

SHERIDAN COUNTY

Demographics

The Census Bureau's intercensal estimates indicate that Sheridan County's population increased from 29,116 in 2010 to 29,596 in 2012, or by 1.6 percent. This compares to a statewide population growth of 2.3 percent over the period. The number of people from 25 to 44 years of age increased by 1.8 percent, and the number of people from 55 to 64 years of age increased by 6.9 percent. The white population increased by 0.9 percent, while the black population increased by 168.8 percent. The Hispanic population increased from 1,013 to 1,216 people between 2010 and 2012 or by 20.0 percent. These data are presented in Table II.17.1, below.

Table II.17.2, on the following page, presents the population of Sheridan County by age and gender from the 2000 and 2010 census counts. The 2010 census count showed a total of 14,565 males, who accounted for 50 percent of the population, and the remaining 50 percent, or 14,551 persons, were female. In 2012 the number of females increased to 14,841 persons, which accounted for 50.1 percent of the population while the remaining 49.9 percent, or 14,755 persons were male.

At the time of the 2010 Census, there were 1,009 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 41.1 percent, as shown in Table II.17.3, below.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

¹²⁹ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.17.4, below, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 7,603 family households, of which 6,181 housed married couple families and 1,422 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 538 families, or a female householder with no husband present, of which there were 884 families. There were also an estimated 4,665 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Sheridan County was 62.0 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Sheridan County, 81.3 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Family Type	Sheridan County		State of Wyoming	
	Sheridan County	% of Total	State of Wyoming	% of Total

Table II.17.5, on the following page, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 3,968 two-person family households, 1,659 three-person family households and 1,355 four-person family households. One-person non-family households made up 81.7 percent of all non-family households or an estimated 3,811 households. Sheridan County's two persons households made up 38.9 percent of total housing units and four person households made up an additional 11.4 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

The age of a structure influences its value. As shown in Table II.17.16, at right, structures built in 1939 or earlier had a median value of \$193,300, while structures built between 1950 and 1959 had a median value of \$196,100 and those built between 1990 to 1999 had a median value of \$351,100. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$239,200 and \$328,200, respectively. The total average median value in Sheridan County was \$224,900, which compared to \$181,900 in the State of Wyoming.

Table II.17.16		
Median Value by Year Structure Built		
Sheridan County		
2007-2011 Five-Year ACS Data		
Year Built	Sheridan County	State of Wyoming
1939 or earlier	193,300	148,000
1940 to 1949	165,800	130,200
1950 to 1959	196,100	155,800
1960 to 1969	197,400	171,100
1970 to 1979	235,100	180,100

Economics

The HUD estimated MFI for Sheridan County was \$65,900 in 2013.¹³⁰ This compares to Wyoming’s MFI of \$70,000. Diagram II.17.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Sheridan County’s labor force, defined as the number of persons working or actively seeking work, decreased by 50 persons, from 16,286 in 2011 to 16,236 in 2012. Employment increased by 107 persons; unemployment decreased by 157 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 7.1 percent in 2011 to 6.1 percent in 2012, as shown on the following page in Diagram II.17.2.

¹³⁰ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of covered workers who worked during, or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.17.20, below, annual total monthly employment increased by 0.34 percent between 2011 and 2012, from a total of 12,813 to 12,856 workers.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs. For 2011, the most recent year for which data are available, Sheridan County recorded 19,782 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$1,511,642,000 and real per capita income was \$51,700 in 2011. Average earnings per job in the county was \$41,381 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming cost of living index, average apartment rent in Sheridan County decreased from \$688 in fourth quarter 2011 to \$633 in fourth quarter 2012, or by 8.0 percent. Detached single-family home rents decreased by 3.8 percent, and rents for mobile homes on a lot increased by 5.2 percent.

Sheridan County rental prices experienced average annualized increases of 3.3 percent for apartments, 4.1 percent for houses, and 2.7 percent for mobile homes plus a lot since fourth quarter 1986 through fourth quarter 2012. These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot, and 3.0 percent for mobile home lots over the same period. Table II.17.23, at right, presents the Sheridan County data for each rental type.¹³¹

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Sheridan County increased from 101 authorized units in 2011 to 138 in 2012. Total residential authorizations decreased from 158 units in 2011 to 146 in 2011.

The real value of single-family building permits decreased from \$190,040 in 2011 to \$143,941 in 2011. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$209,600 in

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Sheridan County was \$223,988. This represented a decrease of 1.7 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406, an increase of 10.4 percent over the previous year. A comparison of average sales prices between 2000 and 2012 is displayed in Table II.17.25, on the following page.

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2013.¹³² During June 2013, a total of 110 surveys were completed by property managers in Sheridan County. Of the 2,001 rental units surveyed, 95 were vacant, indicating a vacancy rate of 4.75 percent, as shown in Table II.17.26, below. This rate compares to a 4.75 percent vacancy rate one year ago and a statewide June 2013 vacancy rate of 5.37 percent.

Table II.17.26

¹³²Those signified as a in the “year” column of Table II.17.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.17.3, on the following page, shows the historical vacancy rate for Sheridan County and Wyoming. As can be seen, the vacancy rate in Sheridan County has trended roughly the same over the 13 year period.

Diagram II.17.4, below, shows the average rent of single-family and apartment units in Sheridan County. In the first half of 2013, average rents for single-family units rose to \$939 and average rents for apartments increased to \$766.

Table II.17.27 below, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 195 single family units in Sheridan County, with 5 of them available. This translates into a single family vacancy rate of 2.6% in Sheridan County, which compares to a rate of 4.04% for the State of Wyoming. There were 1,213 apartment units reported in the survey, with 70 of them available, which resulted in a vacancy rate of 5.8%. This compares to a statewide vacancy rate of 5.91% for apartment units across the state.

Table II.17.27			
Rental Vacancy Survey by Type			
Sheridan County			
RVS Data, First Survey 2013			
Place	Total Units	Vacant Units	Vacancy Rate
Single Family	195	5	2.6%

Four	\$1,200	\$2,000	\$770	\$800	\$770	\$1,151
Five	\$1,683	\$1,683
Total	\$939	\$852	\$766	\$638	\$1,053	\$855

Table II.17.30, below, shows vacancy rates for single family units by average rental rates for Sheridan County. Single family units with the lowest vacancy rate had an average rent of above 1,500 dollars, indicating there may be more of a demand for units within this rental range.

Average Rents	Single Family Units	Available Single Family Units	Vacancy Rate
Less Than \$500	.	.	.
\$500 to \$1,000	117	1	.9%
\$1,000 to \$1,500	40	2	5.0%
Above \$1,500	14	0	0.0%
Missing	24	2	8.3%
Total	195	5	2.6%

The average rent and availability of apartment units is displayed in Table II.17.31, below. The lowest vacancy rate was seen in apartment units renting for above 1,500 dollars, with a vacancy rate of 0.0 percent.

Average Rents	Apartment Units	Available Apartment Units	Vacancy Rate
Less Than \$500	24	1	4.2%
\$500 to \$1,000	637	38	6.0%
\$1,000 to \$1,500	7	1	14.3%
Above \$1,500	2	0	0.0%
Missing	543	30	5.52%
Total	1,213	70	5.8%

Table II.17.32, on the following page shows the condition of rental units by unit type for Sheridan County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in good condition. Details on the conditions of additional unit types are displayed below.

Table II.17.32							
Condition by Unit Type							
Sheridan County							
RVS Data, First Survey 2013							
Conditions	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	“Other” Units	Don’t Know	Total

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 41 respondents in Sheridan County. Of the incoming persons who were unsatisfied with their current housing, 62.5 percent said they sought to own a home. Of those seeking to own a home, 60.0 percent wished to buy existing units, of which 33.3 percent anticipated spending less than \$99,999, 33.3 percent sought homes between \$100,000 and \$250,000, and 33.3 percent anticipated spending above \$250,000. The remainder of those seeking to own a home, 40.0 percent, wished to build, of which 50.0 percent for between \$100,000 and \$249,999 and 50.0 percent anticipated spending above \$250,000.

Of those persons currently renting or seeking to rent, 100.0 percent anticipated spending between \$475 to \$849. Additional survey data are presented in **Volume II. Technical Appendix.**

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 2,342 loans purchased in Sheridan County between 1979 and 2013, with 53 occurring in fiscal 2013. The average home size over the period was 1,199 square feet and 1,233 square feet in fiscal 2013. For homes receiving a WCDA loan in fiscal 2013, the average year a home was built was 1949. The average household income in fiscal 2013 in nominal terms, without the effects of inflation being taken into consideration, was \$43,677. The average purchase price in fiscal 2013 was \$155,730. In fiscal 2013, 7.5 percent of loans purchased were for new construction, and 37.7 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 150 or 1.2 percent of households in Sheridan County were overcrowded and another 139 or 1.1 percent of units were severely overcrowded, as shown in Table II.17.35, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.17.35				
Overcrowding and Severe Overcrowding				
Sheridan County				
2007-2011 Five-Year ACS Data

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 273 units or 2.0 percent of all housing units in Sheridan County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.17.36, at right.

Table II.17.36		
Housing Units with Incomplete Kitchen Facilities		
Sheridan County		
2007-2011 Five-Year ACS Data		
Facilities	Sheridan County	State of Wyoming
Complete Kitchen Facilities	13,542	251,420
Lacking Complete Kitchen Facilities	273	7,570
Total Housing Units	13,815	258,990
Percent Lacking	2.0%	2.9%

At the time of the 2011 ACS, a total of 173 units or 1.3 percent of all housing units in Sheridan County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.17.37, at right.

Table II.17.37		
Housing Units with Incomplete Plumbing Facilities		
Sheridan County		
2007-2011 Five-Year ACS Data		
Facilities	Sheridan County	State of Wyoming
Complete Plumbing Facilities	13,642	252,719
Lacking Complete Plumbing Facilities	173	6,271
Total Households	13,815	258,990
Percent Lacking	1.3%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30 to 50 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Sheridan County, 13.8 percent of households had a cost burden and 11.6 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 18.9 percent of homeowners with a mortgage in Sheridan County experienced a cost burden and 11.8 percent experienced a severe cost burden, while 15.3 percent of renters had a cost burden and 17.2 percent had a severe cost burden, as shown in Table II.17.38, below.
