

## LINCOLN COUNTY

### Demographics

The Census Bureau's current census estimates indicate that Lincoln County's population increased from 18,106 in 2010 to 18,722 in 2015, or by 3.4 percent. This compares to a statewide population growth of 4.0 percent over the period. The number of people from 25 to 44 years of age decreased by 3.2 percent, and the number of people from 55 to 64 years of age increased by 18.3 percent. The white population increased by 2.4 percent, while the black population increased by 226.3 percent. The Hispanic population increased from 781 to 857 people between 2010 and 2015 or by 9.7 percent. These data are presented in Table II.12.1, below.

Table II.12.2, on the following page, presents the population of Lincoln County by age and gender from the 2010 Census and 2015 current census estimates. The 2010 Census count showed a total of 9,302 males, who accounted for 51.4 percent of the population, and the remaining 48.6 percent, or 8,804 persons, were female. In 2015, the number of males rose to 9,531 persons, and accounted for 50.9 percent of the population, with the remaining 49.1 percent, or 9,191 persons being female.

At the time of the 2010 Census, there were 71 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 6.6 percent, as shown in Table II.12.3, below.

<b>Table II.12.3</b> <b>Group Quarters Population</b> Lincoln County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial Census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

<sup>126</sup> In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.12.4, below, shows data on household type by tenure in the 2014 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 4,916 family households, of which 4,212 housed married couple families and 704 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 298 families, or a female householder with no husband present, of which there were 406 families. There were also an estimated 1,668 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Lincoln County was 74.7 percent, which compared to the statewide rate of 65.3 percent. Of the family households in Lincoln County, 85.7 percent were married households, which compared to 79.8 percent in the State of Wyoming.

Family Type	Lincoln County		State of Wyoming	
	Lincoln County	% of Total	State of Wyoming	% of Total

Table II.12.5, on the following page, displays the 2014 5-year ACS census data for household type by household size. In 2013, there were 2,695 two-person family households, 824 three-person family households and 718 four-person family households. One-person non-family households made up 83.2 percent of all non-family households or an estimated 1,387 households. Lincoln County's two persons households made up 45.0 percent of total housing units and four person households made up an additional 10.9 percent, which compares to 38.4 and 11.6 percent, respectively, for the State of Wyoming.

The age of a structure influences its value. As shown in Table II.12.16, at right, structures built in 1939 or earlier had a median value of \$160,500, while structures built between 1950 and 1959 had a median value of \$133,600 and those built between 1990 to 1999 had a median value of \$240,600. The newest structures tended to have the highest values and those built between 2000 and 2009 and from 2005 or later had median values of \$240,100 and \$404,800, respectively. The total average median value in Lincoln County was \$194,700, which compared to \$189,300 in the State of Wyoming.

<b>Table II.12.16</b> <b>Median Value by Year Structure Built</b> Lincoln County 2010-2014 5-Year ACS Data

**Economics**

The HUD estimated MFI for Lincoln County was \$73,400 in 2016.<sup>127</sup> This compares to Wyoming’s MFI of \$73,300. Diagram II.12.1, below, illustrates the estimated MFI for 2000 through 2016.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Lincoln County’s labor force, defined as the number of persons working or actively seeking work,

<sup>127</sup> Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

increased by 167 persons, from 8,252 in 2014 to 8,419 in 2015. Employment increased by 203 persons; unemployment decreased by 36 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 5.2 percent in 2014 to 4.6 in 2015, as shown below in Diagram II.12.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. Data from this series are from the period of January 2005 through December 2015 and are presented in Table II.12.20, below, with the 2015 information considered preliminary (p). As shown therein, total annual employment stood at 5,955 persons in 2015; this figure was higher than the 2014 average by 206 jobs.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2014, the most recent year for which data are available, Lincoln County recorded 9,823 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$746,714,000, and real per capita income was \$40,217 in 2014. This compares to a statewide average real per capita income of \$54,584. The average earnings per job in the county was \$42,097 in 2014, while Wyoming average earnings per job was \$53,171. These data are presented in full in **Volume II. Technical Appendix.**

**Housing**

According to the Wyoming cost of living index, real average apartment rent in Lincoln County increased from \$523 in fourth quarter 2014 to \$498 in fourth quarter 2015, or by 4.8 percent. Detached single-family home rents increased to \$670, rising by 0.2 percent.

Lincoln County rental prices experienced average annualized decrease of 0.7 percent for apartments and an decrease 0.2 percent for houses since fourth quarter 1986 through fourth quarter 2015. These figures compare to state average annualized increases in rental prices of 1.0 percent for apartments, 1.4 percent for houses, 1.1 percent for mobile homes plus a lot and 1.1 percent for mobile home lots over the same period. Table II.12.23, at right, presents the Lincoln County data for each rental type.<sup>128</sup>

<sup>128</sup> Apartments are two-bedroom units, excluding gas and electricity. Mobile home lots are single-wide units and include water costs. Houses are for two- or three-bedroom dwelling units, excluding gas and electricity. A mobile home on a lot includes a combined rent for mobile home and lot.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Lincoln County increased from 68 authorizations in 2014 to 105 in 2015.

The real value of single-family building permits increased from \$255,938 in 2014 to \$276,058 in 2015. This compares to an increase in permit value statewide, with values rising from \$298,797 in 2014 to \$348,576 in 2015. Additional details are given in Table II.12.24, below.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2015, the average sales price in Lincoln County was \$288,084. This represented an increase of 16.8 percent from the previous year. In contrast, Wyoming’s weighted average was \$275,611, or an increase of 4.6 percent over the previous year. A comparison of average sales prices between 2000 and 2015 is displayed in Table II.12.25, on the following page.

<b>Table II.12.25</b> <b>Average Sales Prices</b> Lincoln County and Wyoming DOR Data, 2000–2015				
Year	Lincoln County Average Price (\$)	Lincoln County Annual % Change	Wyoming Average Price	Wyoming Annual % Change

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2016.<sup>129</sup> During June 2016, a total of 52 surveys were completed by property managers in Lincoln County. Of the 496 rental units surveyed, 28 were vacant, indicating a vacancy rate of 5.6 percent, as shown in Table II.12.26, below. This rate compares to a 8.4 percent vacancy rate one year ago and a statewide June 2016 vacancy rate of 8.6 percent.

Diagram II.12.3, on the following page, shows the historical vacancy rate for Lincoln County and Wyoming. As can be seen, the vacancy rate in Lincoln County has been higher than that statewide rate, especially since 2008 where the vacancy rate spiked upward, reaching a high of 26.3 in the second half of 2009. The rate spiked again in December 2015, rising to 15.96 percent, but fell to 5.6 percent in June 2016.

<b>Table II.12.26</b> <b>Total Units, Vacant Units, Vacancy Rate</b> Lincoln County RVS Data, 2001 - 2016

<sup>129</sup>Those signified as a in the “year” column of Table II.12.10 are conducted in June/July of each year. Those signified as b are conducted each November/December.

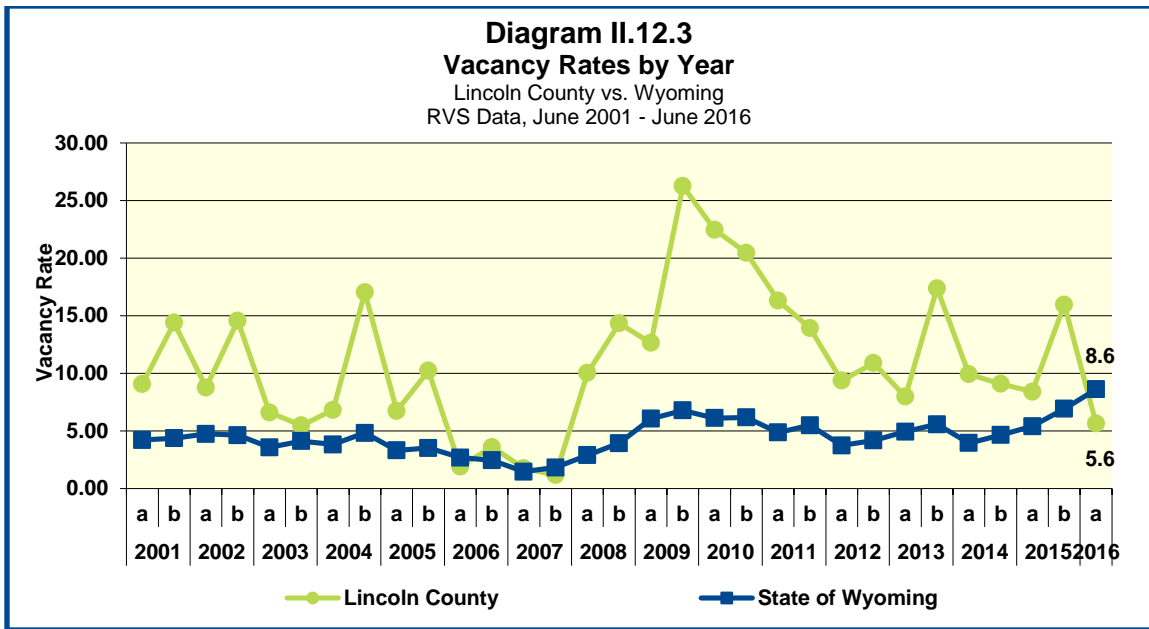

Diagram II.12.4, below, shows the average rent of single-family and apartment units in Lincoln County. In the first half of 2016, average rents for single-family units increased to \$1,015, and average rents for apartments fell to \$683.

Table II.12.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 179 single family units in Lincoln County, with 10 of them available. This translates into a vacancy rate of 5.6 percent in Lincoln County, which compares to a single family vacancy rate of 7.0 percent for the State of Wyoming. There were 176 apartment units reported in the survey, with 12 of them available, which resulted in a vacancy rate of 6.8 percent. This compares to a statewide vacancy rate of 7.9 percent for apartment units across the state.

<b>Table II.12.27</b>

Average market-rate rents by unit type are shown in Table II.12.31, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

<b>Table II.12.31</b>

Table, II.12.40, on the following page, shows the most common answers from the 2016 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Lincoln County had a total of 33 respondents, with an average persons per household of 3.1 people. Of new residents to Lincoln County, 80.6 percent were married and the most common age group arriving in the state was 55 to 64 years old. Most new residents moved for reasons other than those given in the survey.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 63.6 percent of respondents owning thier residence. The average mortgage payment in Lincoln County was \$1,031 and the average rent was \$520. When asked if they were satisfied with their current housing, 81.8 percent said they were satisfied with thier current housing.

<b>Table II.12.40</b> <b>Most Replied Response</b> Lincoln County HNA Survey: Fiscal Year 2016	
Question	Most Replied Answer (%)
<b>Demographics</b>	
Total Number of Respondents	33
Number of persons in household (Average)	3.1
Current age	55 to 64 years old (21.9%)
Marital status	Married (80.6%)
Primary reason for moving to Wyoming	Other reason (33.3%)
In which industry are you primarily employed	Other (30.3%)
Highest education level completed	High School Diploma/GED (30.3%)
Total household income from all sources	\$75,000 to \$99,999 dollars (20.0%)
<b>Current Housing Characteristics</b>	
Current Residence	Single family home (72.7%)
Do you own or rent	Own (63.6%)
How many bedrooms (Average)	3.3
How many full bathrooms (Average)	1.8
Average mortgage payment	\$1,031
Average rental payment	\$520
Are you satisfied with your current housing	Satisfied with current housing (81.8%)
<b>Housing Demand (If unsatisfied with current housing)</b>	
Reason you are unsatisfied	Housing unit is too small (60.0%)
Are you seeking to change your housing situation	Seeking different housing (85.7%)
What type of unit are you seeking	Single family home (50.0%)
Type of tenure seeking	Seeking to buy (60.0%)
If own, do you plan on building or buying	Build a new unit (40.0%)
Expected buying price	\$200,000 to \$249,999 dollars (100.0%)
Expected building price	\$50,000 to \$99,999 dollars (100.0%)

For residents who are unsatisfied with their current housing, 60.0 percent were unsatisfied because the housing unit is too small. When asked what type of unit they were seeking, the most common response, 50.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 60.0 percent wanted to buy and 20.0 wanted to rent their next residence. Most residents wishing to buy a house anticipated spending \$200,000 to \$249,999 dollars if they were buying an existing unit, and \$50,000 to \$99,999 dollars if anticipated building a new unit. Additional survey data are presented in **Volume II. Technical Appendix.**<sup>130</sup>

### Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2014 5-year ACS data, 120 or 1.8 percent of households in Lincoln County were overcrowded and another 31 or .5 percent of units were severely overcrowded, as shown in Table II.12.40, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

<sup>130</sup> Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

<b>Table II.12.40</b>

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2014 5-year ACS, a total of 289 units or 3.2 percent of all housing units in Lincoln County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.12.41, at right.

<b>Table II.12.41</b>		
<b>Housing Units with Incomplete Kitchen Facilities</b>		
Lincoln County 2010-2014 5-Year ACS Data		
<b>Facilities</b>	<b>Lincoln County</b>	<b>State of Wyoming</b>
Complete Kitchen Facilities	8,703	258,329
Lacking Complete Kitchen Facilities	289	6,866
<b>Total Housing Units</b>	<b>8,992</b>	<b>265,195</b>
Percent Lacking	3.2%	2.6%

At the time of the 2014 ACS, a total of 293 units or 3.3 percent of all housing units in Lincoln County were lacking complete plumbing facilities. This compared to 2.2 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.12.42, below.

<b>Table II.12.42</b> <b>Housing Units with Incomplete Plumbing Facilities</b> Lincoln County 2010-2014 5-Year ACS Data		
<b>Facilities</b>	<b>Lincoln County</b>	<b>State of Wyoming</b>
Complete Plumbing Facilities	8,699	259,378
Lacking Complete Plumbing Facilities	293	5,817
<b>Total Households</b>	<b>8,992</b>	<b>265,195</b>
Percent Lacking	3.3%	2.2%

The third type of housing problem reported in the 2014 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Lincoln County, 15.9 percent of households had a cost burden and 7.0 percent of households had a severe cost burden, which compared to 14.4 percent with a cost burden and 9.8 percent with a severe cost burden in the State of Wyoming. Roughly 20.9 percent of homeowners with a mortgage in Lincoln County experienced a cost burden and 8.6 percent experienced a severe cost burden, while 17.3 percent of renters had a cost burden and 12.5 percent had a severe cost burden, as seen in Table II.12.43, on the following page.

<b>Table II.12.43</b> <b>Cost Burden and Severe Cost Burden by Tenure</b> Lincoln County 2010-2014 5-Year ACS Data

**2016 WCDA Loan Profile**

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 963 loans purchased in Lincoln County between 1979 and 2016, with 4 occurring in fiscal 2016. The average home size over the period was 1,279 square feet and 1,326 square feet in fiscal 2016. For homes receiving a WCDA loan in fiscal 2016, the average year a home was built was 1963. The average household income in fiscal 2016 in nominal terms, without the effects of inflation being taken into consideration, was \$57,648. The average purchase price in fiscal 2016 was \$143,725. In fiscal 2016, no loans purchased were for new construction, and 25.0 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.
