

LINCOLN COUNTY

Demographics

The Census Bureau's current census estimates indicate that Lincoln County's population increased from 18,106 in 2010 to 18,364 in 2013, or by 1.4 percent. This compares to a statewide population growth of 3.4 percent over the period. The number of people from 25 to 44 years of age decreased by 3.3 percent, and the number of people from 55 to 64 years of age increased by 13.8 percent. The white population increased by .2 percent, while the black population increased by 365.8 percent. The Hispanic population increased from 781 to 820 people between 2010 and 2013 or by 5.0 percent. These data are presented in Table II.12.1, below.

Table II.12.2, on the following page, presents the population of Lincoln County by age and gender from the 2010 Census and 2013 current census estimates. The 2010 Census count showed a total of 9,302 males, who accounted for 51.4 percent of the population, and the remaining 48.6 percent, or 8,804 persons, were female. In 2013, the number of males rose to 9,311 persons, and accounted for 50.7 percent of the population, with the remaining 49.3 percent, or 9,053 persons being female.

At the time of the 2010 Census, there were 71 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 6.6 percent, as shown in Table II.12.3, below.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

¹¹⁵ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the census tract level, and considered more robust than the one or three year sample estimates.

Table II.12.4, below, shows data on household type by tenure in the 2013 5-year ACS data. Household type is broken down by family households and non-family households. In 2013, there were an estimated 4,750 family households, of which 4,076 housed married couple families and 674 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 288 families, or a female householder with no husband present, of which there were 386 families. There were also an estimated 1,495 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Lincoln County was 76.1 percent, which compared to the statewide rate of 66.0 percent. Of the family households in Lincoln County, 85.8 percent were married households, which compared to 80.3 percent in the State of Wyoming.

Family Type	Lincoln County		State of Wyoming	
	Lincoln County	% of Total	State of Wyoming	% of Total

Table II.12.5, on the following page, displays the 2013 5-year ACS census data for household type by household size. In 2013, there were 2,474 two-person family households, 875 three-person family households and 765 four-person family households. One-person non-family households made up 90.1 percent of all non-family households or an estimated 1,347 households. Lincoln County's two persons households made up 41.7 percent of total housing units and four person households made up an additional 12.2 percent, which compares to 38.1 and 12.0 percent, respectively, for the State of Wyoming.

The age of a structure influences its value. As shown in Table II.12.16, at right, structures built in 1939 or earlier had a median value of \$157,900, while structures built between 1950 and 1959 had a median value of \$125,400 and those built between 1990 to 1999 had a median value of \$230,500. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$242,800 and \$, respectively. The total average median value in Lincoln County was \$190,900, which compared to \$185,900 in the State of Wyoming.

Table II.12.16 Median Value by Year Structure Built Lincoln County 2009-2013 5-Year ACS Data		
Year Built	Lincoln County	State of Wyoming
1939 or earlier	157,900	154,300
1940 to 1949	160,500	136,700

Economics

The HUD estimated MFI for Lincoln County was \$71,500 in 2014.¹¹⁶ This compares to Wyoming’s MFI of \$71,400. Diagram II.12.1, below, illustrates the estimated MFI for 2000 through 2014.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Lincoln County’s labor force, defined as the number of persons working or actively seeking work, decreased by 94 persons, from 7,904 in 2012 to 7,810 in 2013. Employment increased by 47 persons; unemployment decreased by 141 persons; and the unemployment rate, the number of

¹¹⁶ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

unemployed persons as a percentage of the labor force, decreased from 7.6 percent in 2012 to 5.9 in 2013, as shown below in Diagram II.12.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.12.20, below, annual total monthly employment decreased by 0.63 percent between 2012 and 2013, from a total of 5,684 to 5,574 workers. Preliminary estimates shows employment increased to 6,180 persons in June 2014.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2013, the most recent year for which data are available, Lincoln County recorded 9,623 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$757,490,000, and real per capita income was \$41,249 in 2013. This compares to a statewide average real per capita income of \$52,826. The average earnings per job in the county was \$42,099 in 2013, while Wyoming average earnings per job was \$52,420. These data are presented in full in **Volume II. Technical Appendix**.

Housing

According to the Wyoming cost of living index, average apartment rent in Lincoln County increased from \$471 in second quarter 2013 to \$483 in second quarter 2014, or by 2.5 percent. Detached single-family home rents remained unchanged at \$713.

Lincoln County rental prices experienced average annualized increases of 1.5 percent for apartments and 2.3 percent for houses since fourth quarter 1986 through second quarter 2014. These figures compare to state average annualized increases in rental prices of 3.3 percent for apartments, 3.8 percent for houses, 3.5 percent for mobile homes plus a lot and 3.1 percent for mobile home lots over the same period. Table II.12.23, at right, presents the Lincoln County data for each rental type.¹¹⁷

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Lincoln County increased from 28 authorized units in 2012 to 32 in 2013. Total residential authorizations increased from 28 units in 2012 to 32 in 2013.

The real value of single-family building permits decreased from \$218,587 in 2012 to \$207,664 in 2013. The value over the past decade, in real 2009 dollars, fluctuated from a high of \$233,946 in 2009 to a low of \$174,828 in 2000. These figures compare to the state average high of \$289,650 in 2013 and low of \$187,810 in 2003. Additional details of permit activity and per unit valuations are given in Table II.12.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2013, the average sales price in Lincoln County was \$247,160. This represented an increase of 30.6 percent from the previous year. In contrast, Wyoming’s weighted average was \$281,345, or an increase of 5.6 percent over the previous year. A comparison of average sales prices between 2000 and 2013 is displayed in Table II.12.25, on the following page.

Table II.12.25 Average Sales Prices Lincoln County and Wyoming DOR Data, 2000–2013

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2014.¹¹⁸ During December 2014, a total of 54 surveys were completed by property managers in Lincoln County. Of the 517 rental units surveyed, 47 were vacant, indicating a vacancy rate of 9.1 percent, as shown in Table II.12.26, below. This rate compares to an 17.4 percent vacancy rate one year ago and a statewide December 2014 vacancy rate of 4.6 percent.

Table II.12.26 Total Units, Vacant Units, Vacancy Rate Lincoln County RVS Data, 2001 - 2014

2014b	54	517	47	9.1%

¹¹⁸Those signified as a in the “year” column of Table II.12.10 are conducted in June/July of each year. Those signified as b are conducted each November/December.

Diagram II.12.3, below, shows the historical vacancy rate for Lincoln County and Wyoming. As can be seen, the vacancy rate in Lincoln County has been higher than that statewide rate, especially since 2008 where the vacancy rate spiked upward, reaching a high of 26.3 in the second half of 2009. The rate spiked again in December 2013, rising to 17.38 percent, but fell to 9.1 percent in December 2014.

Diagram II.12.4, below, shows the average rent of single-family and apartment units in Lincoln County. In the first half of 2014, average rents for single-family units decreased to \$823, and average rents for apartments fell to \$673.

Table II.12.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 126 single family units in Lincoln County, with 6 of them available. This translates into a vacancy rate of 4.8 percent in Lincoln County, which compares to a single family vacancy rate of 3.0 percent for the State of Wyoming. There were 162 apartment units reported in the survey, with 4 of them available, which resulted in a vacancy rate of 2.5 percent. This compares to a statewide vacancy rate of 3.9 percent for apartment units across the state.

Table II.12.27			
Rental Vacancy Survey by Type			
Lincoln County			
RVS Data, December 2014

Average market-rate rents by unit type are shown in Table II.12.29, on the following page. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table, II.12.38, on the following page shows the most common answers from the 2014 calendar year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Lincoln County had a total of 56 respondents, with an average persons per household of 2.8 people. Of new residents to Lincoln County, 64.3 percent were married and the most common age group arriving in the state was 55 to 64 years old. Most new residents moved for reasons other than those given in the survey.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 57.1 percent of respondents owning their residence. The average mortgage payment in Lincoln County was \$786 and the average rent was \$577. When asked if they were satisfied with their current housing, 94.6 percent said they were satisfied with their current housing.

Table II.12.38 Most Replied Response Lincoln County HNA Survey: Calendar Year 2014	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	56
Number of persons in household (Average)	2.8
Current age	55 to 64 years old (26.8%)
Marital status	Married (64.3%)
Primary reason for moving to Wyoming	Other reason (41.1%)
In which industry are you primarily employed	Retired (28.6%)
Highest education level completed	College Graduate (30.4%)
Total household income from all sources	\$50,000 to \$74,999 dollars (24.2%)
Current Housing Characteristics	
Current Residence	Single family home (75.0%)
Do you own or rent	Own (57.1%)
How many bedrooms (Average)	3.1
How many full bathrooms (Average)	2.1
Average mortgage payment	\$786
Average rental payment	\$577
Are you satisfied with your current housing	Satisfied with current housing (94.6%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Other (75.0%)
Are you seeking to change your housing situation	Seeking different housing (45.5%)
What type of unit are you seeking	Single family home (100.0%)
Type of tenure seeking	Seeking to buy (80.0%)
If own, do you plan on building or buying	Build a new unit (40.0%)
Expected buying price	\$150,000 to \$199,999 dollars (50.0%)
Expected building price	Not sure (100.0%)
Expected rental price	.

For residents who are unsatisfied with their current housing, 75.0 percent were unsatisfied because of some other reason not listed in the survey. When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 80.0 percent wanted to buy their next residence. Most residents wishing to buy a house anticipated spending \$150,000 to \$199,999 dollars if they were buying an existing unit. Additional survey data are presented in **Volume II. Technical Appendix**¹¹⁹.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2013 5-year ACS data, 116 or 1.9 percent of households in Lincoln County were overcrowded and another 35 or .6 percent of units were severely overcrowded, as shown in Table II.12.39, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

¹¹⁹ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Table II.12.39 Overcrowding and Severe Overcrowding Lincoln County 2009-2013 5-Year ACS Data

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2013 5-year ACS, a total of 296 units or 3.3 percent of all housing units in Lincoln County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.12.40, at right.

Table II.12.40 Housing Units with Incomplete Kitchen Facilities Lincoln County 2009-2013 5-Year ACS Data		
Facilities	Lincoln County	State of Wyoming
Complete Kitchen Facilities	8,655	256,276
Lacking Complete Kitchen Facilities	296	6,764
Total Housing Units	8,951	263,040
Percent Lacking	3.3%	2.6%

At the time of the 2013 ACS, a total of 268 units or 3.0 percent of all housing units in Lincoln County were lacking complete plumbing facilities. This compared to 2.0 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.12.41, below.

Table II.12.41 Housing Units with Incomplete Plumbing Facilities Lincoln County 2009-2013 5-Year ACS Data		
Facilities	Lincoln County	State of Wyoming
Complete Plumbing Facilities	8,683	257,728
Lacking Complete Plumbing Facilities	268	5,312
Total Households	8,951	263,040
Percent Lacking	3.0%	2.0%

The third type of housing problem reported in the 2013 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Lincoln County, 15.2 percent of households had a cost burden and 8.0 percent of households had a severe cost burden, which compared to 14.3 percent with a cost burden and 9.9 percent with a severe cost burden in the State of Wyoming. Roughly 21.9 percent of homeowners with a mortgage in Lincoln County experienced a cost burden and 8.6 percent experienced a severe cost burden, while 16.6 percent of renters had a cost burden and 18.4 percent had a severe cost burden, as seen in Table II.12.42, on the following page.

2015 Housing Needs Forecast

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the *2015 Wyoming Housing Needs Forecast*, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 3,520 households in Lincoln County, from 6,861 in 2010 to 10,381 in 2040. Homeowners are expected to increase from 5,410 households in 2010 to 8,140 by 2040. Renters are anticipated to increase from 1,451 households in 2010 to 2,241 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 225 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes

from 30 to 50 percent of MHI is expected to increase by 254 households and by 347 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 500 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 306 households over the period. Table II.1.43, below, provides details of the household forecast by tenure and income.
