

## CROOK COUNTY

### Demographics

The Census Bureau's current census estimates indicate that Crook County's population increased from 7,083 in 2010 to 7,444 in 2015, or by 5.1 percent. This compares to a statewide population growth of 4.0 percent over the period. The number of people from 25 to 44 years of age increased by 2.7 percent, and the number of people from 55 to 64 years of age increased by 10.5 percent. The white population increased by 3.3 percent, while the black population increased by 347.1 percent. The Hispanic population increased from 141 to 198 people between 2010 and 2015 or by 40.4 percent. These data are presented in Table II.6.1, below.

Table II.6.2, on the following page, presents the population of Crook County by age and gender from the 2010 Census and 2015 current census estimates. The 2010 Census count showed a total of 3,648 males, who accounted for 51.5 percent of the population, and the remaining 48.5 percent, or 3,435 persons, were female. In 2015, the number of males rose to 3,766 persons, and accounted for 50.6 percent of the population, with the remaining 49.4 percent, or 3,678 persons being female.

At the time of the 2010 Census, there were 34 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters decreased by 66 percent, as shown in Table II.6.3, below.

<b>Table II.6.3</b> <b>Group Quarters Population</b> Crook County 2000 SF1 and 2010 Census Data

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year

<sup>95</sup> In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.6.4, below, shows data on household type by tenure in the 2015 5-year ACS data. Household type is broken down by family households and non-family households. In 2014, there were an estimated 2,153 family households, of which 1,897 housed married couple families and 256 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 53 families, or a female householder with no husband present, of which there were 203 families. There were also an estimated 805 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Crook County was 72.8 percent, which compared to the statewide rate of 64.9 percent. Of the family households in Crook County, 88.1 percent were married households, which compared to 79.7 percent in the State of Wyoming.

Family Type	Crook County		State of Wyoming	
	Crook County	% of Total	State of Wyoming	% of Total

Table II.6.5, on the following page, displays the 2015 5-year ACS census data for household type by household size. In 2015, there were 1,365 two-person family households, 342 three-person family households and 184 four-person family households. One-person non-family households made up 88.9 percent of all non-family households or an estimated 716 households. Crook County’s two persons households made up 48.2 percent of total housing units and four person households made up an additional 6.2 percent, which compares to 38.2 and 11.3 percent, respectively, for the State of Wyoming.

**Economics**

The HUD estimated MFI for Crook County was \$62,500 in 2016.<sup>96</sup> This figure compares to Wyoming’s MFI of \$73,300. Diagram II.6.1, below, illustrates the estimated MFI for 2000 through 2016.

Labor force and employment statistics were derived from Bureau of Labor Statistics (BLS) data. Crook County’s labor force, defined as the number of persons working or actively seeking work,

<sup>96</sup> Starting from the year 2003, HUD MFI estimates were re-benchmarked using 2000 Census income limits, hence the unusual increase in estimates compared to earlier years.

decreased by 6 persons, from 3,717 in 2014 to 3,711 in 2015. Employment increased by 1 persons; unemployment decreased by 17 persons; and the unemployment rate, the number of unemployed persons as a percentage of the labor force, decreased from 3.9 percent in 2014 to 3.4 percent in 2015, as shown below in Diagram II.6.2.

The BLS produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent the number of workers who worked during or received pay for the pay period. Data from this series are from the period of January 2005 through June 2016 and are presented in Table II.6.19, below, with the 2016 information considered preliminary (p). As shown therein, total annual employment stood at 2,340 persons in 2015; this figure was lower than the 2014 average by 12 jobs. In June total preliminary monthly employment was estimated to be 2,534 jobs.

The QCEW also reports average weekly wages, which represents total compensation paid during the calendar quarter, regardless of when services were performed. The BLS QCEW data indicated average weekly wages were \$747 in 2014. In 2015, average weekly wages saw an increase of 3.48 over the prior year, rising to \$773. The most recent preliminary estimates show average weekly wages were 769 in the second quarter on 2016. These data are shown in Table II.6.20, below.

<b>Table II.6.20</b> <b>Average Weekly Wages</b> Crook County BLS QCEW Data, 2001–2016(p)

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2015, the most recent year for which data are available, Crook County recorded 4,495 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$328,440,000, and real per capita income was \$44,121 in 2015. This compares to a statewide average real per capita income of \$56,081. The average earnings per job in the county was \$39,911 in 2015, while Wyoming average earnings per job was \$53,875. These data are presented in full in **Volume II. Technical Appendix.**

**Housing**

According to the Wyoming Cost of Living Index, real average apartment rent in Crook County increased from \$594 in second quarter 2015 to \$628 in second quarter 2016, or by 5.8 percent. Single-family homes decreased by 1.0 percent over the same period.

Crook County rental prices experienced average annualized increases of 1.4 percent for apartments. These figures compare to state average annualized increases in rental prices of 0.9 percent for apartments, 1.3 percent for houses, 1.1 percent for mobile homes plus a lot and 0.9 percent for mobile homes. Table II.6.22, above, presents the Crook County data for each rental type.<sup>97</sup>

<sup>97</sup> Apartments are two-bedroom units, excluding gas and electricity. Mobile home lots are single-wide units and include water costs. Houses are for two- or three-bedroom dwelling units, excluding gas and electricity. A mobile home on a lot includes a combined rent for mobile home and lot.

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Crook County remained at from 5 authorizations in 2014 to 5 in 2015.

The real value of single-family building permits increased from \$120,790 in 2014 to \$262,800 in 2015. This compares to an increase in permit value statewide, with values rising from \$298,797 in 2014 to \$348,576 in 2015. Additional details are given in Table II.6.23, below.

The Wyoming Rental Vacancy Survey (RVS) has been completed biannually since 2000, with the most recent survey conducted in December 2016.<sup>98</sup> During December 2016, a total of 18 surveys were completed in Crook County. Of the 118 rental units surveyed, 36 were vacant, representing a 30.5 percent vacancy rate, as shown in Table II.6.25, at right. This compares to an 8.8 percent vacancy rate one year ago and a December 2016 statewide vacancy rate of 11.1 percent.

Diagram II.6.3, on the following page, shows the historical vacancy rate for Crook County and Wyoming. As can be seen, the vacancy rate in Crook County has been similar to the statewide vacancy rate, trending roughly the same, but with higher volatility over the fourteen year period.

Year	Sample	Total Units	Vacant Units	Vacancy Rate

<sup>98</sup> Those signified as a in the “year” column of Table II.6.10 are conducted in June/July of each year. Those signified as b are conducted each November/December. Conducting the surveys in June and December of each year allows one to view the prospective seasonality of vacancy rates as well as year-to-year changes.

Diagram II.6.4, below, shows the average rent of single-family and apartment units in Crook County. In 2016, average rents for single-family units fell to \$770 and average rents for apartments fell to \$559.

Table II.6.26 below shows the amount of total and vacant units by unit type, with their associated vacancy rates. At the time of the survey, there were an estimated 15 single family units in Crook County, with 3 of them available. This translates into a vacancy rate of 20.0 percent in Crook County, which compares to a single family vacancy rate of 6.6 percent for the State of Wyoming. There were 87 apartment units reported in the survey, with 23 of them available, which resulted in a vacancy rate of 26.4 percent. This compares to a statewide vacancy rate of 9.8 percent for apartment units across the state.

Average market-rate rents by unit type are shown in Table II.6.30, below. Not all respondents were able to disclose the rental amounts for their units, so there may be some statistical aberrations in the computed rental rates, but generally those units with more bedrooms had higher rents. Single family units also normally command higher rents than apartment units.

<b>Table II.6.30</b>

Table, II.6.37, below, shows the most common answers from the 2016 calendar year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Crook County had a total of 8 respondents, with an average persons per household of 3.3 people. Of new residents to Crook County, 87.5 percent were married and the most common age group arriving in the state was 45 to 54 years old. Most new residents moved for a new job.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 50.0 percent of respondents owning thier residence. The average mortgage payment in Crook County was \$1,000 and the average rent was \$1,350. When asked if they were satisfied with their current housing, 100.0 percent said they were satisfied with thier current housing.

<b>Table II.6.37</b> <b>Most Replied Response</b> Crook County HNA Survey: Calendar Year 2016	
Question	Most Replied Answer (%)
<b>Demographics</b>	
Total Number of Respondents	8
Number of persons in household (Average)	3.3

How many full bathrooms (Average)	2.5
Average mortgage payment	\$1,000
Average rental payment	\$1,350
Are you satisfied with your current housing	Satisfied with current housing (100.0%)

Additional survey data are presented in **Volume II. Technical Appendix.**<sup>99</sup>

### Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2015 5-year ACS data, 47 or 1.6 percent of households in Crook County were overcrowded and another 8 or .3 percent of units were severely overcrowded, as shown in Table II.6.38, on the following page. This housing problem was far more prevalent in renter households as compared to owner households.

<sup>99</sup> Percentages presented here may vary slightly from those in the technical appendix. This is because the percentages here are calculated with the missing responses excluded, where the percentages calculated in the technical appendix include all responses, even if they are missing.

<b>Table II.6.38</b>				
<b>Overcrowding and Severe Overcrowding</b>

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2015 5-year ACS, a total of 126 units or 3.5 percent of all housing units in Crook County were lacking complete kitchen facilities. This compared to 2.6 percent of households statewide without complete kitchen facilities. These data are presented in Table II.6.39, at right.

<b>Table II.6.39</b>		
<b>Housing Units with Incomplete Kitchen Facilities</b>		
Crook County		
2010-2015 5-Year ACS Data		
Facilities	Crook County	State of Wyoming
Complete Kitchen Facilities	3,461	259,728
Lacking Complete Kitchen Facilities	126	6,902
<b>Total Housing Units</b>	<b>3,587</b>	<b>266,630</b>
Percent Lacking	3.5%	2.6%

At the time of the 2015 ACS, a total of 135 units or 3.8 percent of all housing units in Crook County were lacking complete plumbing facilities. This compared to 2.4 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.6.40, below.

<b>Facilities</b>	<b>Crook County</b>	<b>State of Wyoming</b>
Complete Plumbing Facilities	3,452	260,327
Lacking Complete Plumbing Facilities	135	6,303
<b>Total Households</b>	<b>3,587</b>	<b>266,630</b>
Percent Lacking	3.8%	2.4%

The third type of housing problem reported in the 2014 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Crook County, 7.2 percent of households had a cost burden and 5.1 percent of households had a severe cost burden, which compared to 14.3 percent with a cost burden and 9.5 percent with a severe cost burden in the State of Wyoming. Roughly 9.7 percent of homeowners with a mortgage in Crook County experienced a cost burden and 3.9 percent experienced a severe cost burden, while 7.6 percent of renters had a cost burden and 8.7 percent had a severe cost burden, as seen in Table II.6.41, on the following page.

## 2017 Housing Needs Forecast

Three alternative housing forecasts were prepared: a *moderate growth* scenario, a *strong growth* scenario and a *very strong growth* scenario. While all three predictions are available in the 2016 Wyoming Housing Needs Forecast, only the *strong growth* forecast is presented on the following page. The forecast of household formation by tenure was segmented by income as a percentage of Median Household Income (MHI). The income groupings for the counties were separated into five categories: 0 to 30 percent, 31 to 50 percent, 51 to 80 percent, 81 to 95 percent, and more than 95 percent of MHI.

The household forecast indicated a total increase of 627 households in Crook County, from 2,921 in 2010 to 3,548 in 2040. Homeowners are expected to increase from 2,317 households in 2010 to 2,796 by 2040. Renters are anticipated to increase from 604 households in 2010 to 752 in 2040.

Homeownership from 2010 to 2040 is expected to increase by 39 households for homeowners with extremely low incomes or 30 percent or less of MHI. Homeownership for those with incomes from 30 to 50 percent of MHI is expected to increase by 41 households and by 96 for those with 51 to 80 percent of MHI.

Rental demand from the years 2010 to 2040 is expected to increase by 10 households for renters with extremely low incomes or 30 percent or less of MHI. Further, rental demand for those with 31 to 50 percent of MHI is expected to increase by 19 households over the period. Table II.6.42, below, provides details of the household forecast by tenure and income.
