

SUBLETTE COUNTY

Demographics

The Census Bureau's current census estimates indicate that Sublette County's population decreased from 10,247 in 2010 to 9,899 in 2015, or by 3.4 percent. This compares to a statewide population growth of 4.0 percent over the period. The number of people from 25 to 44 years of age decreased by 7.9 percent, and the number of people from 55 to 64 years of age increased by 4.8 percent. The white population decreased by 5.7 percent, while the black population increased by 131.8 percent. The Hispanic population increased from 712 to 753 people between 2010 and 2015 or by 5.8 percent. These data are presented in Table II.18.1, below.

At the time of the 2010 Census, there were 550 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 663.9 percent, as shown in Table II.18.3, below.

Table II.18.3 Group Quarters Population Sublette County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

¹⁵² In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.18.4, below, shows data on household type by tenure in the 2015 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 2,663 family households, of which 2,338 housed married couple families and 325 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 111 families, or a female householder with no husband present, of which there were 214 families. There were also an estimated 960 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Sublette County was 73.5 percent, which compared to the statewide rate of 64.9 percent. Of the family households in Sublette County, 87.8 percent were married households, which compared to 79.7 percent in the State of Wyoming.

The age of a structure influences its value. As shown in Table II.18.16, at right, structures built in 1939 or earlier had a median value of \$219,600, while structures built between 1950 and 1959 had a median value of \$214,200 and those built between 1990 to 1999 had a median value of \$417,400. The newest structures tended to have the highest values and those built between 2010 and 2013 had a median value of \$286,600. The total average median value in Sublette County was \$275,600, which compared to \$194,800 in the State of Wyoming.

Table II.18.16 Median Value by Year Structure Built Sublette County 2010-2015 5-Year ACS Data		
Year Built	Sublette County	State of Wyoming
1939 or earlier	219,600	156,400

Economics

The HUD estimated MFI for Sublette County was \$88,100 in 2016.¹⁵³ This compares to Wyoming’s MFI of \$73,300. Diagram II.18.1, below, illustrates the estimated MFI for 2000 through 2016.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Sublette County’s labor force, defined as the number of persons working or actively seeking work, decreased by 265 persons, from 4,882 in 2014 to 4,617 in 2015. Employment decreased by 292

¹⁵³ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

persons; unemployment increased by 27 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, increased from 4.3 percent in 2014 to 5.1 in 2015, as shown below in Diagram II.18.2.

The BLS produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Data from this series are from the period of January 2005 through June 2016 and are presented in Table II.18.20, below, with the 2016 information considered preliminary (p). As shown therein, total annual employment stood at 4,447 persons in 2015; this figure was lower than the 2014 average by 419 jobs. In June total preliminary monthly employment was estimated to be 4,057 jobs.

Period	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. The BLS QCEW data indicated average weekly wages were \$1,179 in 2014. In 2015, average weekly wages saw a decrease of 6.79 over the prior year, rising to \$1,099. The most recent preliminary estimates show average weekly wages were 1,002 in the second quarter on 2016. These data are shown in Table II.18.21, below.

Table II.18.21 Average Weekly Wages Sublette County BLS QCEW Data, 2001–2016(p)						
Year	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Annual	% Change

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2015, the most recent year for which data are available, State of Wyoming recorded 406,576 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$32,869,550,000, and real per capita income was \$56,081 in 2015. This compares to a statewide average real per capita income of \$56,081. The average earnings per job in the county was \$53,875 in 2015, while Wyoming average earnings per job was \$53,875. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming cost of living index, real average apartment rent in Sublette County decreased from \$840 to \$818 between second quarter of 2015 and 2016. Detached single-family home rents decreased by 0.9 percent to \$1,108 in the second quarter of 2016.

Sublette County rental prices experienced average annualized decreases of 2.2 percent for apartments and 2.0 percent for houses, since fourth quarter 1998 through second quarter 2016.¹⁵⁴ These figures compare to state average annualized increases in rental prices of 0.9 percent for apartments and 1.3 percent for houses. Table II.18.23, at right, presents the Sublette County data for each rental type.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Sublette County increased from 27 authorizations in 2014 to 30 in 2015.

The real value of single-family building permits increased from \$257,717 in 2014 to \$282,025 in 2015. This compares to an increase in permit value statewide, with values rising from \$298,797 in 2014 to \$348,576 in 2015. Additional details are given in Table II.18.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2015, the average sales price in Sublette County was \$244,464. This represented an increase of 4.3 percent from the previous year. In contrast, Wyoming’s weighted average was \$275,611, an increase of 4.6 percent over the previous year. A comparison of average sales prices between 2000 and 2015 is displayed in Table II.18.25, on the following page.

Table II.18.25 Average Sales Prices Sublette County vs. Wyoming DOR Data, 2000–2015

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2016.¹⁵⁵ During December 2016, a total of 21 surveys were completed by property managers in Sublette County. Of the 267 rental units surveyed, 65 were vacant, indicating a vacancy rate of 24.3 percent, as shown in Table II.18.26, at right. This compares to a 20.9 percent vacancy rate one year ago and a statewide December 2016 vacancy rate of 11.1 percent.

Diagram II.18.3, on the following page, shows the historical vacancy rate for Sublette County and Wyoming. As can be seen, the vacancy rate in Sublette County has been similar to the statewide vacancy rate, trending roughly the same, but has been above the statewide rate since June 2012.

Table II.18.26 Total Units, Vacant Units, and Vacancy Rate Sublette County RVS Data, June 2001– December 2016

¹⁵⁵Those signified as a in the “year” column of Table II.18.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.18.4, below, shows the average rent of single-family and apartment units in Sublette County. In 2016, average rents for single-family units rose to \$1,036 and average rents for apartments increased to \$812.

Table II.18.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 34 single family units in Sublette County, with 5 of them available. This translates into a vacancy rate of 14.7 percent in Sublette County, which compares to a single family vacancy rate of 6.6 percent for the State of Wyoming. There were 39 apartment units reported in the survey, with 4 of them available, which resulted in a vacancy rate of 10.3 percent. This compares to a statewide vacancy rate of 9.8 percent for apartment units across the state.

Table II.18.27			
Rental Vacancy Survey by Type			
Sublette County			
RVS Data, December 2016

Average market-rate rents by unit type are shown in Table II.18.31, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.18.31 Average Market Rate Rents by Number of Bedrooms Sublette County RVS Data, December 2016

Table II.18.34, below, shows the condition of rental units by unit type for Sublette County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported below, most single family units were in average condition, with most apartments being in excellent condition. Details by unit type and condition are displayed below.

Table II.18.34 Condition by Unit Type Sublette County RVS Data, December 2016

Table, II.18.38, on the following page, shows the most common answers from the 2016 calendar year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Sublette

County had a total of 8 respondents, with an average persons per household of 2.9 people. Of new residents to Sublette County, 62.5 percent were married and the most common age group arriving in the state was 55 to 64 years old. Most new residents moved for a new job.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 62.5 percent of respondents owning thier residence. The average mortgage payment in Sublette County was \$865 and the average rent was \$967. When asked if they were satisfied with their current housing, 87.5 percent said they were satisfied with thier current housing.

Table II.18.38 Most Replied Response Sublette County HNA Survey: Calendar Year 2016	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	8
Number of persons in household (Average)	2.9
Current age	55 to 64 years old (37.5%)
Marital status	Married (62.5%)
Primary reason for moving to Wyoming	New job (50.0%)
In which industry are you primarily employed	Other (50.0%)
Highest education level completed	Graduate Degree, Ph.D. or other Advanced Degree (37.5%)
Total household income from all sources	\$50,000 to \$74,999 dollars (40.0%)
Current Housing Characteristics	
Current Residence	Single family home (100.0%)
Do you own or rent	Own (62.5%)
How many bedrooms (Average)	3.5
How many full bathrooms (Average)	2.4
Average mortgage payment	\$865
Average rental payment	\$967
Are you satisfied with your current housing	Satisfied with current housing (87.5%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Rent or mortgage is too high (100.0%)
Are you seeking to change your housing situation	Seeking different housing (100.0%)
What type of unit are you seeking	Other (.0%)
Type of tenure seeking	Seeking to rent (100.0%)
Expected rental price	\$601 to \$700 dollars (100.0%)

For residents who are unsatisfied with their current housing, 100.0 percent were unsatisfied because the rent or mortgage is too high. When asked if they preferred to own or rent, 0.0 percent wanted to buy and 100.0 wanted to rent their next residence. Of those respondents who wished to rent, the most common response, 100.0 percent of respondents, anticipated spending \$601 to \$700 dollars. Additional survey data are presented in **Volume II. Technical Appendix.**¹⁵⁶

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2015 5-year ACS

¹⁵⁶ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

data, 46 or 1.3 percent of households in Sublette County were overcrowded and another 0 or 0.0 percent of units were severely overcrowded, as shown in Table II.18.39, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.18.39				
Overcrowding and Severe Overcrowding

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2015 5-year ACS, a total of 196 units or 3.4 percent of all housing units in Sublette County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.18.40, at right.

Table II.18.40		
Housing Units with Incomplete Kitchen Facilities		
Sublette County		
2010-2015 5-Year ACS Data		
Facilities	Sublette County	State of Wyoming
Complete Kitchen Facilities	5,647	259,728
Lacking Complete Kitchen Facilities	196	6,902
Total Housing Units	5,843	266,630
Percent Lacking	3.4%	2.6%

At the time of the 2015 ACS, a total of 173 units or 3.0 percent of all housing units in Sublette County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.18.41, below.

Table II.18.41 Housing Units with Incomplete Plumbing Facilities Sublette County 2010-2015 5-Year ACS Data		
Facilities	Sublette County	State of Wyoming
Complete Plumbing Facilities	5,670	260,327
Lacking Complete Plumbing Facilities	173	6,303
Total Households	5,843	266,630
Percent Lacking	3.0%	2.4%

The third type of housing problem reported in the 2014 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Sublette County, 9.7 percent of households had a cost burden and 5.7 percent of households had a severe cost burden, which compared to 14.3 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 15.3 percent of homeowners with a mortgage in Sublette County experienced a cost burden and 6.3 percent experienced a severe cost burden, while 11.2 percent of renters had a cost burden and 11.2 percent had a severe cost burden, as seen in Table II.18.42, on the following page.

2017 Housing Needs Forecast

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the *2016 Wyoming Housing Needs Forecast*, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 1,562 households in Sublette County, from 3,906 in 2010 to 5,468 in 2040. Homeowners are expected to increase from 2,658 households in 2010 to 3,828 by 2040. Renters are anticipated to increase from 1,248 households in 2010 to 1,640 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 68 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 30 to 50 percent of MHI is expected to increase by 101 households and by 216 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 61 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 72 households over the period. Table II.18.43, below, provides details of the household forecast by tenure and income.
