

PARK COUNTY

Demographics

The Census Bureau's current census estimates indicate that Park County's population increased from 28,205 in 2010 to 29,227 in 2013, or by 3.6 percent. This compares to a statewide population growth of 3.4 percent over the period. The number of people from 25 to 44 years of age increased by 4.1 percent, and the number of people from 55 to 64 years of age increased by 4.9 percent. The white population increased by 1.8 percent, while the black population increased by 634.5 percent. The Hispanic population increased from 1,365 to 1,689 people between 2010 and 2013 or by 23.7 percent. These data are presented in Table II.15.1, below.

Table II.15.2, on the following page, presents the population of Park County by age and gender from the 2010 Census and 2013 current census estimates. The 2010 Census count showed a total of 14,021 males, who accounted for 49.7 percent of the population, and the remaining 50.3 percent, or 14,184 persons, were female. In 2013, the number of males rose to 14,507 persons, and accounted for 49.6 percent of the population, with the remaining 50.4 percent, or 14,720 persons being female.

At the time of the 2010 Census, there were 942 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 8.7 percent, as shown in Table II.15.3, below.

Table II.15.3 Group Quarters Population Park County 2000 SF1 and 2010 Census Data

Total	582	648	11.3%
Group Quarters Population	867	942	8.7%

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

¹³⁰ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the census tract level, and considered more robust than the one or three year sample estimates.

Table II.15.4, below, shows data on household type by tenure in the 2013 5-year ACS data. Household type is broken down by family households and non-family households. In 2013, there were an estimated 7,689 family households, of which 6,547 housed married couple families and 1,142 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 245 families, or a female householder with no husband present, of which there were 897 families. There were also an estimated 4,112 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Park County was 65.2 percent, which compared to the statewide rate of 66.0 percent. Of the family households in Park County, 85.1 percent were married households, which compared to 80.3 percent in the State of Wyoming.

Family Type	Park County		State of Wyoming	
	Park County	% of Total	State of Wyoming	% of Total
Family households	7,689	65.2%	147,018	66.0%
Married-couple family	6,547	85.1%	118,096	80.3%

Table II.15.5, on the following page, displays the 2013 5-year ACS census data for household type by household size. In 2013, there were 4,473 two-person family households, 1,375 three-person family households and 1,094 four-person family households. One-person non-family households made up 83.8 percent of all non-family households or an estimated 3,444 households. Park County’s two persons households made up 43.0 percent of total housing units and four person households made up an additional 9.3 percent, which compares to 38.1 and 12.0 percent, respectively, for the State of Wyoming.

Table II.15.9, at right, presents different income statistics for Park County. According to the 2013 ACS data averages, median family income for Park County was \$64,802 compared to the statewide average of \$70,868. Per capita income for Park County, which is calculated by dividing total income by population, was \$27,824, which compared to \$28,902 for the State of Wyoming.

Table II.15.9 Median and Per Capita Income Park County 2009-2013 5-Year ACS Data		
Income Type	Park County	Wyoming
Median Family Income	64,802	70,868
Median Household Income	53,951	57,406
Per Capita Income	27,824	28,902

Table II.15.10, on the following page, shows households by income for Park County and the State of Wyoming. In Park County, there were a total of 964 households or 8.2 percent with incomes under \$15,000 compared to 9.8 percent of households in Wyoming. There were another 2,013 households that had incomes between \$35,000 and \$49,999, which accounted for 17.1 percent of

households and compared to 13.9 percent for the State of Wyoming. Households with incomes of \$100,000 or more accounted for 17.4 percent of total households and numbered 2,048 in Park County.

Poverty statistics were also reported in the 2013 5-year ACS estimates, and these data are displayed in Table II.15.11, below. In total, the poverty rate in Park County was 8.2 percent, which compared to a statewide poverty rate of 11.5 percent in Wyoming. The male population in Park County had a poverty rate of 6.5 percent and the female population had a poverty rate of 9.9 percent. There were 167 males and 143 females in poverty under the age of 5. Overall, 13.7 percent of persons in poverty in Park County were under the age of five, which compared to 13.7 percent statewide. The elderly population, comprised of individuals 65 years of older, had 274 individuals with incomes below the poverty level which represented 12.1 percent of the total population in poverty. In the State of Wyoming there were 4,477 individuals with incomes below the poverty level which represented 7.0 percent of the total Wyoming population in poverty.

Table II.15.12, below, presents the breakdown of households by unit type and tenure. Between 2009 and 2013, Park County saw an average of 7,343 owner-occupied single-family units compared to 1,601 single-family rental units. In Park County, single-family units comprised 75.8 percent of all households compared with 71.8 percent statewide. Park County had a total of 520 apartment rental units and total apartment units accounted for 4.9 percent of all households. In the State of Wyoming, apartment units accounted for 8.1 percent of total households. There were also an estimated 1,466 mobile homes in Park County, which comprised 12.4 percent of all occupied housing units and compared to 13.4 statewide.

Table II. 15.13, on the following page, shows the number of households by year of construction. As shown, 8.3 percent, or 976 units, were built in 1939 or earlier in the county, and another 878 percent were built between 1940 and 1949. The number of households built between 2000 and 2004 was 1,536, which accounted for 13.0 percent of all households, and an additional 310 households, or 2.6 percent, were built in 2005 or later. These figures compare to 2,633 households, or 1.2 percent, that were built from 2005 or later statewide.

The age of a structure influences its value. As shown in Table II.15.16, at right, structures built in 1939 or earlier had a median value of \$171,900, while structures built between 1950 and 1959 had a median value of \$170,100 and those built between 1990 to 1999 had a median value of \$262,300. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$316,900 and \$147,600, respectively. The total average median value in Park County was \$212,100, which compared to \$185,900 in the State of Wyoming.

Table II.15.16		
Median Value by Year Structure Built		
Park County		
2009-2013 5-Year ACS Data		
Year Built	Park County	State of Wyoming
1939 or earlier	171,900	154,300
1940 to 1949	141,800	136,700
1950 to 1959	170,100	156,800
1960 to 1969	187,900	176,000

Total	212,100	185,900

Household mortgage status is reported in Table II.15.17, below. In Park County, households with a mortgage accounted for 56.0 percent of all households or 4,760 housing units, and the remaining 44.0 percent or 3,743 units had no mortgage. Of those units with a mortgage, 647 had either a second mortgage or home equity loan, 0 had both a second mortgage and home equity loan, and 4,113 or 86.4 percent had no second mortgage or no home equity loan.

Table II.15.17 Mortgage Status Park County 2009-2013 5-Year ACS Data				
Mortgage Status	Park County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	4,760	56.0%	93,495	59.9%
With either a second mortgage or home equity loan, but not both	647	13.6%	13,352	14.3%

Economics

The HUD estimated MFI for Park County was \$63,500 in 2014. This compares to Wyoming’s MFI of \$71,400. Diagram II.15.1, below, illustrates the estimated MFI for 2000 through 2014.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Park County’s labor force, defined as the number of persons working or actively seeking work, decreased by 366 persons, from 15,700 in 2012 to 15,334 in 2013. Employment decreased by 245 persons; unemployment decreased by 121 persons; and the unemployment rate, the number of unemployed

persons as a percentage of the labor force, decreased from 5.8 percent in 2012 to 5.1 in 2013, as shown below in Diagram II.15.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.15.20, below, annual total monthly employment decreased by 1.93 percent between 2012 and 2013, from a total of 13,981 to 13,711 workers. Preliminary estimates shows employment increased to 15,563 persons in June 2014.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2013, the most recent year for which data are available, Park County recorded 20,844 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$1,532,256,000, and real per capita income was \$52,426 in 2013. This compares to a statewide average real per capita income of \$52,826. The average earnings per job

in the county was \$41,945 in 2013, while Wyoming average earnings per job was \$52,420. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, average apartment rent in Park County increased from \$543 in second quarter 2013 to \$569 in second quarter 2014, or by 4.8 percent. Over the same period, rents for detached single-family homes increased by 2.2 percent, mobile homes on a lot increased by 9.9 percent and 6.3 percent for mobile home lots.

Park County rental prices experienced average annualized increases of 2.5 percent for apartments, 2.8 percent for houses, 3.4 percent for mobile homes plus a lot, and 2.1 percent for mobile home lots since fourth quarter 1986 to second quarter 2014. These figures compare to state average annualized increases in rental prices of 3.3 percent for apartments, 3.8 percent for houses, 3.5 percent for mobile homes plus a lot, and 3.1 percent for mobile home lots over the same period. Table II.15.23, at right, presents the Park County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Park County decreased from 104 authorized units in 2012 to 98 in 2013. Total residential authorizations decreased from 124 units in 2011 to 124 in 2012.

The real value of single-family building permits increased from \$203,455 in 2012 to \$229,180 in 2013. The value over the past decade, in real 2013 dollars, fluctuated from a high of \$229,180 in 2013 to a low of \$171,579 in 2004. These figures compare to the state average high of \$289,650 in 2013 and low of \$187,810 in 2003. Additional details are given in Table II.15.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2013, the average sales price in Park County was \$231,080. This represented a 8.0 percent increase from the previous year. In contrast, Wyoming’s average was \$281,345, an increase of 5.6 percent over the previous year. A comparison of average sales prices between 2000 and 2013 is displayed in Table II.15.25, on the following page.

Year	Park County Average Price (\$)	Park County Annual % Change	Wyoming Average Price	Wyoming Annual % Change
2000	113,178	.	131,207	.
2001	119,233	5.35	128,771	-1.86

2013	231,080	8.0	281,345	5.6

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2014.¹³¹ During December 2014, a total of 106 surveys were completed by property managers in Park County. Of the 1,489 rental units surveyed, 43 were vacant, indicating a vacancy rate of 2.9 percent, as shown in Table II.15.26, below. This rate compares to a 4.2 percent vacancy rate one year ago and a statewide December 2014 vacancy rate of 4.6 percent.

Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	17	687	25	3.6%
2001b	11	378	24	6.4%
2002a	11	429	25	5.8%
2002b	10	399	18	4.5%
2003a	15	732	18	2.5%
2003b	34	875	60	6.9%
2004a	34	1,047	56	5.4%

2014b	92	1,627	48	3.0

¹³¹ Those signified as a in the “year” column of Table II.15.10 are conducted in June/July of each year. Those signified as b are conducted each November/December.

Diagram II.15.3, below, shows the historical vacancy rate for Park County and Wyoming. As can be seen, the vacancy rate in Park County was similar to the statewide vacancy rate until late 2008, when it dropped below the statewide rate, but inched up in 2014.

Diagram II.15.4, below, shows the average rent of single-family and apartment units in Park County. In 2014, average rents for single-family units decreased to \$789 and average rents for apartments decreased to \$665.

Table II.15.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 414 single family units in Park County, with 12 of them available. This translates into a vacancy rate of 2.9 percent in Park County, which compares to a single family vacancy rate of 3.0 percent for the State of Wyoming. There were 654 apartment units reported in the survey, with 11 of them available, which resulted in a vacancy rate of 1.7 percent. This compares to a statewide vacancy rate of 3.9 percent for apartment units across the state.

Place	Total Units	Vacant Units	Vacancy Rate
Single Family	414	12	2.9%
Duplex units	75	2	2.7%
Apartments	654	11	1.7%
Mobile Homes	164	2	1.2%
"Other" Units	2	0	.0%
Don't Know	318	21	6.6%
Total	1,627	48	3.0%

Table II.15.28 below reports units by bedroom size. Two bedroom units were the most common type of reported single family unit, with 62 units. The most common apartment units were two bedroom units, with 172 units. Additional details of unit types by bedrooms are reported below.

Number of Bedrooms	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	"Other" Units	Don't Know	Total
Efficiency	1	0	37	5	0	.	43
One	33	10	83	2	0	.	128
Two	62	33	172	78	2	.	347
Three	46	9	19	70	0	.	144
Four	17	2	1	3	0	.	23

Total	414	75	654	164	2	318	1,627

Average market-rate rents by unit type are shown in Table II.15.29, on the following page. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.15.29						
Average Market Rate Rents by Bedroom Size

Table II.15.33, below, shows the condition of rental units by unit type for Park County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details by unit type and condition are displayed below.

Table II.15.33 Condition by Unit Type Park County RVS Data, December 2014

Respondents were also asked if they would like to own or manage additional units and if so, which type of units would they prefer. As can be seen in Table II.15.37, on the following page, respondents in Park County said they would prefer 77 more single family units, 188 more apartment units, and 19 units of all types. In total, respondents indicated they wished to own or manage an additional 342 units.

Table, II.15.38, on the following page shows the most common answers from the 2014 calendar year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Park County had a total of 107 respondents, with an average persons per household of 3.6 people. Of new residents to Park County, 56.2 percent were married and the most common age group arriving in the state was 55 to 64 years old. Most new residents moved for reasons other than those given in the survey.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 50.5 percent of respondents renting their residence. The average mortgage payment in Park County was \$794 and the average rent was \$618. When asked if they were satisfied with their current housing, 82.2 percent said they were satisfied with thier current housing.

Table II.15.38 Most Replied Response Park County HNA Survey: Calendar Year 2014	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	107
Number of persons in household (Average)	3.6
Current age	55 to 64 years old (22.6%)
Marital status	Married (56.2%)
Primary reason for moving to Wyoming	Other reason (31.8%)
In which industry are you primarily employed	Retired (24.3%)
Highest education level completed	Some College (25.2%)
Total household income from all sources	\$50,000 to \$74,999 dollars (30.4%)
Current Housing Characteristics	
Current Residence	Single family home (72.9%)
Do you own or rent	Rent (50.5%)
How many bedrooms (Average)	2.9
How many full bathrooms (Average)	1.8
Average mortgage payment	\$794
Average rental payment	\$618
Are you satisfied with your current housing	Satisfied with current housing (82.2%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Housing unit is too small (42.9%)
Are you seeking to change your housing situation	Not seeking different housing (54.5%)
What type of unit are you seeking	Single family home (100.0%)
Type of tenure seeking	Seeking to buy (80.0%)
If own, do you plan on building or buying	Buy an existing unit (75.0%)
Expected buying price	\$300,000 to \$349,999 dollars (100.0%)
Expected building price	Less than \$50,000 dollars (33.3%)
Expected rental price	\$501 to \$600 dollars (100.0%)

For residents who are unsatisfied with their current housing, 42.9 percent were unsatisfied because the housing unit is too small. When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 80.0 percent wanted to buy and 10.0 wanted to rent their next residence. Most residents wishing to buy a house anticipated spending \$300,000 to \$349,999 dollars if they were buying an existing unit, and Less than \$50,000 dollars if anticipated building a new unit. Of those respondents who wished to rent, the most common response, 100.0 percent of respondents, anticipated spending \$501 to \$600 dollars. Additional survey data are presented in **Volume II. Technical Appendix**¹³².

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

¹³² Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2013 5-year ACS data, 234 or 2.0 percent of households in Park County were overcrowded and another 0 or .0 percent of units were severely overcrowded, as shown in Table II.15.39, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.15.39				
Overcrowding and Severe Overcrowding				
Park County				
2009-2013 5-Year ACS Data

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2013 5-year ACS, a total of 374 units or 2.7 percent of all housing units in Park County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.15.40, at right.

Table II.15.40 Housing Units with Incomplete Kitchen Facilities Park County 2009-2013 5-Year ACS Data		
Facilities	Park County	State of Wyoming
Complete Kitchen Facilities	13,275	256,276
Lacking Complete Kitchen Facilities	374	6,764
Total Housing Units	13,649	263,040
Percent Lacking	2.7%	2.6%

At the time of the 2013 ACS, a total of 307 units or 2.2 percent of all housing units in Park County were lacking complete plumbing facilities. This compared to 2.0 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.15.41, below.

Table II.15.41 Housing Units with Incomplete Plumbing Facilities Park County 2009-2013 5-Year ACS Data		
Facilities	Park County	State of Wyoming
Complete Plumbing Facilities	13,342	257,728
Lacking Complete Plumbing Facilities	307	5,312
Total Households	13,649	263,040
Percent Lacking	2.2%	2.0%

The third type of housing problem reported in the 2013 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Park County, 14.3 percent of households had a cost burden and 8.3 percent of households had a severe cost burden, which compared to 14.3 percent with a cost burden and 9.9 percent with a severe cost burden in the State of Wyoming. Roughly 22.5 percent of homeowners with a mortgage in Park County experienced a cost burden and 13.1 percent experienced a severe cost burden, while 9.3 percent of renters had a cost burden and 6.3 percent had a severe cost burden, as seen in Table II.15.42, on the following page.

Table II.15.42 Cost Burden and Severe Cost Burden by Tenure Park County 2009-2013 5-Year ACS Data

2015 Housing Needs Forecast

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the *2015 Wyoming Housing Needs Forecast*, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 2,925 households in Park County, from 11,885 in 2010 to 14,810 in 2040. Homeowners are expected to increase from 8,422 households in 2010 to 10,490 by 2040. Renters are anticipated to increase from 3,463 households in 2010 to 4,320 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 156 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 30 to 50 percent of MHI is expected to increase by 244 households and by 332 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 115 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 97 households over the period. Table II.1.43, below, provides details of the household forecast by tenure and income.
