

WESTON COUNTY

Demographics

The Census Bureau's current census estimates indicate that Weston County's population decreased from 7,208 in 2010 to 7,201 in 2014, or by 0.1 percent. This compares to a statewide population growth of 3.6 percent over the period. The number of people from 25 to 44 years of age decreased by 0.6 percent, and the number of people from 55 to 64 years of age increased by 6.6 percent. The white population decreased by 1.7 percent, while the black population increased by 131.8 percent. The Hispanic population increased from 216 to 305 people between 2010 and 2014, or by 41.2 percent. These data are presented in Table II.23.1, below.

At the time of the 2010 Census, there were 313 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 5.4 percent, as shown in Table II.23.3, below.

Table II.23.3 Group Quarters Population Weston County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial Census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

²⁴¹ In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.23.4, below, shows data on household type by tenure in the 2014 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 1,848 family households, of which 1,506 housed married couple families and 342 housed "other families." "Other family" is defined as either a male householder with no wife present, of whom there were 161 families, or a female householder with no husband present, of which there were 181 families. There were also an estimated 1,148 "non-family households," which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Weston County was 61.7 percent, which compared to the statewide rate of 65.3 percent. Of the family households in Weston County, 81.5 percent were married households, which compared to 79.8 percent in the State of Wyoming.

Family Type	Weston County		State of Wyoming	
	Weston County	% of Total	State of Wyoming	% of Total

Table II.23.5, on the following page, displays the 2014 5-year ACS census data for household type by household size. In 2013, there were 1,002 two-person family households, 335 three-person family households and 190 four-person family households. One-person non-family households made up 93.5 percent of all non-family households or an estimated 1,073 households. Weston County's two persons households made up 35.7 percent of total housing units and four person households made up an additional 6.3 percent, which compares to 38.4 and 11.6 percent, respectively, for the State of Wyoming.

The age of a structure influences its value. As shown in Table II.23.16, at right, structures built in 1939 or earlier had a median value of \$77,200, while structures built between 1950 and 1959 had a median value of \$140,800 and those built between 1990 to 1999 had a median value of \$119,200. The newest structures tended to have the highest values and those built between 2000 and 2009 and from 2005 or later had median values of \$246,400 and \$276,600, respectively. The total average median value in Weston County was \$160,600, which compared to \$189,300 in the State of Wyoming.

Table II.23.16 Median Value by Year Structure Built Weston County 2010-2014 5-Year ACS Data		
Year Built	Weston County	State of Wyoming
1939 or earlier	77,200	153,700
1940 to 1949	88,100	140,900
1950 to 1959	140,800	158,200
1960 to 1969	360,000	177,300

Economics

The HUD estimated MFI for Weston County was \$75,700 in 2014.²⁴² This rate compares to Wyoming’s MFI of \$71,400. Diagram II.23.1, below, illustrates the estimated MFI for 2000 through 2014.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Weston County’s labor force, defined as the number of persons working or actively seeking work, decreased by 12 persons, from 3,958 in 2013 to 3,970 in 2014. Employment increased by 18

²⁴² Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

persons; unemployment decreased by 6 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 3.6 percent in 2013 to 3.4 in 2014, as shown below in Diagram II.23.2.

The BLS, in conjunction with the State Employment Security Agencies (SESAs), produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Members of the armed forces, the self-employed, proprietors, domestic workers, and unpaid family workers are not included in QCEW estimates. Data from this series are from the period of January 2005 through June 2015 and are presented in Table II.23.20, below, with the 2015 information considered preliminary (p). As shown therein, total annual employment stood at 2,331 persons in 2014; this figure was higher than the 2013 average by 22 jobs. Between June of 2014 and 2015, preliminary estimates show the monthly employment rose from 2,402 to 2,448 jobs.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. The BLS QCEW data indicated average weekly wages were \$697 in 2013. In 2014, average weekly wages saw an increase of 3.16 over the prior year, rising to \$719. These data are shown in Table II.23.21, below. Preliminary estimates show average weekly wages fell from \$719 to \$703 between the second quarter of 2014 and 2015.

Table II.23.21 Average Weekly Wages Weston County BLS QCEW Data, 2001–2015(p)

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2014, the most recent year for which data are available, Weston County recorded 5,321 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$419,922,000, and real per capita income was \$58,314 in 2014. This compares to a statewide average real per capita income of \$54,584. The average earnings per job in the county was \$50,051 in 2014, while Wyoming average earnings per job was \$53,171. These data are presented in full in **Volume II. Technical Appendix.**

Housing

According to the Wyoming cost of living index, real average apartment rent in Weston County increased from \$578 to \$579 between second quarter 2014 and second quarter 2015, or by 0.2 percent. Detached single-family home rents decreased by 3.9 percent, rents for mobile homes on a lot increased by 5.8 percent, and rents for mobile home lots increased by 7.6 percent.

Weston County rental prices experienced average annualized changes of 0.3 percent for apartments, 1.0 percent for houses, 0.8 percent for mobile homes plus a lot, and a decrease of 0.1 percent for mobile home lots since fourth quarter 1986 through second quarter 2015. These figures compare to state average annualized increases in rental prices of 1.0 percent for apartments, 1.5 percent for houses, 1.1 percent for mobile homes plus a lot, and 0.8 percent for mobile home lots over the same period. Table II.23.23, at right, presents the Weston County data for each rental type.²⁴³

²⁴³ Apartments are two-bedroom units, excluding gas and electricity. Mobile home lots are single-wide units and include water costs. Houses are for two- or three-bedroom dwelling units, excluding gas and electricity. A mobile home on a lot includes a combined rent for mobile home and lot.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Weston County decreased from 5 authorizations in 2013 to 1 in 2014.

The real value of single-family building permits decreased from \$179,958 in 2013 to \$170,000 in 2014. This compares to an increase in permit value statewide, with values rising from \$293,820 in 2013 to \$295,850 in 2014. Additional details are given in Table II.23.24, below.

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in the semiannual report ending in December 2015.²⁴⁴ During December 2015, a total of 18 surveys were completed by property managers in Weston County. Of the 158 rental units surveyed, 21 were vacant, indicating a vacancy rate of 13.3 percent, as shown in Table II.23.26, below. This rate compares to a 3.8 percent vacancy last year and a statewide December 2015 vacancy rate of 6.9 percent.

Year	Sample	Total Units	Vacant Units	Vacancy Rate
2001a	4	60	3	5.0%

Diagram II.23.3, on the following page, shows the historical vacancy rate for Weston County and Wyoming. As can be seen, the vacancy rate in Weston County has been volatile over the 14 year period, moving above and below the statewide rate, with several periods matching the statewide average. In the most recent survey, the vacancy rate fell to just below the statewide rate.

²⁴⁴Those signified as a in the “year” column of Table II.23.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.23.4, below, shows the average rent of single-family and apartment units in Weston County. In 2015, average rents for single-family units decreased to \$697 and average rents for apartments fell to \$598.

Table II.23.27 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 24 single family units in Weston County, with 2 of them available. This translates into a vacancy rate of 8.3 percent in Weston County, which compares to a single family vacancy rate of 5.5 percent for the State of Wyoming. There were 59 apartment units reported in the survey, with 7 of them available, which resulted in a vacancy rate of 11.9 percent. This compares to a statewide vacancy rate of 5.8 percent for apartment units across the state.

Place	Total Units	Vacant Units	Vacancy Rate

Average market-rate rents by unit type are shown in Table II.23.30, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

Table II.23.30 Average Market Rate Rents by Bedroom Size Weston County RVS Data, December 2015

Table II.23.39, on the following page, shows the most common answers from the 2015 calendar year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Weston County had a total of 21 respondents, with an average persons per household of 3.2 people. Of new residents to Weston County, 63.2 percent were married and the most common age group arriving in the state was 35 to 44 years old. Most new residents moved to be closer to friends or relatives.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 52.4 percent of respondents renting their residence. The average mortgage payment in Weston County was \$559 and the average rent was \$571. When asked if they were satisfied with their current housing, 90.5 percent said they were satisfied with thier current housing.

Table II.23.39 Most Replied Response Weston County HNA Survey: Calendar Year 2015	
Question	Most Replied Answer (%)
Demographics	
Total Number of Respondents	21
Number of persons in household (Average)	3.2
Current age	35 to 44 years old (28.6%)
Marital status	Married (63.2%)
Primary reason for moving to Wyoming	Friends or relatives in Wyoming (38.1%)
In which industry are you primarily employed	Other (28.6%)
Highest education level completed	High School Diploma/GED (33.3%)
Total household income from all sources	\$20,000 to \$29,999 dollars (40.0%)
Current Housing Characteristics	
Current Residence	Single family home (47.6%)
Do you own or rent	Rent (52.4%)
How many bedrooms (Average)	2.9
How many full bathrooms (Average)	1.5
Average mortgage payment	\$559
Average rental payment	\$571
Are you satisfied with your current housing	Satisfied with current housing (90.5%)
Housing Demand (If unsatisfied with current housing)	
Reason you are unsatisfied	Housing unit is in poor condition (66.7%)
Are you seeking to change your housing situation	Seeking different housing (66.7%)
What type of unit are you seeking	Single family home (100.0%)
Type of tenure seeking	Seeking to buy (50.0%)
If own, do you plan on building or buying	Buy an existing unit (50.0%)
Expected buying price	.
Expected building price	.
Expected rental price	\$401 to \$500 dollars (100.0%)

For residents who are unsatisfied with their current housing, 66.7 percent were unsatisfied because the housing unit is in poor condition. When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 50.0 percent wanted to buy and 50.0 wanted to rent their next residence. Of those respondents who wished to rent, the most common response, 100.0 percent of respondents, anticipated spending \$401 to \$500 dollars. Additional survey data are presented in **Volume II. Technical Appendix.**²⁴⁵

Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

²⁴⁵ Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2014 5-year ACS data, 41 or 1.4 percent of households in Weston County were overcrowded and another 48 or 1.6 percent of units were severely overcrowded, as shown in Table II.23.40, below. This housing problem was far more prevalent in renter households as compared to owner households.

Table II.23.40				
Overcrowding and Severe Overcrowding

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2014 5-year ACS, a total of 128 units or 3.6 percent of all housing units in Weston County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.23.41, at right.

Table II.23.41 Housing Units with Incomplete Kitchen Facilities Weston County 2010-2014 5-Year ACS Data		
Facilities	Weston County	State of Wyoming
Complete Kitchen Facilities	3,392	258,329
Lacking Complete Kitchen Facilities	128	6,866
Total Housing Units	3,520	265,195
Percent Lacking	3.6%	2.6%

At the time of the 2014 ACS, a total of 67 units or 1.9 percent of all housing units in Weston County were lacking complete plumbing facilities. This compared to 2.2 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.23.42, below.

Table II.23.42 Housing Units with Incomplete Plumbing Facilities Weston County 2010-2014 5-Year ACS Data		
Facilities	Weston County	State of Wyoming
Complete Plumbing Facilities	3,453	259,378
Lacking Complete Plumbing Facilities	67	5,817
Total Households	3,520	265,195
Percent Lacking	1.9%	2.2%

The third type of housing problem reported in the 2014 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Weston County, 11.4 percent of households had a cost burden and 9.1 percent of households had a severe cost burden, which compared to 14.4 percent with a cost burden and 9.8 percent with a severe cost burden in the State of Wyoming. Roughly 14.2 percent of homeowners with a mortgage in Weston County experienced a cost burden and 9.7 percent experienced a severe cost burden, while 11.2 percent of renters had a cost burden and 18.2 percent had a severe cost burden, as seen in Table II.23.43, on the following page.

Table II.23.43 Cost Burden and Severe Cost Burden by Tenure Weston County 2010-2014 5-Year ACS Data

2016 Housing Needs Forecast

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the *2016 Wyoming Housing Needs Forecast*, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 351 households in Weston County, from 3,021 in 2010 to 3,406 in 2040. Homeowners are expected to increase from 2,349 households in 2010 to 2,681 by 2040. Renters are anticipated to increase from 672 households in 2010 to 726 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 34 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 30 to 50 percent of MHI is expected to increase by 36 households and by 43 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 12 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 8 households over the period. Table II.23.44, below, provides details of the household forecast by tenure and income.

Additional Comments

Weston County was not as severely impacted by the drop in oil and gas prices as other parts of the State during 2015. Weston County had the fourth lowest unemployment rate in the State in June at 3.2 percent.²⁴⁶ Additionally, Weston County has joined with various other counties in Wyoming in supporting the political position that states should control federal lands.²⁴⁷ The County has joined with an association that wants to join local and regional forces to have more local control over federal lands. Tracking homeless populations can be tricky due to the inability to find persons living on the streets; as such, Weston County reported no homeless persons in 2015.²⁴⁸
