

## SUBLETTE COUNTY

### Demographics

The Census Bureau's intercensal estimates indicate that Sublette County's population increased from 10,247 in 2010 to 10,368 in 2012, or by 1.2 percent. This compares to a statewide population growth of 2.3 percent over the period.<sup>133</sup> The number of people from 25 to 44 years of age decreased by 0.4 percent, and the number of people from 55 to 64 years of age increased by 5.7 percent. The white population decreased by 0.4 percent, while the black population increased by 179.5 percent. The Hispanic population increased from 712 to 831 people between 2010 and 2012 or by 16.7 percent. These data are presented in Table II.18.1, below.

Table II.18.2, below, presents the population of Sublette County by age and gender from the 2010 census and 2012 intercensal estimates. The 2010 census count showed a total of 5,550 males, who accounted for 54.2 percent of the population, and the remaining 45.8 percent, or 4,697 persons, were female. In 2012 the number of females increased to 4,746 persons, which accounted for 45.8 percent of the population while the remaining 54.2 percent, or 5,622 persons were male.

<sup>133</sup> On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 550 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 663.9 percent, as shown in Table II.18.3, below.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year

<sup>134</sup> In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.18.4, on the following page, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 2,656 family households, of which 2,273 housed married couple families and 383 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 216 families, or a female householder with no husband present, of which there were 167 families. There were also an estimated 908 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Sublette County was 74.5 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Sublette County, 85.6 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Table II.18.5, on the following page, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 1,094 two-person family households, 598 three-person family households and 565 four-person family households. One-person non-family households made up 83.5 percent of all non-family households or an estimated 758 households. Sublette County’s two persons households made up 34.9 percent of total housing units and four person households made up an additional 15.9 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

Table II.18.13, below, shows the number of households by year of construction. As shown, 4.3 percent, or 154 units, were built in 1939 or earlier in the county, and another 164 were built between 1940 and 1949. The number of households built between 2000 and 2004 was 240, which accounted for 6.7 percent of all households, and an additional 576 households, or 16.2 percent, were built in 2005 or later. These figures compare to 14,269 households, or 6.5 percent, that were built from 2005 or later statewide.

The age of a structure influences its value. As shown in Table II.18.16, at right, structures built in 1939 or earlier had a median value of \$265,200, while structures built between 1950 and 1959 had a median value of \$238,400 and those built between 1990 to 1999 had a median value of \$266,900. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$372,500 and \$336,200, respectively. The total average median value in Sublette County was \$287,100, which compared to \$181,900 in the State of Wyoming.

<b>Table II.18.16</b> <b>Median Value by Year Structure Built</b> Sublette County 2007-2011 Five-Year ACS Data		
Year Built	Sublette County	State of Wyoming
1939 or earlier	265,200	148,000

**Economics**

The HUD estimated MFI for Sublette County was \$86,500 in 2013.<sup>135</sup> This compares to Wyoming’s MFI of \$70,000. Diagram II.18.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Sublette County’s labor force, defined as the number of persons working or actively seeking work, decreased by 388 persons, from 7,727 in 2011 to 7,339 in 2012. Employment decreased by 382 persons; unemployment decreased by 6 persons; and the unemployment rate, the number of

<sup>135</sup> Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

unemployed persons as a percentage of the labor force, increased from 3.6 percent in 2011 to 3.7 in 2012, as shown on the following page in Diagram II.18.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of covered workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.18.20, below, with 2012 information considered preliminary(p), annual total monthly employment decreased by 6.20 percent between 2011 and 2012, from a total of 5,890 to 5,525 workers.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Sublette County recorded 8,632 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$645,904,000, and real per capita income was \$63,661 in 2011. Average earnings per job in the county was \$63,329 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

**Housing**

According to the Wyoming cost of living index, average apartment rent in Sublette County decreased from \$922 in fourth quarter 2011 to \$813 in fourth quarter 2012, or by 11.8 percent. Detached single-family home rents decreased by 17.2 percent.

Sublette County rental prices experienced average annualized increases of 5.1 percent for apartments and 5.1 percent for houses, since second quarter 1998 through fourth quarter 2012.<sup>136</sup> These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot, and 3.0 percent for mobile home lots. Table II.18.23, at right, presents the Sublette County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Sublette County increased from 13 authorized units in 2011 to 26 in 2012. Total residential authorizations increased from 25 units in 2011 to 26 in 2012.

The real value of single-family building permits decreased from \$235,680 in 2011 to \$216,438 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$228,600 in 2009 to a low of \$153,900 in 2005. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity are given in Table II.18.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Sublette County was \$241,938. This represented a decrease of 1.9 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406, an increase of 10.4 percent over the previous year. A comparison of average sales prices between 2000 and 2012 is displayed in Table II.18.25, below.

<b>Table II.18.25</b> <b>Average Sales Prices</b> Sublette County vs. Wyoming DOR Data, 2000–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in June 2013.<sup>137</sup> During June 2013, a total of 28 surveys were completed by property managers in Sublette County. Of the 266 rental units surveyed, 32 were vacant, indicating a vacancy rate of 12.03 percent, as shown in Table II.18.26, below. This compares to a 12.12 percent vacancy rate one year ago and a statewide June 2013 vacancy rate of 5.37 percent.

Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	4	41	2	4.88%
2001b	2	39	.	.

2013a	28	266	32	12.03%

Diagram II.18.3, on the following page, shows the historical vacancy rate for Sublette County and Wyoming. As can be seen, the vacancy rate in Sublette County has been similar to the statewide vacancy rate, trending roughly the same, except for a spike in the first part of 2012 and 2013 over the 13 year period.

<sup>137</sup>Those signified as a in the “year” column of Table II.18.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.18.4, below, shows the average rent of single-family and apartment units in Sublette County. In the first half of 2013, average rents for single-family units rose to \$1,188 and average rents for apartments rose, to \$800.

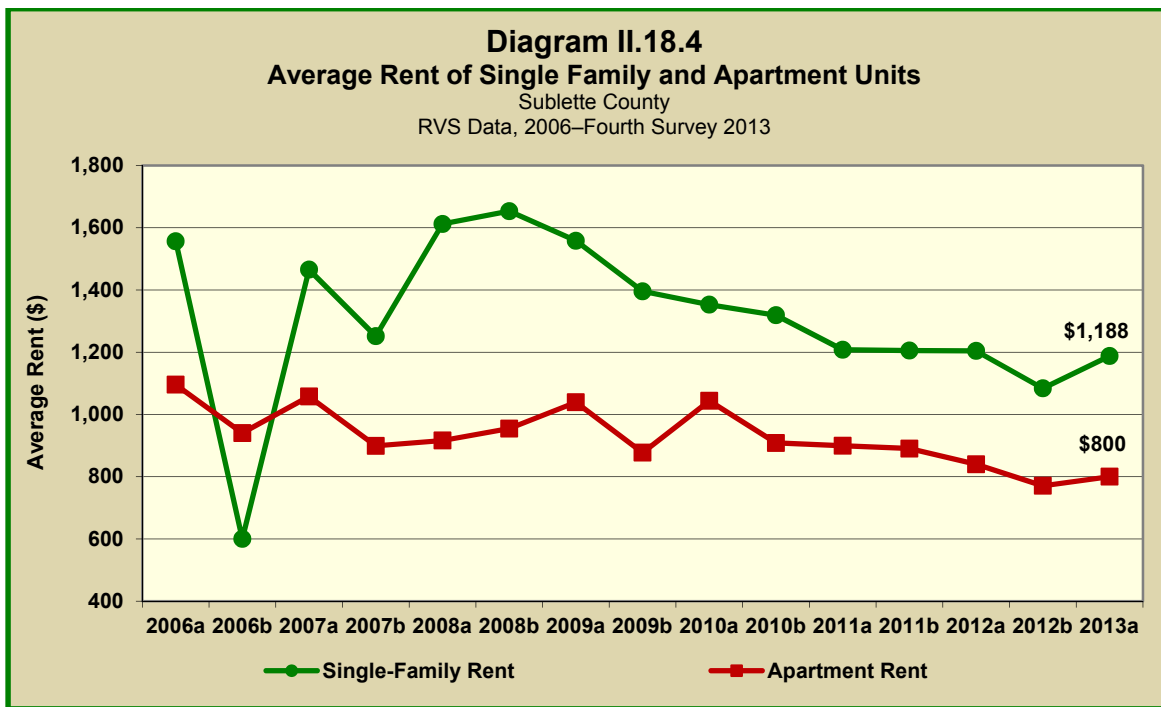

Table II.18.27, on the following page, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 53 single family units in Sublette County, with 4 of them available. This translates into a single family vacancy rate of 7.5%, which compares to rate of 4.04% for the State of Wyoming. There were 20 apartment units reported in the survey, with 18 of them available, which resulted in a vacancy rate of 90.0%. This compares to a statewide vacancy rate of 5.91% for apartment units across the state.

Table II.18.32, below, shows the condition of rental units by unit type for Sublette County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in average condition, with most apartments being in average condition. Details on the conditions of additional unit types are displayed below.

<b>Table II.18.32</b> <b>Condition by Unit Type</b> Sublette County RVS Data, First Survey 2013

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 12 respondents in Sublette County. Of the incoming population who were unsatisfied with their current housing, 100 percent of respondents wished to buy. Of those people who wished to buy, 100 percent anticipated spending between \$100,000 to \$249,999. Additional survey details can be found in the **Volume II. Technical Appendix**.

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 276 loans purchased in Sublette County between 1979 and 2013, with zero occurring in fiscal 2012. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.

**Housing Problems**

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 105 or 2.9 percent of households in Sublette County were overcrowded and another 6 or 0.2 percent of units were severely overcrowded, as shown in Table II.18.35, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

<b>Table II.18.35</b>

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 367 units or 6.6 percent of all housing units in Sublette County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.18.36, at right.

<b>Table II.18.36</b>		
<b>Housing Units with Incomplete Kitchen Facilities</b>		
Sublette County		
2007-2011 Five-Year ACS Data		
<b>Facilities</b>	<b>Sublette County</b>	<b>State of Wyoming</b>

Lacking Complete Kitchen Facilities	367	7,570
<b>Total Housing Units</b>	<b>5,574</b>	<b>258,990</b>
Percent Lacking	6.6%	2.9%

At the time of the 2011 ACS, a total of 412 units or 7.4 percent of all housing units in Sublette County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.18.37, at right.

Percent Lacking	7.4%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30 to 50 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Sublette County, 14.1 percent of households had a cost burden and 5.9 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 19.2 percent of homeowners with a mortgage in Sublette County experienced a cost burden and 9.6 percent experienced a severe cost burden, while 20.1 percent of renters had a cost burden and 4.1 percent had a severe cost burden, as shown in Table II.18.38, on the following page.
