

NIORRARA COUNTY

Demographics

The Census Bureau's current census estimates indicate that Niobrara County's population increased from 2,484 in 2010 to 2,542 in 2015, or by 2.3 percent. This compares to a statewide population growth of 4.0 percent over the period. The number of people from 25 to 44 years of age increased by 10.3 percent, and the number of people from 55 to 64 years of age increased by 6.0 percent. The white population remained unchanged, while the black population increased by 333.3 percent. The Hispanic population increased from 52 to 75 people between 2010 and 2015 or by 44.2 percent. These data are presented in Table II.14.1, below.

At the time of the 2010 Census, there were 214 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 111.9 percent, as shown in Table II.14.3, below.

Table II.14.3 Group Quarters Population Niobrara County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial Census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

¹³⁵ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.14.4, below, shows data on household type by tenure in the 2014 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 572 family households, of which 513 housed married couple families and 59 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 10 families, or a female householder with no husband present, of which there were 49 families. There were also an estimated 443 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Niobrara County was 56.4 percent, which compared to the statewide rate of 65.3 percent. Of the family households in Niobrara County, 89.7 percent were married households, which compared to 79.8 percent in the State of Wyoming.

The age of a structure influences its value. As shown in Table II.14.16, at right, structures built in 1939 or earlier had a median value of \$145,800, while structures built between 1950 and 1959 had a median value of \$135,600 and those built between 1990 to 1999 had a median value of \$83,100. The newest structures tended to have the highest values and those built between 2000 and 2009 and from 2005 or later had median values of \$270,300 and \$258,900, respectively. The total average median value in Niobrara County was \$135,900, which compared to \$189,300 in the State of Wyoming.

Table II.14.16 Median Value by Year Structure Built Niobrara County 2010-2014 5-Year ACS Data		
Year Built	Niobrara County	State of Wyoming
1939 or earlier	145,800	153,700
1940 to 1949	67,700	140,900
1950 to 1959	135,600	158,200
1960 to 1969	153,100	177,300
1970 to 1979	162,500	184,100
1980 to 1989	166,900	197,900
1990 to 1999	83,100	233,600
2000 to 2009	270,300	252,800
Built 2010 or Later		258,900
Total	135,900	189,300

Household mortgage status is reported in Table II.14.17, below. In Niobrara County, households with a mortgage accounted for 45.7 percent of all households or 291 housing units, and the remaining 54.3 percent or 346 units had no mortgage. Of those units with a mortgage, 18 had either a second mortgage or home equity loan, 0 had both a second mortgage and home equity loan, and 273 or 93.8 percent had no second mortgage or no home equity loan.

Table II.14.17 Mortgage Status Niobrara County 2010-2014 5-Year ACS Data				
Mortgage Status	Niobrara County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	291	45.7%	92,688	59.3%
With either a second mortgage or home equity loan, but not both	18	6.2%	12,104	13.1%
Second mortgage only	15	83.3%	5,864	48.4%
Home equity loan only	3	16.7%	6,240	51.6%
Both second mortgage and home equity loan	0	.0%	545	.6%
No second mortgage and no home equity loan	273	93.8%	80,039	86.4%
Housing units without a mortgage	346	54.3%	63,601	40.7%
Total	637	100.0%	156,289	100.00%

The median rent in Niobrara County was \$431 as compared to \$663 statewide, as seen in Table II.14.18, below.

Table II.14.18 Median Rent Niobrara County 2010-2014 5-Year ACS Data	
Place	Rent
Niobrara County	\$431
State of Wyoming	\$663

The Wyoming driver’s license data provided by the WYDOT indicated a net increase of 2 persons during the first half of 2016. The driver’s license total exchanges since 2000 for Niobrara County are presented in Table II.14.19, below, and indicate a net increase of 323 persons over the time period.

Economics

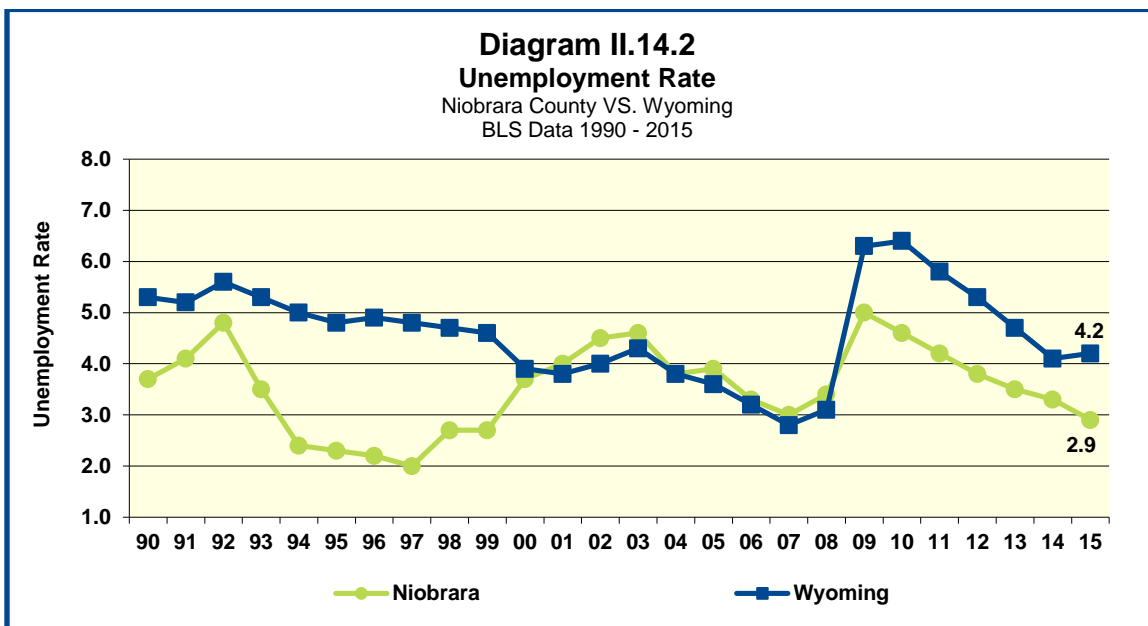

The HUD estimated MFI for Niobrara County was \$58,500 in 2016.¹³⁶ This compares to Wyoming’s MFI of \$73,300. Diagram II.14.1, below, illustrates the estimated MFI for 2000 through 2016.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Niobrara County’s labor force, defined as the number of persons working or actively seeking work,

¹³⁶ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

decreased by 36 persons, from 1,354 in 2014 to 1,318 in 2015. Employment decreased by 29 persons; unemployment decreased by 7 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 3.3 percent in 2014 to 2.9 percent in 2015, as shown in Diagram II.14.,below.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. Data from this series are from the period of January 2005 through December 2015 and are presented in Table II.14.20, below, with the 2015 information considered preliminary (p). As shown therein, total annual employment stood at 904 persons in 2015; this figure was lower than the 2014 average by 42 jobs.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. The BLS QCEW data indicated average weekly wages were \$674 in 2014. In 2015, average weekly wages saw a decrease of 1.48 over the prior year, rising to \$664. These data are shown in Table II.14.21, below.

Table II.14.21 Average Weekly Wages Niobrara County BLS QCEW Data, 2001–2015(p)						
Year	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Annual	% Change

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2014, the most recent year for which data are available, Niobrara County recorded 2,083 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$121,426,000, and real per capita income was \$49,300 in 2014. This compares to a statewide average real per capita income of \$54,584. The average earnings per job in the county was \$37,075 in 2014, while Wyoming average earnings per job was \$53,171. These data are presented in full in **Volume II. Technical Appendix**.

Housing

According to the Wyoming Cost of Living Index, real average apartment rent in Niobrara County increased from \$568 in fourth quarter 2014 to \$617 in fourth quarter 2015, or by 8.7 percent. Detached single-family home rents increased from \$635 to \$653 between the fourth quarter of 2014 and 2015.

Niobrara County rental prices experienced average annualized increases of 2.9 percent for apartments and 1.8 percent for houses from fourth quarter 1998 through fourth quarter 2015.¹³⁷ These figures compare to state average annualized increases in rental prices of 1.0 percent for apartments and 1.4 percent for houses over the same period. Table II.14.23, at right, presents the Niobrara County data for each rental type.¹³⁸

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Niobrara County increased from 1 authorizations in 2014 to 2 in 2015.

¹³⁷ Data from 1986 to 1997 for Niobrara County is not reported by the EAD.

¹³⁸ Apartments are two-bedroom units, excluding gas and electricity. Mobile home lots are single-wide units and include water costs. Houses are for two- or three-bedroom dwelling units, excluding gas and electricity. A mobile home on a lot includes a combined rent for mobile home and lot.

The real value of single-family building permits increased from \$37,368 in 2014 to \$150,000 in 2015. This compares to an increase in permit value statewide, with values rising from \$298,797 in 2014 to \$348,576 in 2015. Additional details are given in Table II.14.24, below.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2015, the average sales price in Niobrara County was \$114,538. This represented a decrease of 9.2 percent from the previous year. In contrast, Wyoming’s average was \$275,611, an increase of 4.6 percent over the previous year. A comparison of average sales prices between 2000 and 2015 is displayed in Table II.14.25, on the following page.

Table II.14.25 Average Sales Prices Niobrara County vs. Wyoming DOR Data, 2000–2015

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000 with the most recent survey conducted in June 2016.¹³⁹ During June 2016, a total of five surveys were completed by property managers in Niobrara County. Of the 42 rental units surveyed, none were vacant, indicating a vacancy rate of 0.0 percent. This compares to a 23.4 percent vacancy rate one year ago and a statewide June 2016 vacancy rate of 8.6 percent as shown in Table II.14.26, at right. The small sample size leads to a high volatility in the vacancy rate.

Diagram II.14.3, on the following page, shows the historical vacancy rate for Niobrara County and Wyoming. As can be seen, the vacancy rate in Niobrara County was generally higher than the statewide rate except for a brief period between 2007 and 2009, and the December 2014 survey.

Table II.14.26 Total Units, Vacant Units, and Vacancy Rate Niobrara County RVS Data, June 2001–June 2016

¹³⁹Those signified as a in the “year” column of Table II.14.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

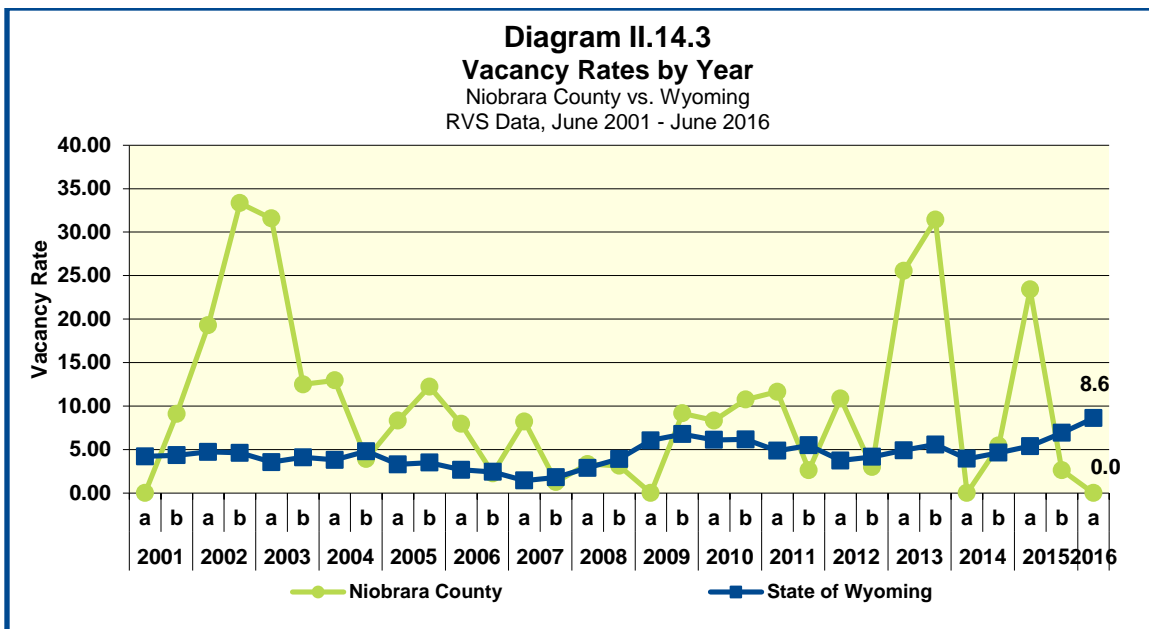

Diagram II.14.4, below, shows the average rent of single-family and apartment units in Niobrara County. In 2016, average rents for single-family units increased to \$627.

Table, II.14.40, on the following page, shows the most common answers from the 2016 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Niobrara County had a total of 6 respondents, with an average persons per household of 3.0 people. Of new residents to Niobrara County, 50.0 percent were not married and the most common age group arriving in the state was 65 years or older. Most new residents moved for a new job.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 50.0 percent of respondents renting their residence. The average mortgage payment in Niobrara County was \$ and the average rent was \$375. When

asked if they were satisfied with their current housing, 66.7 percent said they were satisfied with thier current housing.

Table II.14.40 Most Replied Response Niobrara County HNA Survey: Fiscal Year 2016	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	6
Number of persons in household (Average)	3.0
Current age	65 years or older (50.0%)
Marital status	Not Married (50.0%)
Primary reason for moving to Wyoming	New job (33.3%)
In which industry are you primarily employed	Retired (50.0%)
Highest education level completed	College Graduate (50.0%)
Total household income from all sources	Less than \$10,000 dollars (100.0%)
Current Housing Characteristics	
Current Residence	Single family home (83.3%)
Do you own or rent	Rent (50.0%)
How many bedrooms (Average)	3.3
How many full bathrooms (Average)	2.0
Average mortgage payment	\$
Average rental payment	\$375
Are you satisfied with your current housing	Satisfied with current housing (66.7%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Need more bedrooms (50.0%)
Are you seeking to change your housing situation	Not seeking different housing (66.7%)
What type of unit are you seeking	Single family home (100.0%)
Type of tenure seeking	Seeking to rent (100.0%)
Expected rental price	\$501 to \$600 dollars (100.0%)

For residents who are unsatisfied with their current housing, 50.0 percent were unsatisfied because they need more bedrooms. When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 0.0 percent wanted to buy and 100.0 wanted to rent their next residence. Of those respondents who wished to rent, the most common response, 100.0 percent of respondents, anticipated spending \$501 to \$600 dollars. Additional survey data are presented in **Volume II. Technical Appendix¹⁴⁰**.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2014 5-year ACS data, 1 or .1 percent of households in Niobrara County were overcrowded and another 0 or .0 percent of units were severely overcrowded, as shown in Table II.14.28, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

¹⁴⁰ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2014 5-year ACS, a total of 47 units or 3.6 percent of all housing units in Niobrara County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.14.29, at right.

Table II.14.29		
Housing Units with Incomplete Kitchen Facilities		
Niobrara County		
2010-2014 5-Year ACS Data		
Facilities	Niobrara County	State of Wyoming
Complete Kitchen Facilities	1,268	258,329
Lacking Complete Kitchen Facilities	47	6,866
Total Housing Units	1,315	265,195
Percent Lacking	3.6%	2.6%

At the time of the 2014 ACS, a total of 40 units or 3.0 percent of all housing units in Niobrara County were lacking complete plumbing facilities. This compared to 2.2 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.14.30, below.

Table II.14.30 Housing Units with Incomplete Plumbing Facilities Niobrara County 2010-2014 5-Year ACS Data		
Facilities	Niobrara County	State of Wyoming
Complete Plumbing Facilities	1,275	259,378
Lacking Complete Plumbing Facilities	40	5,817
Total Households	1,315	265,195
Percent Lacking	3.0%	2.2%

The third type of housing problem reported in the 2014 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Niobrara County, 12.2 percent of households had a cost burden and 12.9 percent of households had a severe cost burden, which compared to 14.4 percent with a cost burden and 9.8 percent with a severe cost burden in the State of Wyoming. Roughly 18.6 percent of homeowners with a mortgage in Niobrara County experienced a cost burden and 15.5 percent experienced a severe cost burden, while 12.2 percent of renters had a cost burden and 20.4 percent had a severe cost burden, as seen in Table II.14.31, on the following page.

2016 WCDA Loan Profile

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 104 loans purchased in Niobrara County between 1979 and 2016, with 1 occurring in fiscal 2016. The average home size over the period was 1,274 square feet and 1,271 square feet in fiscal 2016. For homes receiving a WCDA loan in fiscal 2016, the average year a home was built was 1939. The average household income in fiscal 2016 in nominal terms, without the effects of inflation being taken into consideration, was \$42,389. The average purchase price in fiscal 2016 was \$69,000. In fiscal 2016, 0.0 percent of loans purchased were for new construction, and 100.0 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**
