

UINTA COUNTY

Demographics

The Census Bureau's intercensal estimates indicate that Uinta County's population decreased from 21,118 in 2010 to 21,025 in 2012, or by 0.4 percent. This compares to a statewide population growth of 2.3 percent over the period.¹⁴⁸ The number of people from 25 to 44 years of age decreased by 1.7 percent, and the number of people from 55 to 64 years of age increased by 8.7 percent. The white population decreased by 0.9 percent, while the black population increased by 95.2 percent. The Hispanic population increased from 1,855 to 1,904 people between 2010 and 2012 or by 2.6 percent. These data are presented in Table II.21.1, below.

Table II.21.2, below, presents the population of Uinta County by age and gender from the 2000 and 2010 census counts. The 2010 census count showed a total of 10,662 males, who accounted for 50.5 percent of the population, and the remaining 49.5 percent, or 10,456 persons, were female. In 2012 the number of females decreased to 10,380 persons, which accounted for 49.4 percent of the population while the remaining 50.6 percent, or 10,645 persons were male.

¹⁴⁸ On December 22, 2009, the Census Bureau released a statewide population estimate for 2009, indicating that the population increased to 544,270.

At the time of the 2010 Census, there were 270 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 24.6 percent, as shown in Table II.21.3, below.

Group Quarters	2000 Census	2010 Census	% Change 00-10
Institutionalized			
Correctional Institutions ¹⁴⁹	94	43	-54.3%

Other Noninstitutions	60	140	133.3%
Total	60	140	133.3%
Group Quarters Population	358	270	-24.6%

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 census.

To study these important concepts the Census Bureau conducts the American Community Survey. The Census Bureau quantifies the results as one-, three- and five year rolling averages. The one-year

¹⁴⁹ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

sample only includes responses from the year the survey was implemented and is only applicable to communities of at least 60,000 people. The 3-year American Community Survey creates a rolling average over a three year period for communities of 20,000 or more. The five year American Community Survey creates a rolling average for a five year period and the results are available for much smaller areas. The data presented below are from the five year rolling average.

Table II.21.4, below, shows data on household type by tenure in the 2011 5-year ACS data. Household type is broken down by family households and non-family households. In 2011, there were an estimated 5,226 family households, of which 4,280 housed married couple families and 946 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 247 families, or a female householder with no husband present, of which there were 699 families. There were also an estimated 2,039 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Uinta County was 71.9 percent, which compared to the statewide rate of 66.1 percent. Of the family households in Uinta County, 81.9 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Table II.21.5, on the following page, displays the 2011 Five-year ACS census data for household type by household size. In 2011, there were 2,323 two-person family households, 842 three-person family households and 1,019 four-person family households. One-person non-family households made up 85.7 percent of all non-family households or an estimated 1,747 households. Uinta County’s two persons households made up 35.6 percent of total housing units and four person households made up an additional 14.3 percent, which compares to 38.1 and 12.1 percent, respectively, for the State of Wyoming.

Table II.21.9, at right, presents different income statistics for Uinta County. According to the 2011 ACS data averages, median family income for Uinta County was \$72,909 compared to the statewide average of \$69,058. Per capita income for Uinta County, which is calculated by dividing total income by population, was \$25,660, which compared to \$28,952 for the State of Wyoming.

Table II.21.9 Median and Per Capita Income Uinta County 2007-2011 Five-Year ACS Data		
Income Type	Uinta County	Wyoming
Median Family Income	72,909	69,058
Median Household Income	59,851	56,380
Per Capita Income	25,660	28,952

Table II.21.10, below, shows households by income for Uinta County and the State of Wyoming. In Uinta County, there were a total of 734 households or 10.1 percent with incomes under \$15,000 compared to 9.7 percent of households in Wyoming. There were another 891 households that had incomes between \$35,000 and \$49,999, which accounted for 12.3 percent of households and compared to 14.2 percent for the State of Wyoming. Households with incomes of \$100,000 or more accounted for 23.4 percent of total households and numbered 1,698 in Uinta County.

Poverty statistics were also reported in the 2011 five-year ACS estimates, and these data are displayed in Table II.21.11, below. In total, the poverty rate in Uinta County was 10.7 percent, which compared to a statewide poverty rate of 10.1 percent in Wyoming. The male population in Uinta County had a poverty rate of 9.5 percent and the female population had a poverty rate of 12.0 percent. There were 163 males and 78 females in poverty under the age of 5. Overall, 11.0 percent of persons in poverty in Uinta County were under the age of five, which compared to 13.2 percent statewide. The elderly population, comprised of individuals 65 years of older, had 100 individuals with incomes below the poverty level which represented 4.5 percent of the total population in poverty. In the State of Wyoming there were 4,129 individuals with incomes below the poverty level which represented 7.5 percent of the total Wyoming population in poverty.

Table II.21.12, on the following page, presents the breakdown of households by unit type and tenure. Between 2006 and 2011, Uinta County saw an average of 4,481 owner-occupied single-family units compared to 473 single-family rental units. In Uinta County, single-family units comprised 68.2 percent of all households compared with 71.7 percent statewide. Uinta County had

a total of 547 apartment rental units and total apartment units accounted for 7.9 percent of all households. In the State of Wyoming, apartment units accounted for 7.7 percent of total households. There were also an estimated 1,355 mobile homes in Uinta County, which comprised 18.7 percent of all occupied housing units and compared to 13.8 statewide.

Table II.21.13, below, shows the number of households by year of construction. As shown, 8.7 percent, or 634 units, were built in 1939 or earlier in the county, and another 226 were built between 1940 and 1949. The number of households built between 2000 and 2004 was 208, which accounted for 2.9 percent of all households, and an additional 329 households, or 4.5 percent, were built in 2005 or later. These figures compare to 14,269 households, or 6.5 percent, that were built from 2005 or later statewide.

Table II.21.15, below, shows the number of households in the county by number of bedrooms and tenure. There were 62 rental households with no bedrooms, otherwise known as studio apartments. Two-bedroom households accounted for 22.9 percent of total households in Uinta County, which compared to 24.8 percent statewide. In Uinta County, the 2,929 households with three bedrooms accounted for 40.3 percent of all households, and there were only 797 five-bedroom or more households, which accounted for 11.0 percent of all households.

Table II.21.15

The age of a structure influences its value. As shown in Table II.21.16, at right, structures built in 1939 or earlier had a median value of \$161,700, while structures built between 1950 and 1959 had a median value of \$130,600 and those built between 1990 to 1999 had a median value of \$173,300. The newest structures tended to have the highest values and those built between 2000 and 2004 and from 2005 or later had median values of \$305,700 and \$258,800, respectively. The total average median value in Uinta County was \$178,300, which compared to \$181,900 in the State of Wyoming.

Table II.21.16 Median Value by Year Structure Built Uinta County 2007-2011 Five-Year ACS Data		
Year Built	Uinta County	State of Wyoming
1939 or earlier	161,700	148,000
1940 to 1949	146,800	130,200
1950 to 1959	130,600	155,800
1960 to 1969	185,500	171,100
1970 to 1979	162,800	180,100
1980 to 1989	190,400	194,300
1990 to 1999	173,300	224,800
2000 to 2004	305,700	247,900
Built 2005 or Later	258,800	245,700
Total	178,300	181,900

Household mortgage status is reported in Table II.21.17, below. In Uinta County, households with a mortgage accounted for 64.1 percent of all households or 3,559 housing units, and the remaining 35.9 percent or 1,990 units had no mortgage. Of those units with a mortgage, 538 had either a second mortgage or home equity loan, 51 had both a second mortgage and home equity loan, and 2,970 or 83.5 percent had no second mortgage or no home equity loan.

Table II.21.17 Mortgage Status Uinta County 2007-2011 Five-Year ACS Data				
Mortgage Status	Uinta County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	3,559	64.1%	95,294	61.5%
With either a second mortgage or home equity loan, but not both	538	15.1%	16,846	17.7%
Second mortgage only	221	41.1%	8,326	49.4%
Home equity loan only	317	58.9%	8,520	50.6%
Both second mortgage and home equity loan	51	1.4%	733	0.8%
No second mortgage and no home equity loan	2,970	83.5%	77,715	81.6%
Housing units without a mortgage	1,990	35.9%	59,594	38.5%
Total	5,549	100.0%	154,888	100.00%

The median rent in Uinta County was \$520 as compared to \$591 statewide, as shown in Table II.21.18, below.

Table II.21.18 Median Rent Uinta County 2007-2011 Five-Year ACS Data	
Place	Rent
Uinta County	\$520
State of Wyoming	\$591

The Wyoming driver’s license data provided by the WYDOT indicated a net increase of 47 persons during the first half of 2012. The driver’s license total exchanges since 2000 for Uinta County are presented in Table II.21.19, below, and indicate a net increase of 906 persons over the time period.

Table II.21.19

Economics

The HUD estimated MFI for Uinta County was \$73,300 in 2013.¹⁵⁰ This compares to Wyoming’s MFI of \$70,000. Diagram II.21.1, below, illustrates the estimated MFI for 2000 through 2012.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Uinta County’s labor force, defined as the number of persons working or actively seeking work, increased by 82 persons, from 11,065 in 2011 to 11,147 in 2012. Employment increased by 159 persons; unemployment decreased by 77 persons; and the unemployment rate, or the number of unemployed persons as a percentage of the labor force, decreased from 5.9 percent in 2011 to 5.1 percent in 2012, as shown on the following page in Diagram II.21.2.

¹⁵⁰ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.21.20, below, annual total monthly employment increased by 1.55 percent between 2011 and 2012 from a total of 8,985 to 9,124 workers.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. As shown in Table II.21.21, on the following page, annual average weekly wages increased by 1.94 percent between 2011 and 2012, from a total of \$775 to \$790.

Table II.21.21 Average Weekly Wages Uinta County BLS QCEW Data, 2001–2012(p)

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2011, the most recent year for which data are available, Uinta County recorded 12,642 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$893,359,000, and real per capita income was \$42,571 in 2011. Average earnings per job in the county was \$45,264 in 2011. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, average apartment rent in Uinta County decreased from \$603 in fourth quarter 2011 to \$574 in fourth quarter 2012, or by 4.8 percent. Detached single-family home rents increased by 11.7 percent, rents for mobile homes on a lot increased by 1.3 percent, and rents for mobile home lots decreased by 19.1 percent.

Uinta County rental prices experienced average annualized increases of 2.1 percent for apartments, 2.7 percent for houses, 1.2 percent for mobile homes plus a lot, and 1.4 percent for mobile home lots since fourth quarter 1986 through fourth quarter 2012. These figures compare to state average annualized increases in rental prices of 3.1 percent for apartments, 3.8 percent for houses, 3.4 percent for mobile homes plus a lot, and 3.0 percent for mobile home lots over the same period. Table II.21.23, at right, presents the Uinta County data for each rental type.¹⁵¹

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family unit authorizations in Uinta County increased from 34 authorized units in 2011 to 38 in 2012. Total units increased from 34 units in 2011 to 38 in 2012.

The real value of single-family building permits increased from \$199,100 in 2011 to \$218,700 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$218,700 in 2008 to a low of \$109,700 in 2002. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity and per unit valuations are given in Table II.21.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2012, the average sales price in Uinta County was \$191,065. This represented an increase of 5.3 percent from the previous year. In contrast, Wyoming’s weighted average was \$266,406, an increase of 10.4 percent over the previous year. A comparison of average sales prices between 2000 and 2012 is displayed in Table II.21.25, below.

Table II.21.25 Average Sales Prices Uinta County vs. Wyoming DOR Data, 2000–2012

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in the semiannual report ending in June 2013.¹⁵² During June 2013, a total of 129 surveys were completed by property managers in Uinta County. Of the 1,292 rental units surveyed, 129 were vacant, for a vacancy rate of 9.98 percent, as shown in Table II.21.27, below. This rate compares to a 6.28 percent vacancy rate one year ago, and a statewide June 2013 vacancy rate of 5.37 percent. The decrease in the vacancy rate can be attributed to the additional rental stock being absorbed into the market.

Table II.21.26				
Total Units, Vacant Units, and Vacancy Rate				
Uinta County				
RVS Data, 2001–First Survey 2012				
Year	Sample	Total Units	Vacant Units	Vacancy Rate

Diagram II.21.3, below, shows the historical vacancy rate for Uinta County and Wyoming. As can be seen, the vacancy rate in Uinta County was above the statewide rate, except for the period between 2005 and 2008, when the vacancy rate hovered around zero.

¹⁵²Those signified as a in the “year” column of Table II.21.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.21.4, below, shows the average rent of single-family and apartment units in Uinta County. In the first half of 2013, average rents for single-family units decreased to \$907 and average rents for apartments rose to \$665.

Table II.21.27 on the following page, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 64 single family units in Uinta County, with 7 of them available. This translates into a single family vacancy rate of 10.9%, which compares to a rate of 4.04% for the State of Wyoming. There were 670 apartment units reported in the survey, with 69 of them available, which resulted in a vacancy rate of 10.3%. This compares to a statewide vacancy rate of 5.91% for apartment units across the state.

Table II.21.32, below, shows the condition of rental units by unit type for Uinta County. Respondents could rate their units from poor to excellent, however many respondents did not know, or wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in excellent condition. Details on the conditions of additional unit types are displayed below.

Table II.21.32

The fiscal year 2013 Housing Needs Assessment (HNA) Survey, conducted primarily over the phone by the Partnership using a sample from data provided by the WYDOT, had 46 respondents in Uinta County. Of the incoming persons who were unsatisfied with their current housing, 60.0 percent said they sought to own a home and 40.0 percent wished to rent. Of those seeking to own a home, 100.0 percent wished to buy existing units, of which 33.3 percent sought homes for below \$100,000; 33.3 percent sought homes between \$100,000 and \$250,000, and 33.3 percent anticipated spending above \$250,000.

Of those persons currently renting or seeking to rent, 50.0 percent anticipated spending under \$474, and 50.0 percent hoped to spend above \$850 per month. Additional survey data are presented in **Volume II. Technical Appendix**.

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 2,545 loans purchased in Uinta County between 1979 and 2013, with one occurring in fiscal 2013. The average home size over the period was 1,227 square feet and 1,289 square feet in fiscal 2013. For homes receiving a WCDA loan in fiscal 2013, the average year a home was built was 1983. The average household income in fiscal 2013 in nominal terms, without the effects of inflation being taken into consideration, was \$48,600. The average purchase price in fiscal 2013 was \$160,000. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2011 five-year ACS data, 95 or 1.3 percent of households in Uinta County were overcrowded and another 74 or 1.0 percent of units were severely overcrowded, as shown in Table II.21.37, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.21.37				
Overcrowding and Severe Overcrowding

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2011 five-year ACS, a total of 190 units or 2.2 percent of all housing units in Uinta County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.21.38, at right.

Table II.21.38		
Housing Units with Incomplete Kitchen Facilities		
Uinta County		
2007-2011 Five-Year ACS Data		
Facilities	Uinta County	State of Wyoming
Complete Kitchen Facilities	8,463	251,420
Lacking Complete Kitchen Facilities	190	7,570
Total Housing Units	8,653	258,990
Percent Lacking	2.2%	2.9%

At the time of the 2011 ACS, a total of 328 units or 3.8 percent of all housing units in Uinta County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.21.39, at right.

Table II.21.39		
Housing Units with Incomplete Plumbing Facilities		
Uinta County		
2007-2011 Five-Year ACS Data		
Facilities	Uinta County	State of Wyoming
Complete Plumbing Facilities	8,325	252,719
Lacking Complete Plumbing Facilities	328	6,271
Total Households	8,653	258,990
Percent Lacking	3.8%	2.4%

The third type of housing problem reported in the 2011 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30 to 50 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Uinta County, 11.6 percent of households had a cost burden and 7.4 percent of households had a severe cost burden, which compared to 13.9 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 14.0 percent of homeowners with a mortgage in Uinta County experienced a cost burden and 5.6 percent experienced a severe cost burden, while 18.6 percent of renters had a cost burden and 15.0 percent had a severe cost burden, as shown in Table II.21.41, below.
