

## SHERIDAN COUNTY

### Demographics

The Census Bureau’s current census estimates indicate that Sheridan County’s population increased from 29,116 in 2010 to 30,210 in 2017, or by 3.8 percent. This compares to a statewide population change of 2.8 percent over the period. The number of people from 25 to 35 years of age increased by 3.2 percent, and the number of people from 55 to 64 years of age increased by 3.1 percent. The white population increased by 2.3 percent, while the black population increased by 209.2 percent. The Hispanic population increased from 1,013 to 1,357 people between 2010 and 2017 or by 34.0 percent. These data are presented in Table II.17.1.

Sheridan County vs. Wyoming  
2010 Census and Current Census Estimates

At the time of the 2010 Census, there were 1,009 persons living in “group quarters.” This type of household is defined as places where individuals live or stay in a group living arrangement owned or managed by an organization that provides housing or services for residents, such as medical care. Group quarters also include places like college residence halls, military barracks, or correctional facilities. Between 2000 and 2010, the number of persons living in group quarters increased by 41.1 percent, as shown in Table II.17.3.

In the 1980, 1990, and 2000 decennial censuses, the Census Bureau released several tabulations in addition to the full SF1 100 percent count data including the one-in-six SF3 sample. These additional samples, such as the SF3, asked supplementary questions regarding income and household attributes that were not asked in the 100 percent count. In the 2010 decennial census, the Census Bureau did not collect additional sample data, such as the SF3, and thus many important housing and income concepts are not available in the 2010 Census.

To study these important concepts the Census Bureau distributes the American Community Survey every year to a sample of the population and quantifies the results as one-, three- and five-year averages. The one-year sample only includes responses from the year the survey was implemented, while the five-year sample includes responses over a five-year period. Since the five-year estimates include more responses, the estimates can be tabulated down to the Census tract level, and considered more robust than the one or three year sample estimates.

Table II.17.4, shows data on household type by tenure in the 2016 5-year ACS data. Household type is broken down by family households and non-family households. In 2016, there were an estimated 8,039 family households, of which 6,765 housed married couple families and 1,274 housed “other families.” “Other family” is defined as either a male householder with no wife present, of whom there were 476 families, or a female householder with no husband present, of which there were 798 families. There were also an estimated 4,658 “non-family households,” which refers to households of unrelated people or one person living alone. When compared to the state, the percentage of family households in Sheridan County was 63.3 percent, which compared to the statewide rate of 65.2 percent. Of the family households in Sheridan County, 84.2 percent were married households, which compared to 79.5 percent in the State of Wyoming.

<sup>118</sup> In the 2010 Census, “juvenile facilities” and “correctional facilities” were reported separately.

 Sheridan County  
 1990 – 2017 BLS Data

The BLS produces the Quarterly Census of Employment and Wages (QCEW), which reports monthly data on employment and quarterly data on wages and number of business establishments. QCEW employment data represent only filled jobs, whether full or part-time, temporary or permanent, by place of work the pay period. Data from this series are from the period of January 2010 through December 2017 and are presented in Table II.17.21, with the 2017 information considered preliminary (p). Between 2016 and 2017, total annual employment decreased from 13,370 persons in 2016 to 13,261 in 2017, a change of -0.8 percent.

The Bureau of Economic Analysis (BEA) measures employment, defined as the total number of full- and part-time jobs by place of work. In 2016, the most recent year for which data are available, Sheridan County recorded 20,698 jobs. Total real personal income, comprising all wage and salary earnings, proprietorship income, dividends, interest, rents, and transfer payments, adjusted for place of residence, was \$1,579,033,000, and real per capita income was \$52,286 in 2016. This compares to a statewide average real per capita income of \$55,116. The average earnings per job in the county was \$43,286 in 2016, while Wyoming average earnings per job was \$52,490. These data are presented in full in **Volume II. Technical Appendix.**

**Housing**

According to the Wyoming cost of living index, real average apartment rent in Sheridan increased by 0.7 percent from fourth quarter 2016 to fourth quarter 2017 from \$680 to \$697. During that same period, detached single-family home rents decreased by 0.4 percent, rents for mobile homes on lots increased by 11 percent, and rents for mobile home lots decreased by 1.2 percent.

Sheridan rental prices experienced average annualized increases of 1 percent for apartments, 1.6 percent for houses, 0.6 percent for mobile homes plus a lot, and 0.7 percent for mobile home lots since fourth quarter 1988 through the fourth quarter 2017. These figures compare to state average annualized increases in rental prices of 0.7 percent for apartments, 1.2 percent for houses, 0.9 percent for mobile homes plus a lot, and 0.9 percent for mobile home lots over that same period. Table II.17.24, presents the

Sheridan data for each rental type.<sup>119</sup>

The Census Bureau reports building permit authorizations and “per unit” valuation of building permits by county annually. Single-family construction usually represents most residential development in the county. Single-family building permit authorizations in Sheridan County increased from 125 authorizations in 2016 to 126 in 2017.

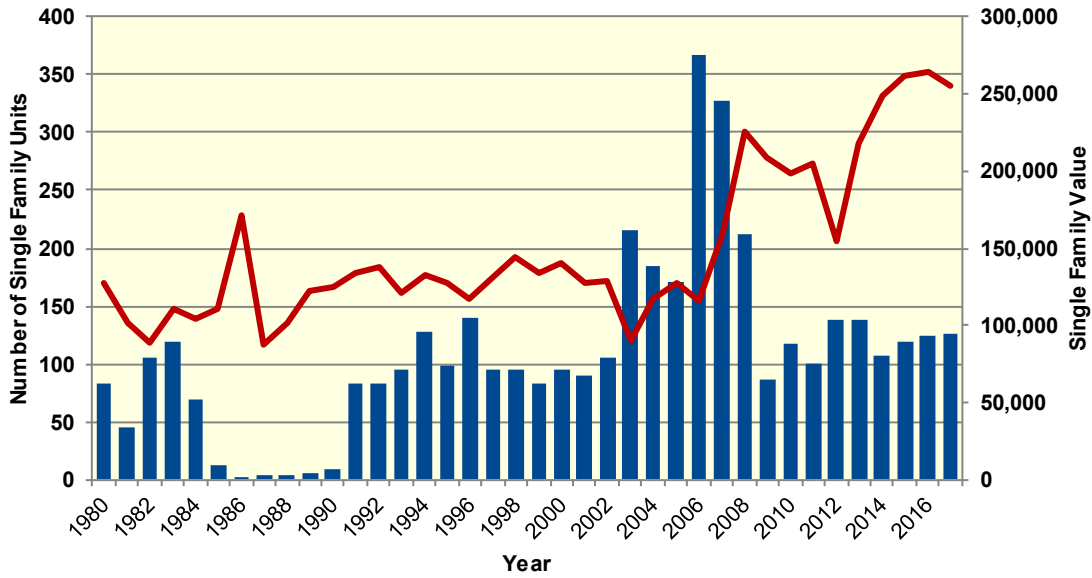

The real value of single-family building permits decreased from \$264,585 in 2016 to \$255,037 in 2017. This compares to an increase in permit value statewide, with values rising from \$359,790 in 2016 to \$324,025 in 2017. Additional details are given in Table II.17.25.

**Vacancy Rates by Year**  
 Sheridan County vs. Wyoming  
 RVS Data, June 2001 – June 2018

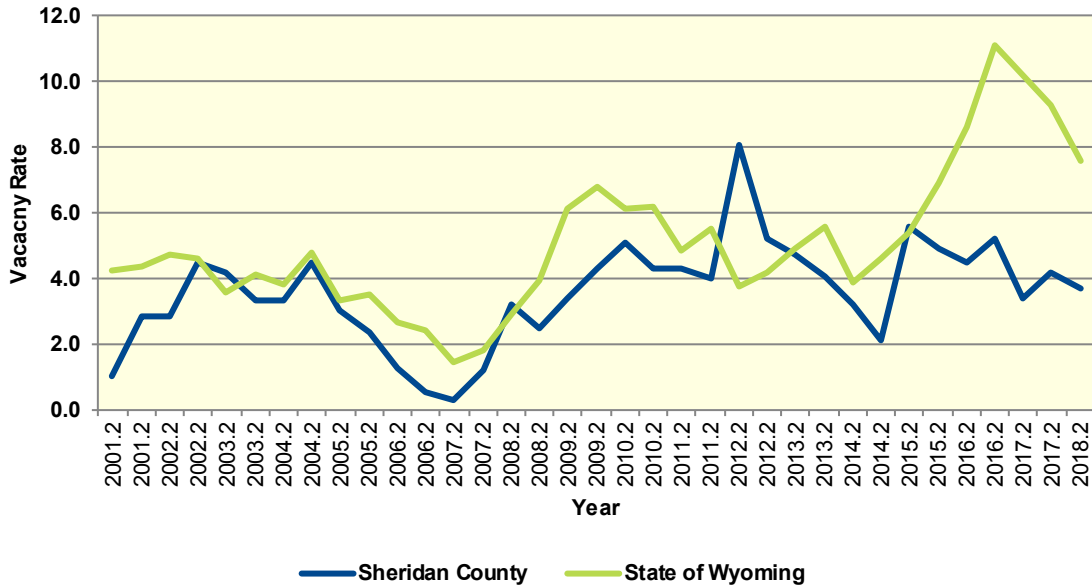

Diagram II.17.8, shows the average rent of single-family and apartment units in Sheridan County. In 2018, rents for single-family units were to \$956 and average rent for apartments were \$707.

**Diagram II.17.8**  
**Average Rent of Single Family and Apartment Units**  
 Sheridan County  
 RVS Data, June 2006 – June 2018

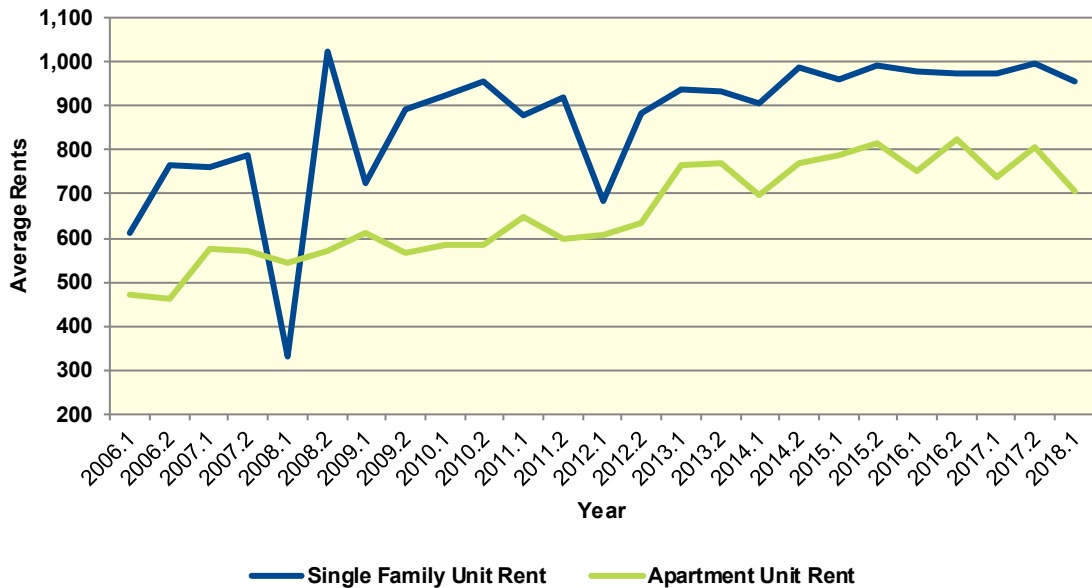

Table II.17.28, shows the amount of total and vacant units with their associated vacancy rates. At the time of the survey, there were an estimated 104 single family units in Sheridan County, with 4 of them available. This translates into a vacancy rate of 3.8 percent in Sheridan County, which

compares to a single family vacancy rate of 4.4 percent for the State of Wyoming. There were 757 apartment units reported in the survey, with 39 of them available, which resulted in a vacancy rate of 5.2 percent. This compares to a statewide vacancy rate of 4.4 percent for apartment units across the state.

<b>Table II.17.28</b>

Table II.17.42, shows the condition of rental units by unit type for Sheridan County. Respondents could rate their units from poor to excellent, however many respondents did not know, or did not wish to comment on the condition of their units. As reported 1,120 units were in good condition, or 68.5 percent and 40 units, or 2.4 percent, being in average condition. Details by unit type and condition are displayed.

<b>Table II.17.42</b> <b>Condition by Unit Type</b> Sheridan County 2018a Survey of Rental Properties		
Conditions	Units	Percent of Total
Poor	0	0%
Fair	0	0%
Average	40	2.4%
Good	1,120	68.5%
Excellent	255	15.6%
Don't Know	0	0%
<b>Total</b>	<b>1,635</b>	<b>100.0%</b>

Respondents were also asked if they would like to own or manage additional units and if so, which type of units would they prefer. As can be seen in Table II.17.43, 6 respondents said they would prefer more single family units, 4 respondents wanted more apartment units, and 5 respondents indicated they would prefer more units of any type.

<b>Table II.17.43</b> <b>If you had the opportunity to own/manage more units, how many would you prefer</b> Sheridan County 2018a Survey of Rental Properties	
Unit Type	Respondents citing more units
Single family units	6
Duplex Units	1
Apartments	4
Mobile homes	0
Other	0
All types	5
<b>Total</b>	<b>16</b>

Table, II.17.44, shows the most common answers from the 2018 fiscal year Housing Needs Assessment (HNA) Survey. This survey focused on new Wyoming residents and was conducted over the phone using a sample from data provided by the WYDOT. Sheridan County had a total of 24 respondents, with an average persons per household of 2.4 people. Of new residents to Sheridan County, 62.5 percent were married and the most common age group arriving in the state was 35 to 44 years old. Most new residents moved to be closer to friends or relatives.

The HNA survey, also asked residents about their current residence. New residents most commonly reported living in a single family home, with 54.2 percent of respondents renting their residence. The average mortgage payment in Sheridan County was \$885 and the average rent was \$994. When asked if they were satisfied with their current housing, 66.7 percent said they were satisfied with thier current housing.

<b>Table II.17.44</b> <b>Most Replied Response</b> Sheridan County HNA Survey: Fiscal Year 2018	
Question	Most Replied Answer (%)
<b>Demographics</b>	
Total Number of Respondents	24
Number of persons in household (Average)	2.4
Current age	35 to 44 years old (33.3%)
Marital status	Married (62.5%)
Primary reason for moving to Wyoming	Friends or relatives in Wyoming (37.5%)
In which industry are you primarily employed	Retired (37.5%)
Highest education level completed	High School Diploma/GED (29.2%)
Total household income from all sources	\$50,000 to \$74,999 dollars (28.6%)
<b>Current Housing Characteristics</b>	
Current Residence	Single family home (66.7%)
Do you own or rent	Rent (54.2%)
How many bedrooms (Average)	2.6
How many full bathrooms (Average)	
Average mortgage payment	\$885
Average rental payment	\$994
Are you satisfied with your current housing	Satisfied with current housing (66.7%)
<b>Housing Demand (If unsatisfied with current housing)</b>	
Reason you are unsatisfied	Need more bedrooms (42.9%)
Are you seeking to change your housing situation	Seeking different housing (100.0%)
What type of unit are you seeking	Single family home (100.0%)
Type of tenure seeking	Seeking to buy (66.7%)
If own, do you plan on building or buying	Buy an existing unit (66.7%)
Expected buying price	Not sure (100.0%)
Expected building price	\$150,000 to \$199,999 dollars (100.0%)

For residents who are unsatisfied with their current housing, 42.9 percent were unsatisfied because they need more bedrooms. When asked what type of unit they were seeking, the most common response, 100.0 percent, indicated they were seeking a single family home. When asked if they preferred to own or rent, 66.7 percent wanted to buy and 16.7 wanted to rent their next residence. Most residents wishing to buy a house anticipated spending Not sure if they were buying an existing unit, and \$150,000 to \$199,999 dollars if anticipated building a new unit. Additional survey data are presented in **Volume II. Technical Appendix.**

### Housing Problems

While the ACS data do not report significant details regarding the physical condition of housing units, some information can be derived from data relating to overcrowding, incomplete plumbing or kitchen facilities, and cost burdens.

Overcrowding is defined as having from 1.1 to 1.5 people per room per residence, with severe overcrowding defined as having more than 1.5 people per room. According to 2016 5-year ACS data, 124 or 1.0 percent of households in Sheridan County were overcrowded and another 15 or .1 percent of units were severely overcrowded, as shown in Table II.17.45. This housing problem was far more prevalent in renter households as compared to owner households.

<b>Table II.17.45</b>

Incomplete plumbing and kitchen facilities are another indicator of potential housing problems. According to the Census Bureau, a housing unit is classified as lacking complete plumbing facilities when any of the following are not present: piped hot and cold water, a flush toilet, and a bathtub or shower. Likewise, a unit is categorized as deficient when any of the following are missing from the kitchen: a sink with piped hot and cold water, a range or cook top and oven, and a refrigerator.

At the time of the 2016 5-year ACS, a total of 481 units or 3.4 percent of all housing units in Sheridan County were lacking complete kitchen facilities. This compared to 2.7 percent of households statewide without complete kitchen facilities. These data are presented in Table II.17.46, at right.

<b>Table II.17.46</b> <b>Housing Units with Incomplete Kitchen Facilities</b> Sheridan County 2011-2016 5-Year ACS Data		
<b>Facilities</b>	<b>Sheridan County</b>	<b>State of Wyoming</b>
Complete Kitchen Facilities	13,863	260,769
Lacking Complete Kitchen Facilities	481	7,218
<b>Total Housing Units</b>	<b>14,344</b>	<b>267,987</b>
Percent Lacking	3.4%	2.7%

At the time of the 2016 ACS, a total of 335 units or 2.3 percent of all housing units in Sheridan County were lacking complete plumbing facilities. This compared to 2.6 percent of households lacking complete plumbing facilities in the State of Wyoming. These data are presented in Table II.17.47.

<b>Table II.17.47</b> <b>Housing Units with Incomplete Plumbing Facilities</b> Sheridan County 2011-2016 5-Year ACS Data		
<b>Facilities</b>	<b>Sheridan County</b>	<b>State of Wyoming</b>

<b>Total Households</b>	<b>14,344</b>	<b>267,987</b>
Percent Lacking	2.3%	2.6%

The third type of housing problem reported in the 2016 ACS data is cost burden. Cost burden is defined as gross housing costs that range from 30.0 to 50.0 percent of gross household income; severe cost burden is defined as gross housing costs that exceed 50.0 percent of gross household income. For homeowners, gross housing costs include property taxes, insurance, energy payments, water and sewer service, and refuse collection. If the homeowner has a mortgage, the determination also includes principal and interest payments on the mortgage loan. For renters, this figure represents monthly rent and selected electricity and natural gas energy charges.

In Sheridan County, 15.5 percent of households had a cost burden and 11.6 percent of households had a severe cost burden, which compared to 14.2 percent with a cost burden and 9.6 percent with a severe cost burden in the State of Wyoming. Roughly 17.3 percent of homeowners with a mortgage in Sheridan County experienced a cost burden and 12.8 percent experienced a severe cost burden, while 19.7 percent of renters had a cost burden and 17.5 percent had a severe cost burden, as seen in Table II.17.48.

### 2017 Household Forecast

The 2017 Housing Needs Forecast reports housing demand projections from 2017 to 2050, with 2016 as the base year. Three possible economic futures portraying moderate, strong, and very strong growth were used to create three forecasts. The strong scenario is the base case, representing conditions as of today. The moderate growth scenario forecast projects household growth with the assumption of slower population and employment growth, where the very strong growth scenario incorporates assumptions of much stronger employment and population growth over the forecast horizon.

The primary objective of offering three alternative forecasts is to enhance planning capacity and to provide additional tools in order to assist state and local governments in their ongoing housing needs assessment, thereby facilitating informed discussion about housing demand at the local community level. These forecasts prove useful when interpreting the need for new or rehabilitated housing and whether single-family or rental housing activities might be best undertaken.

All three forecasts span the period of 2017 through 2050 and offer predictions of the demand for housing. However, only the strong growth scenario is report here. The moderate and very strong scenarios are reported in the WCDA housing forecast report.

This report uses the modified population projections based on projections released from Woods & Poole Economic, Inc (W&P).

Income categories were calculated using the Housing and Urban Development CHAS (Comprehensive Housing Affordability Strategy) data and are expressed as a percentage of area Median Family Income (MFI).

This distribution is assumed to remain constant over the forecast horizon. Table II.17.49, shows the current CHAS housing problem estimates for the period of 2010-2014. Both the income distribution and the percentage share of households experiencing housing problems were derived from this data and assumed to remain constant throughout the forecast horizon. As can be seen there were a total of 1,800 owner occupied and 1,369 renter occupied households experiencing a housing problem.

Table II.17.50, shows the total estimated housing by tenure for Sheridan County. As can be seen, in 2030 there are estimated to be a total of 9,600 owner and 4,276 renter occupied households or a total of 13,876 households. By 2050 there are estimated to be 10,558 owner, 4,584 renter for a total of 15,142 households in Sheridan County.

2050	10,558	4,584	15,142

Table II.17.51, shows the incremental housing demand for Sheridan County. The incremental housing demand estimates the additional housing stock needed above the currently available housing stock. In 2016, the base year, the incremental housing demand is set at zero and all future years show the estimated stock needed in addition to the current housing supply to satisfy future demand.

As can be seen in 2030 an estimated additional 912 owner-occupied and 267 renter occupied households will be needed above current 2016 housing levels to address future household demand. The incremental housing demand is also reported by income breakdown. In 2050, it is estimated Sheridan County will see an additional 2,445 households, of which 261 are estimated to have incomes of 0 – 30 percent of Median Family Income (MFI). And additional 479 households above current 2016 levels are expected to have incomes of 50.1 to 80.0 percent of MFI.

Table II.17.52, shows the Incremental Total Housing Need Forecast for Sheridan County. The incremental total housing need forecast is calculated by adding the incremental housing demand forecast with current un-met housing need. Un-met housing need is defined as any household experiencing a housing problem as defined by HUD. The total housing need shows the broadest measure of future housing need because it takes into account future housing demand as well as the current need among existing housing stock.

In 2016, the base year, the total housing need set at the 3,231 households, which represents all households with an unmet housing need that needs to be addressed, such as cost burden or sub-standard living conditions. In all future years, the incremental housing need forecast shows both existing need and need based on future demand by income. In 2050, there will be an estimated need for 3,650 owner and 2,025 renter occupied households for a total of 5,676 quality households.

**2018 WCDA Loan Profile**

The Wyoming Community Development Authority (WCDA) began purchasing home loans in 1978 to provide affordable housing in Wyoming. There were a total of 2,612 loans purchased in Sheridan County between 1979 and 2018, with 56 occurring in fiscal 2017. The average home size over the period was 1,203 square feet and 1,325 square feet in fiscal 2018. For homes receiving a WCDA loan in fiscal 2018, the average year a home was built was 1962. The average household income in fiscal 2018 in nominal terms, without the effects of inflation being taken into consideration, was \$51,498. The average purchase price in fiscal 2018 was \$178,163. In fiscal 2018, 0.0 percent of loans purchased were for new construction, and 39.3 percent had female heads of household. Fiscal year data for the entire operating history of the WCDA can be found in **Volume II. Technical Appendix.**
