \$100,000 and \$250,000.

Of those persons currently renting or seeking to rent, 50.0 percent anticipated spending between \$475 to \$849, and 50.0 percent hoped to spend above \$850 per month. Additional survey data are presented in **Volume II. Technical Appendix**.

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 947 loans purchased in Hot Spring County between 1979 and 2013, with one occurring in fiscal 2013. The average home size over the period was 1,273 square feet and 1,197 square feet in fiscal 2013. For homes receiving a WCDA loan in fiscal 2013, the average year a home was built was 2004. The average household income in fiscal 2013 in nominal terms, without the effects of inflation being taken into consideration, was \$41,600. The average purchase price in fiscal 2013 was \$105,000. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 71 or 1.1 percent of households in Lincoln County were overcrowded and another 17 or 0.3 percent of units were severely overcrowded, as shown in Table II.12.36, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.12.36				
Overcrowding and Severe Overcrowding

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 256 units or 2.9 percent of all housing units in Lincoln County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.12.37, at right.

Table II.12.37 Housing Units with Incomplete Kitchen Facilities Lincoln County 2007-2011 Five-Year ACS Data		
Facilities	Lincoln County	State of Wyoming
Complete Kitchen Facilities	8,577	251,420
Lacking Complete Kitchen Facilities	256	7,570
Total Housing Units	8,833	258,990
Percent Lacking	2.9%	2.9%

At the time of the 2011 ACS, a total of 312 units or 3.5 percent of all housing units in Lincoln County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.12.38, at right.

Table II.12.38 Housing Units with Incomplete Plumbing Facilities Lincoln County 2007-2011 Five-Year ACS Data		
Facilities	Lincoln County	State of Wyoming
Complete Plumbing Facilities	8,521	252,719
Lacking Complete Plumbing Facilities	312	6,271
Total Households	8,833	258,990
Percent Lacking	3.5%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30 to 50 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Lincoln County, 14.3 percent of households had a cost burden and 9.4 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 23.4 percent of homeowners with a mortgage in Lincoln County experienced a cost burden and 10.9 percent experienced a severe cost burden, while 10.8 percent of renters had a cost burden and 15.5 percent had a severe cost burden, as shown in Table II.12.39, on the following page.
