

PARK COUNTY

Demographics

The Census Bureau's current census estimates indicate that Park County's population increased from 28,205 in 2010 to 29,228 in 2015, or by 3.6 percent. This compares to a statewide population growth of 4.0 percent over the period. The number of people from 25 to 44 years of age increased by 5.7 percent, and the number of people from 55 to 64 years of age increased by 5.8 percent. The white population increased by 2.0 percent, while the black population increased by 463.8 percent. The Hispanic population increased from 1,365 to 1,825 people between 2010 and 2015 or by 33.7 percent. These data are presented in Table II.15.1, below.

Table II.15.2, on the following page, presents the population of Park County by age and gender from the 2010 Census and 2015 current census estimates. The 2010 Census count showed a total of 14,021 males, who accounted for 49.7 percent of the population, and the remaining 50.3 percent, or 14,184 persons, were female. In 2015, the number of males rose to 14,511 persons, and accounted for 49.6 percent of the population, with the remaining 50.4 percent, or 14,717 persons being female.

At the time of the 2010 Census, there were 942 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 8.7 percent, as shown in Table II.15.3, below.

Table II.15.3 Group Quarters Population Park County 2000 SF1 and 2010 Census Data

Group Quarters Population	867	942	8.7%

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

¹⁴² In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.15.4, below, shows data on household type by tenure in the 2015 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 7,783 family households, of which 6,453 housed married couple families and 1,330 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 342 families, or a female householder with no husband present, of which there were 988 families. There were also an estimated 4,039 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Park County was 65.8 percent, which compared to the statewide rate of 64.9 percent. Of the family households in Park County, 82.9 percent were married households, which compared to 79.7 percent in the State of Wyoming.

Family Type	Park County		State of Wyoming	
	Park County	% of Total	State of Wyoming	% of Total
Family households	7,783	65.8%	147,229	64.9%
Married-couple family	6,453	82.9%	117,355	79.7%

Table II.15.5, on the following page, displays the 2015 5-year ACS census data for household type by household size. In 2015, there were 4,405 two-person family households, 1,540 three-person family households and 1,022 four-person family households. One-person non-family households made up 84.7 percent of all non-family households or an estimated 3,421 households. Park County’s two persons households made up 42.2 percent of total housing units and four person households made up an additional 8.6 percent, which compares to 38.2 and 11.3 percent, respectively, for the State of Wyoming.

The 2015 5-year ACS census estimates also provided information on tenure by household size. According to the 2014 ACS estimates, of the 4,987 two-person households, 4,120 were owner-occupied and 867 were renter-occupied. Of the 1,022 four-person households, 662 were owner-occupied and 360 were renter-occupied. Further household size data by tenure are presented in Table II.15.6, below.

Poverty statistics were also reported in the 2015 5-year ACS estimates, and these data are displayed in Table II.15.11, below. In total, the poverty rate in Park County was 7 percent, which compared to a statewide poverty rate of 11 percent in Wyoming. The male population in Park County had a poverty rate of 4 percent and the female population had a poverty rate of 11 percent. There were 29 males and 137 females in poverty under the age of 5. Overall, 8.2 percent of persons in poverty in Park County were under the age of five, which compared to 12.0 percent statewide. The elderly population, comprised of individuals 65 years of older, had 250 individuals with incomes below the poverty level which represented 12.4 percent of the total population in poverty. In the State of Wyoming there were 5,008 individuals with incomes below the poverty level which represented 7.7 percent of the total Wyoming population in poverty.

Table II.15.12, below, presents the breakdown of households by unit type and tenure. Between 2010 and 2015, Park County saw an average of 7,542 owner-occupied single-family units compared to 1,719 single-family rental units. In Park County, single-family units comprised 78.3 percent of all households compared with 71.8 percent statewide. Park County had a total of 442 apartment rental units and total apartment units accounted for 4.2 percent of all households. In the State of Wyoming, apartment units accounted for 8.7 percent of total households. There were also an estimated 1,166 mobile homes in Park County, which comprised 9.9 percent of all occupied housing units and compared to 12.9 statewide.

Table II. 15.13, on the following page, shows the number of households by year of construction. As shown, 8.8 percent, or 1,046 units, were built in 1939 or earlier in the county, and another 965 percent were built between 1940 and 1949. The number of households built between 2000 and 2009 was 1,802, which accounted for 15.2 percent of all households, and an additional 343 households, or 2.9 percent, were built in 2010 or later. These figures compare to 6,389 households, or 2.8 percent, that were built from 2010 or later statewide.

The age of a structure influences its value. As shown in Table II.15.16, at right, structures built in 1939 or earlier had a median value of \$180,300, while structures built between 1950 and 1959 had a median value of \$188,300 and those built between 1990 to 1999 had a median value of \$265,500. The newest structures tended to have the highest values and those built between 2010 and 2013 had a median value of \$236,800. The total average median value in Park County was \$221,300, which compared to \$194,800 in the State of Wyoming.

Table II.15.16		
Median Value by Year Structure Built		
Park County		
2010-2015 5-Year ACS Data		
Year Built	Park County	State of Wyoming
1939 or earlier	180,300	156,400
1940 to 1949	157,100	145,000
1950 to 1959	188,300	159,900
1960 to 1969	178,800	182,000

Total	221,300	194,800

Household mortgage status is reported in Table II.15.17, on the following page. In Park County, households with a mortgage accounted for 55.4 percent of all households or 4,716 housing units, and the remaining 44.6 percent or 3,798 units had no mortgage. Of those units with a mortgage, 606 had either a second mortgage or home

equity loan, 0 had both a second mortgage and home equity loan, and 4,110 or 87.2 percent had no second mortgage or no home equity loan.

Table II.15.17 Mortgage Status Park County 2010-2015 5-Year ACS Data				
Mortgage Status	Park County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	4,716	55.4%	92,545	59.1%
With either a second mortgage or home equity loan, but not both	606	12.8%	10,910	11.8%

Economics

The HUD estimated MFI for Park County was \$66,500 in 2016. This compares to Wyoming’s MFI of \$73,300. Diagram II.15.1, below, illustrates the estimated MFI for 2000 through 2016.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Park County’s labor force, defined as the number of persons working or actively seeking work, increased by 97 persons, from 15,778 in 2014 to 15,875 in 2015. Employment increased by 137 persons;

unemployment decreased by 40 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 4.5 percent in 2014 to 4.2 in 2015, as shown below in Diagram II.15.2.

The BLS produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Data from this series are from the period of January 2005 through June 2016 and are presented in Table II.15.20, below, with the 2016 information considered preliminary (p). As shown therein, total annual employment stood at 13,913 persons in 2015; this figure was higher than the 2014 average by 83 jobs. In June total preliminary monthly employment was estimated to be 15,763 jobs.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. The BLS QCEW data indicated average weekly wages were \$748 in 2014. In 2015, average weekly wages saw an increase of 1.34 over the prior year, rising to \$758. The most recent preliminary estimates show average weekly wages were 726 in the second quarter on 2016. These data are shown in Table II.15.21, below.

Table II.15.21 Average Weekly Wages Park County BLS QCEW Data, 2001–2016(p)						
Year	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Annual	% Change

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2015, the most recent year for which data are available, Park County recorded 21,439 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$1,423,161,000, and real per capita income was \$48,692 in 2015. This compares to a statewide average real per capita income of \$56,081. The average earnings per job in the county was \$42,348 in 2015, while Wyoming average earnings per job was \$53,875. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, real average apartment rent in Park County decreased from \$599 in second quarter 2015 to \$592 in second quarter 2016, or by 1.1 percent. Over the same period, rents for detached single-family homes decreased by 4.2 percent and mobile homes on a lot decreased by 3.2 percent.

Park County rental prices experienced average annualized increases of 0.3 percent for apartments, 0.4 percent for houses, 1.1 percent for mobile homes plus a lot, and 0.1 percent for mobile home lots since fourth quarter 1986 to second quarter 2015. These figures compare to state average annualized increases in rental prices of 0.9 percent for apartments, 1.3 percent for houses, 1.1 percent for mobile homes plus a lot, and 0.9 percent for mobile home lots over the same period. Table II.15.23, at right, presents the Park County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Park County increased from 107 authorizations in 2014 to 137 in 2015.

The real value of single-family building permits increased from \$232,007 in 2014 to \$255,971 in 2015. This compares to an increase in permit value statewide, with values rising from \$298,797 in 2014 to \$348,576 in 2015. Additional details are given in Table II.15.24, below.

2015	137	2	4	.	143	256.0	.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2015, the average sales price in Park County was \$247,169. This represented a 3.5 percent increase from the previous year. In contrast, Wyoming’s average was \$275,611, an increase of 4.6 percent over the previous year. A comparison of average sales prices between 2000 and 2015 is displayed in Table II.15.25, on the following page.

Table II.15.25 Average Sales Prices Park County vs. Wyoming DOR Data, 2000–2015				
Year	Park County Average Price (\$)	Park County Annual % Change	Wyoming Average Price	Wyoming Annual % Change
2000	113,178	.	131,207	.
2001	119,233	5.35	128,771	-1.86

2015	247,169	3.5	275,611	4.6

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2016. During December 2016, a total of 94 surveys were completed by property managers in Park County. Of the 1,248 rental units surveyed, 92 were vacant, indicating a vacancy rate of 7.4 percent, as shown in Table II.15.26, at right. This rate compares to a 6.9 percent vacancy rate one year ago and a statewide December 2016 vacancy rate of 11.1 percent.

Diagram II.15.3, on the following page, shows the historical vacancy rate for Park County and Wyoming. As can be seen, the vacancy rate in Park County was similar to the statewide vacancy rate until late 2008, when it dropped below the statewide rate, but inched up in 2015. The most recent 2016 estimate saw the vacancy rate increase, but remain below the statewide average.

Table II.15.26 Total Units, Vacant Units, and Vacancy Rate Park County RVS Data, June 2001– December 2016				
Year	Sample	Total Units	Vacant Units	Vacancy Rate

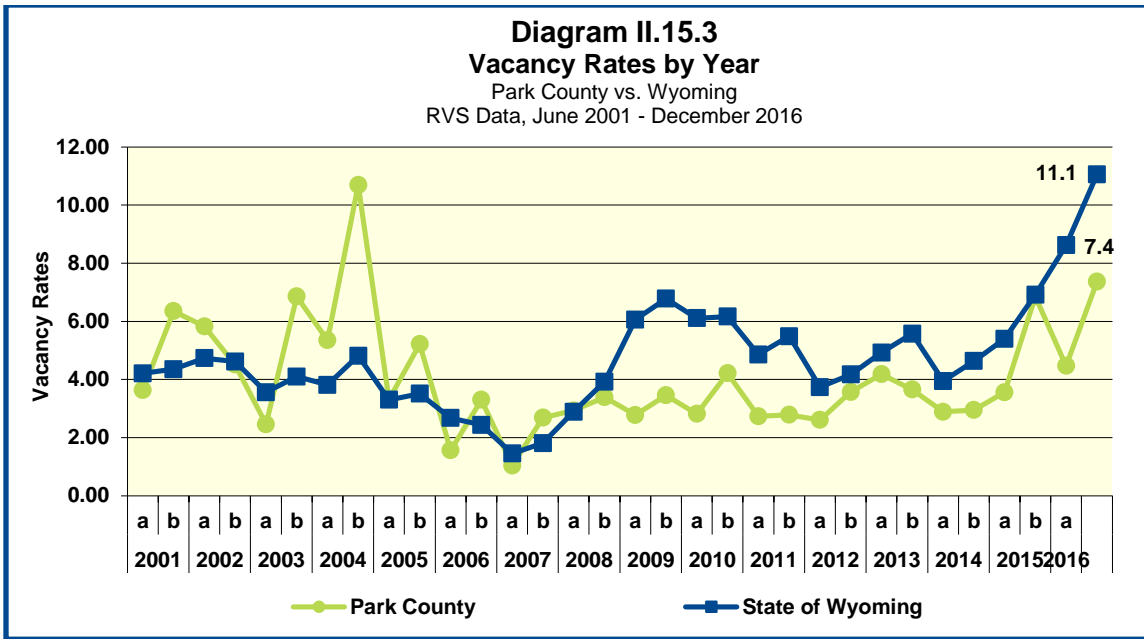

Diagram II.15.4, below, shows the average rent of single-family and apartment units in Park County. In 2016, average rents for single-family units decreased to \$868 and average rents for apartments fell to \$661.

Table II.15.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 131 single family units in Park County, with 3 of them available. This translates into a vacancy rate of 2.3 percent in Park County, which compares to a single family vacancy rate of 6.6 percent for the State of Wyoming. There were 628 apartment units reported in the survey, with 34 of them available, which resulted in a vacancy rate of 5.4 percent. This compares to a statewide vacancy rate of 9.8 percent for apartment units across the state.

Table II.15.27			
Rental Vacancy Survey by Type			
Park County			
RVS Data, December 2016			
Place	Total Units	Vacant Units	Vacancy Rate
Single Family	131	3	2.3%
Duplex units	59	7	11.9%
Apartments	628	34	5.4%
Mobile Homes	117	3	2.6%
“Other” Units	17	3	17.6%
Don't Know	296	42	14.2%
Total	1,248	92	7.4%

Table II.15.28 below reports units by number of bedrooms. Two bedroom units were the most common type of reported single family unit, with 51 units. The most common apartment units were two bedroom units, with 279 units. Additional details of unit types by bedrooms are reported below.

Table II.15.28

Average market-rate rents by unit type are shown in Table II.15.31, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.15.31						
Average Market Rate Rents by Number of Bedrooms

Total	628	34	5.4%

Table II.15.34, below, shows the condition of rental units by unit type for Park County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details by unit type and condition are displayed below.

Table II.15.34 Condition by Unit Type Park County RVS Data, December 2016							
Conditions	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	“Other” Units	Don’t Know	Total
Poor						.	
Fair	9	0	45	19	0	.	73
Average	23	0	16	2	0	.	41
Good	66	24	313	96	9	.	508

Total	33

Table II.15.38, below, shows the most common answers from the 2016 calendar year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Park County had a total of 25 respondents, with an average persons per household of 3.0 people. Of new residents to Park County, 58.3 percent were married and the most common age group arriving in the state was 35 to 44 years old. Most new residents moved for a new job.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 40.0 percent of respondents owning thier residence. The average mortgage payment in Park County was \$920 and the average rent was \$1,088. When asked if they were satisfied with their current housing, 76.0 percent said they were satisfied with thier current housing.

Table II.15.38 Most Replied Response Park County HNA Survey: Calendar Year 2016	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	25
Number of persons in household (Average)	3.0
Current age	35 to 44 years old (30.4%)
Marital status	Married (58.3%)
Primary reason for moving to Wyoming	New job (28.0%)
In which industry are you primarily employed	Retired (16.0%)
Highest education level completed	Graduate Degree, Ph.D. or other Advanced Degree (28.0%)
Total household income from all sources	\$50,000 to \$74,999 dollars (27.3%)
Current Housing Characteristics	
Current Residence	Single family home (80.0%)
Do you own or rent	Own (40.0%)
How many bedrooms (Average)	3.2
How many full bathrooms (Average)	1.9
Average mortgage payment	\$920
Average rental payment	\$1,088
Are you satisfied with your current housing	Satisfied with current housing (76.0%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Other (60.0%)
Are you seeking to change your housing situation	Seeking different housing (80.0%)
What type of unit are you seeking	Single family home (100.0%)
Type of tenure seeking	Seeking to buy (50.0%)
If own, do you plan on building or buying	Build a new unit (33.3%)
Expected buying price	\$150,000 to \$199,999 dollars (100.0%)
Expected building price	\$200,000 to \$249,999 dollars (100.0%)

For residents who are unsatisfied with their current housing, 60.0 percent were unsatisfied because of some other reason not listed in the survey. When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 50.0 percent wanted to buy and 25.0 wanted to rent their next residence. Most residents wishing to buy a house anticipated spending \$150,000 to \$199,999 dollars if they were buying an existing unit, and \$200,000 to \$249,999 dollars if anticipated building a new unit. Additional survey data are presented in **Volume II. Technical Appendix.**¹⁴³

¹⁴³ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2015 5-year ACS data, 170 or 1.4 percent of households in Park County were overcrowded and another 14 or .1 percent of units were severely overcrowded, as shown in Table II.15.39, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.15.39				
Overcrowding and Severe Overcrowding				
Park County				
2010-2015 5-Year ACS Data

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2015 5-year ACS, a total of 316 units or 2.3 percent of all housing units in Park County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.15.40, at right.

Table II.15.40 Housing Units with Incomplete Kitchen Facilities Park County 2010-2015 5-Year ACS Data		
Facilities	Park County	State of Wyoming
Complete Kitchen Facilities	13,507	259,728
Lacking Complete Kitchen Facilities	316	6,902
Total Housing Units	13,823	266,630
Percent Lacking	2.3%	2.6%

At the time of the 2015 ACS, a total of 298 units or 2.2 percent of all housing units in Park County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.15.41, below.

Table II.15.41 Housing Units with Incomplete Plumbing Facilities Park County 2010-2015 5-Year ACS Data		
Facilities	Park County	State of Wyoming
Complete Plumbing Facilities	13,525	260,327
Lacking Complete Plumbing Facilities	298	6,303
Total Households	13,823	266,630
Percent Lacking	2.2%	2.4%

The third type of housing problem reported in the 2015 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Park County, 13.3 percent of households had a cost burden and 6.6 percent of households had a severe cost burden, which compared to 14.3 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 19.3 percent of homeowners with a mortgage in Park County experienced a cost burden and 8.3 percent experienced a severe cost burden, while 9.8 percent of renters had a cost burden and 9.3 percent had a severe cost burden, as seen in Table II.15.42, on the following page.

2017 Housing Needs Forecast

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the 2016 Wyoming Housing Needs Forecast, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 1,984 households in Park County, from 11,885 in 2010 to 13,869 in 2040. Homeowners are expected to increase from 8,422 households in 2010 to 9,841 by 2040. Renters are anticipated to increase from 3,463 households in 2010 to 4,028 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 66 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 30 to 50 percent of MHI is expected to increase by 145 households and by 233 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 82 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 89 households over the period. Table II.15.43, below, provides details of the household forecast by tenure and income.

Table II.15.43
