

UINTA COUNTY

Demographics

The Census Bureau's current census estimates indicate that Uinta County's population decreased from 21,118 in 2010 to 21,066 in 2013, or by 0.2 percent. This compares to a statewide population growth of 3.4 percent over the period. The number of people from 25 to 44 years of age decreased by 2.3 percent, and the number of people from 55 to 64 years of age increased by 10.3 percent. The white population decreased by 1.2 percent, while the black population increased by 182.5 percent. The Hispanic population increased from 1,855 to 1,907 people between 2010 and 2013 or by 2.8 percent. These data are presented in Table II.21.1, below.

Table II.21.2, on the following page, presents the population of Uinta County by age and gender from the 2010 Census and 2013 current census estimates. The 2010 Census count showed a total of 10,662 males, who accounted for 50.5 percent of the population, and the remaining 49.5 percent, or 10,456 persons, were female. In 2013, the number of males rose to 10,680 persons, and accounted for 50.7 percent of the population, with the remaining 49.3 percent, or 10,386 persons being female.

At the time of the 2010 Census, there were 270 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 24.6 percent, as shown in Table II.21.3, below.

Table II.21.3 Group Quarters Population Uinta County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 Decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 Decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

¹⁵⁷ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.21.4, below, shows data on household type by tenure in the 2012 5-year ACS data. Household type is broken down by family households and non-family households. In 2012, there were an estimated 5,273 family households, of which 4,248 housed married couple families and 1,025 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 242 families, or a female householder with no husband present, of which there were 783 families. There were also an estimated 1,976 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Uinta County was 72.7 percent, which compared to the statewide rate of 65.9 percent. Of the family households in Uinta County, 80.6 percent were married households, which compared to 80.5 percent in the State of Wyoming.

Table II.21.5, on the following page, displays the 2012 5-year ACS census data for household type by household size. In 2012, there were 2,314 two-person family households, 1,004 three-person family households and 980 four-person family households. One-person non-family households made up 85.0 percent of all non-family households or an estimated 1,679 households. Uinta County’s two persons households made up 35.8 percent of total housing units and four person households made up an additional 13.8 percent, which compares to 37.8 and 12.1 percent, respectively, for the State of Wyoming.

Table II.21.15, at right, shows the number of households in the county by number of bedrooms and tenure. There were 46 rental households with no bedrooms, otherwise known as studio apartments. Two-bedroom households accounted for 23.8 percent of total households in Uinta County, which compared to 24.6 percent statewide. In Uinta County, the 2,960 households with three bedrooms accounted for 40.8 percent of all households, and there were only 770 five-bedroom or more households, which accounted for 10.6 percent of all households.

The age of a structure influences its value. As shown in Table II.21.16, at right, structures built in 1939 or earlier had a median value of \$155,600, while structures built between 1950 and 1959 had a median value of \$146,700 and those built between 1990 to 1999 had a median value of \$178,800. The newest structures tended to have the highest values and those built between 2000 and 2009 and from 2010 or later had median values of \$284,700 and \$270,800, respectively. The total average median value in Uinta County was \$180,200, which compared to \$184,400 in the State of Wyoming.

Table II.21.16 Median Value by Year Structure Built Uinta County 2008-2012 5-Year ACS Data		
Year Built	Uinta County	State of Wyoming
1939 or earlier	155,600	153,500
1940 to 1949	147,500	136,800
1950 to 1959	146,700	156,600
1960 to 1969	177,000	173,700

Built 2010 or Later	270,800	221,600
Total	180,200	184,400

Household mortgage status is reported in Table II.21.17, below. In Uinta County, households with a mortgage accounted for 63.3 percent of all households or 3,420 housing units, and the remaining 36.7 percent or 1,982 units had no mortgage. Of those units with a mortgage, 537 had either a second mortgage or home equity loan, 58 had both a second mortgage and home equity loan, and 2,825 or 82.6 percent had no second mortgage or no home equity loan.

Table II.21.17 Mortgage Status Uinta County 2008-2012 5-Year ACS Data				
Mortgage Status	Uinta County		State of Wyoming	
	Households	% of Households	Households	% of Households
Housing units with a mortgage, contract to purchase, or similar debt	3,420	63.3%	94,301	60.6%
With either a second mortgage or home equity loan, but not both	537	15.7%	15,069	16.0%

Economics

The HUD estimated MFI for Uinta County was \$75,800 in 2014.¹⁵⁸ This compares to Wyoming’s MFI of \$71,400. Diagram II.21.1, below, illustrates the estimated MFI for 2000 through 2013.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Uinta County’s labor force, defined as the number of persons working or actively seeking work, decreased by 195 persons, from 11,190 in 2012 to 10,995 in 2013. Employment decreased by 136 persons; unemployment decreased by 59 persons; and the unemployment rate, or the number of unemployed persons as a percentage of the labor force, decreased from 5.1 percent in 2012 to 4.7 percent in 2013, as shown on the following page in Diagram II.21.2.

¹⁵⁸ Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. As shown in Table II.21.20, below, annual total monthly employment decreased by 3.05 percent between 2012 and 2013 from a total of 9,127 to 8,849 workers.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. As shown in Table II.21.21, on the following page, annual average weekly wages increased by 8.11 percent between 2012 and 2013, from a total of \$789 to \$853.

Table II.21.21 Average Weekly Wages Uinta County BLS QCEW Data, 2001–2013(p)

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2012, the most recent year for which data are available, Uinta County recorded 12,864 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$932,464,000, and real per capita income was \$44,351 in 2012. Average earnings per job in the county was \$44,689 in 2012. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming Cost of Living Index, average apartment rent in Uinta County increased from \$574 in second quarter 2012 to \$597 in fourth quarter 2013, or by 4.0 percent. Detached single-family home rents decreased by 0.7 percent, rents for mobile homes on a lot increased by 23.4 percent, and rents for mobile home lots increased by 1.9 percent.

Uinta County rental prices experienced average annualized increases of 2.2 percent for apartments, 2.6 percent for houses, 1.9 percent for mobile homes plus a lot, and 1.4 percent for mobile home lots since fourth quarter 1986 through fourth quarter 2013. These figures compare to state average annualized increases in rental prices of 3.2 percent for apartments, 3.8 percent for houses, 3.5 percent for mobile homes plus a lot, and 3.0 percent for mobile home lots over the same period. Table II.21.23, at right, presents the Uinta County data for each rental type.¹⁵⁹

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family unit authorizations in Uinta County increased from 34 authorized units in 2011 to 38 in 2012. Total units increased from 34 units in 2011 to 38 in 2012.

The real value of single-family building permits increased from \$199,100 in 2011 to \$218,700 in 2012. The value over the past decade, in real 2012 dollars, fluctuated from a high of \$218,700 in 2008 to a low of \$109,700 in 2002. These figures compare to the state average high of \$275,723 in 2000 and low of \$187,359 in 2003. Additional details of permit activity and per unit valuations are given in Table II.21.24, on the following page.

The average sales price of existing, detached, single-family homes was provided by the Department of Revenue (DOR). In 2013, the average sales price in Uinta County was \$209,631. This represented an increase of 9.7 percent from the previous year. In contrast, Wyoming’s weighted average was \$281,345, an increase of 5.6 percent over the previous year. A comparison of average sales prices between 2000 and 2013 is displayed in Table II.21.25, on the following page.

Table II.21.25 Average Sales Prices Uinta County vs. Wyoming DOR Data, 2000–2013

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in the semiannual report ending in June 2014.¹⁶⁰ During June 2014, a total of 58 surveys were completed by property managers in Uinta County. Of the 1,243 rental units surveyed, 120 were vacant, for a vacancy rate of 9.7 percent, as shown in Table II.21.26, below. This rate compares to a 10.0 percent vacancy rate one year ago, and a statewide June 2014 vacancy rate of 3.8 percent.

Table II.21.26 Total Units, Vacant Units, and Vacancy Rate Uinta County RVS Data, June 2001 – June 2014				
Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	17	849	34	4.0%

2014a	58	1,243	120	9.7%

¹⁶⁰Those signified as a in the “year” column of Table II.21.10 are conducted in June/July of each year. Those signified as b are conducted each November/December.

Diagram II.21.3, below, shows the historical vacancy rate for Uinta County and Wyoming. As can be seen, the vacancy rate in Uinta County was above the statewide rate, except for the period between 2005 and 2008, when the vacancy rate hovered around zero.

Diagram II.21.4, below, shows the average rent of single-family and apartment units in Uinta County. In the first half of 2014, average rents for single-family units increased to \$827 and average rents for apartments fell slightly to \$667.

Table II.21.27, below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 39 single family units in Uinta County, with 3 of them available. This translates into a vacancy rate of 7.7 percent in Uinta County, which compares to a single family vacancy rate of 4.0 percent for the State of Wyoming. There were 624 apartment units reported in the survey, with 41 of them available, which resulted in a vacancy rate of 6.6 percent. This compares to a statewide vacancy rate of 3.0 percent for apartment units across the state.

Table II.21.27			
Rental Vacancy Survey by Type			
Uinta County			
RVS Data, June 2014

Average market-rate rents by unit type are shown in Table II.21.29, on the following page. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.21.29

Table II.21.33, below, shows the condition of rental units by unit type for Uinta County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported below, most single family units were in good condition, with most apartments being in average condition. Details by unit type and condition are displayed below.

Table II.21.33 Condition by Unit Type Uinta County RVS Data, June 2014							
Conditions	Single Family Units	Duplex Units	Apartment Units	Mobile Homes	“Other” Units	Don’t Know	Total

Respondents were also asked if they would like to own or manage additional units and if so, which type of units would they prefer. As can be seen in Table II.21.37, below, respondents in Uinta County said they would prefer 39 more single family units, 149 more apartment units, and units of all types. In total respondents indicated they wished to own or manage an additional 502 units.

Table II.21.37 If you had the opportunity to own/manage more units, how many would you prefer Uinta County RVS Data, June 2014

Table, II.21.38, below shows the most common answers from the 2014 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Uinta County had a total of 37 respondents, with an average persons per household of 3.4 people. Of new residents to Uinta County, 62.2 percent were married and the most common age group arriving in the state was 25 to 34 years old. Most new residents moved for reasons other than those given in the survey.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 48.6 percent of respondents renting their residence. The average mortgage payment in Uinta County was \$618 and the average rent was \$364. When asked if they were satisfied with their current housing, 83.8 percent said they were satisfied with thier current housing.

Table II.21.38 Most Replied Response Uinta County HNA Survey: Fiscal Year 2014	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	37
Number of persons in household (Average)	3.4
Current age	25 to 34 years old (40.5%)
Marital status	Married (62.2%)
Primary reason for moving to Wyoming	Other reason (27.0%)
In which industry are you primarily employed	Other (28.0%)
Highest education level completed	High School Diploma/GED (32.4%)
Total household income from all sources	Less than \$10,000 dollars (20.8%)
Current Housing Characteristics	
Current Residence	Single family home (59.5%)
Do you own or rent	Rent (48.6%)
How many bedrooms (Average)	3.2
How many full bathrooms (Average)	1.7
Average mortgage payment	\$618
Average rental payment	\$364
Are you satisfied with your current housing	Satisfied with current housing (83.8%)
Housing Demand (if unsatisfied with current housing)	
Reason you are unsatisfied	Other (66.7%)
Are you seeking to change your housing situation	Seeking different housing (83.3%)
What type of unit are you seeking	Single family home (80.0%)
Type of tenure seeking	Seeking to buy (100.0%)
If own, do you plan on building or buying	Buy an existing unit (60.0%)
Expected buying price	\$250,000 to \$299,999 dollars (50.0%)
Expected building price	Not sure (66.7%)
Expected rental price	.

For residents who are unsatisfied with their current housing, 66.7 percent were unsatisfied because of some other reason not listed in the survey. When asked what type of unit they were seeking, the most common response, 80.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 100.0 percent wanted to buy and 0.0 wanted to rent their next residence. Most residents wishing to buy a house anticipated spending \$250,000 to \$299,999 dollars if they were buying an existing unit, and not sure how much if they anticipated building a new unit. Additional survey data are presented in **Volume II. Technical Appendix**¹⁶¹.

¹⁶¹ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2012 5-year ACS data, 140 or 1.9 percent of households in Uinta County were overcrowded and another 45 or 0.6 percent of units were severely overcrowded, as shown in Table II.21.39, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.21.39				
Overcrowding and Severe Overcrowding				
Uinta County

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2012 5-year ACS, a total of 183 units or 2.1 percent of all housing units in Uinta County were lacking complete kitchen facilities. This compared to 2.9 percent of households statewide without complete kitchen facilities. These data are presented in Table II.21.40, at right.

Table II.21.40 Housing Units with Incomplete Kitchen Facilities Uinta County 2008-2012 5-Year ACS Data		
Facilities	Uinta County	State of Wyoming
Complete Kitchen Facilities	8,523	253,942
Lacking Complete Kitchen Facilities	183	7,488
Total Housing Units	8,706	261,430
Percent Lacking	2.1%	2.9%

At the time of the 2012 ACS, a total of 340 units or 3.9 percent of all housing units in Uinta County were lacking complete plumbing facilities. This compared to 2.3 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.21.41, below.

Table II.21.41 Housing Units with Incomplete Plumbing Facilities Uinta County 2008-2012 5-Year ACS Data		
Facilities	Uinta County	State of Wyoming
Complete Plumbing Facilities	8,366	255,465
Lacking Complete Plumbing Facilities	340	5,965
Total Households	8,706	261,430
Percent Lacking	3.9%	2.3%

The third type of housing problem reported in the 2012 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Uinta County, 12.2 percent of households had a cost burden and 8.8 percent of households had a severe cost burden, which compared to 14.4 percent with a cost burden and 9.9 percent with a severe cost burden in the State of Wyoming. Roughly 15.1 percent of homeowners with a mortgage in Uinta County experienced a cost burden and 8.0 percent experienced a severe cost burden, while 16.4 percent of renters had a cost burden and 16.0 percent had a severe cost burden, as seen in Table II.21.42, on the following page.

2014 WCDA Loan Profile

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 2,548 loans purchased in Uinta County between 1979 and 2014, with 3 occurring in fiscal 2014. The average home size over the period was 1,227 square feet and 1,148 square feet in fiscal 2014. For homes receiving a WCDA loan in fiscal 2014, the average year a home was built was 1927. The average household income in fiscal 2014 in nominal terms, without the effects of inflation being taken into consideration, was \$57,127. The average purchase price in fiscal 2014 was \$170,223. In fiscal 2014, 0.0 percent of loans purchased were for new construction, and 66.7 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix**.
